outside the city wall. Pilate made many attempts to scape from the crime of condemning Christ, but eventually alowed the mob choice to rule. On Calvary

Before Christ was crucified on Calvary, he was mistreated by Ro-man soldiers. Matt. 27: 33. And when they were come unto a place called Golgotha, that is to say, The place of a skull. 34. They gave him wine to drink mingled with gall; and when he had tast-ed it, he would not drink. The bitter gall had a narcotic and stupefying effect, deadening the sense pain. Jesus desired to drink to the full "the cup" from his Father's hands. 35. And when they had crucified him, they parted his garments among them, casting lots; 36. and they sat and watched him there. The victim died a slow, agonizing death. His garments were the perquisites of the crucifiers. The soldiers, keeping up the sport, divided out the various articles by casting lots - a

> Soil Lacking In Chemicals

80 Per Cent Deficient in Phos-Phates and 50 Per Cent In Potash York County Surdey Shows-664 Farms Tested

York County Agricultural committee has just disclosed that the recently conducted soil survey of 664 farms throughout the county had uncovered a deficiency in phosphates in 80 per cent of them and potash in 50 per cent. Council adopted a resolution to continue the survey in 1940 and commended Ontario Agricultural College surveyors for the excellent work accomplished. From the 664 farms some 2,700 samples were

taken and examined at the college.

WILL REPLENISH LIME "Interim reports showed that most of the samples contained sufficient lime," declared Reeve W. H. Pugsley of Sutton "while 80 per cent showed a deficiency of phosphates. This is to be expected a milk producing area." Plans were discussed to replenish the lands with phosphates and potash, the work to commence within the very near future.

Council also gave approval a continuance of the potato programme begun in 1939. The plan is to provide better potato crops for York County to compete with

## Gardening ....

MOST FOR MONEY Every foot of space must count n the small vegetable plot. Rows are narrow, and as one vegetable is used another takes its place. Only the most productive things are planted, like beans, radish, save. He is the King of Israel; let lettuce and spinach, and also those which have a flavor all their own when taken from the garden at the door. In this category will be peas and corn, never as sweet and fresh as when picked, cooked and eaten within an hour.

Small vegetables like lettuce and radish require rows only 12 inches apart. Beets, beans, carrots, peas and spinach need at least 15 inches between, while potatoes, corn and staked tomatoes must have a couple of feet to thirty inches. Space may be saved with the latter type if something quickmaturing such as lettuce and spinach are planted in between. The bigger things will not need the full room at first, and by the it preceded the earthquake which came very shortly. 46. And about time they do the early crops will be out of the way.
