THE CONTINUING TASK .-Matthew 28: 16-20 GOLDEN TEXT .- Ye shall be my witnesses . . . unto the uttermost part of the earth. Acts 1: 8. THE LESSON IN ITS SETTING Time .-- We are not sure exactly when this event occurred during the forty days of our Lord's frequent manifestations after his surrection, before his ascenaion; it took place sometime in April or May of A.D. 30. Place .- A mountain in Galilee.

It is commonly recognized that there were ten different appearances of our Lord after his resurrection from the first one early Caster morning to the women, and the last one, to the apostles just before the ascension, forty days later. The appearance recorded in our lesson for today, is generally counted as the eighth of these ten

pointed them. On Thursday of Passion Week our Lord had said to his disciples, 'After I am raised up, I will go before you into Galliee", and probably this ap-pearance is a fulfillment to that promise. (Jesus has promised also be in the midst of any group of his disciples, even in the midst of as small a one as two or three persons. Are we all keeping our ppointments with Jesus?).
17. And when they saw him, they worshipped him; but some doubted. There was evidently

something about his appearance which commanded the attitude of worship. 18. And Jesus came to them and spake unto them. Our Lord, leaving the spot on which he had shown himself to the crowd, came to the eleven and spoke to them. We may suppose that those who were also standing by could hear his words, and possibly were addressed indirectly. Saying. All authority hath been given unto me in heaven and on earth. As he gave authority to his disciples to act in his name so he spoke of himself as one who had received authority from the Father, Authority "in heaven", in that unseen and eternal order which is altogether beyond human knowledge or control, is claimed by the risen Christ.

BETTER GRADE HAY

The desirability of lowering the cost of keeping livestock and of dairy production, by means of producing hay of higher feeding value was stressed by Dr. O. Mc-Conkey of the Ontario Agricultural College, Guelph, in an address at the second Brant County seed fair held in Brantford. Dr. McConkey reviewed the soil capacity of Ontario farmlands for hay production and showed that hay was thus the cheapest feed Ontario could produce.

DAIRY COW'S FARE How feed affects profits from the cow becomes an acute question with the dairyman. The greatest expense connected with dairy arming is the cost of the ration. It requires a good many years to we can change the feeding methods in a season. The simplest and easiest method of increasing the profit from the milking herd is to provide the animals with ample feed which should be produced on the farm, where it can be procured at the lowest possible cost. While contemplating the seeding program at this season, consider the bill of fare for the cow, as it affects her profitable returns.
The cheanest and hest source of oughage is found in silage, alfalfa and clover hay.

Fairey "Battles" Used In British Con

The Fairey "Battle", which has not been used here for training purposes before, is a two-seat medium bomber of British design and manufacture. It is being used in this country by the R.C.A.F. for training purposes and is one of six aircraft selected for use in connection with the British Commonwealth Training Plan. It is to be used also for towing targets at which air gunners can release bursts of fire, and so increase their efficiency.
