## SWINE BREEDERS PLAN FIELD DAY

At a meeting of the Haldimand Yorkshire Swine Breeder's Club held recently in the Department of Agriculture, Cayuga, plans for a number of projects were made and officers elected for the current year. It was decided to hold a Swine Breeders' Field Day early in June with the tentative date of June 3rd being selected. At this meeting it is hopec to have outstanding speakers in addition to a number of demonstration classes and a judging competition.

Plans were also laid for a number of the breeders of the county to attend the Yorkshire Field Day at Guelph on June 11th and 12th. It is hoped that a large number of the local breeders will avail themselves of this opportunity.

It is also hoped that something can be done by way of forming a boys' swine club in which case a Junior Farmer between the ages of 12 and 20 would enter two weanling sows in a competition. Several other projects were discussed and plans laid for their completion the principal one being in connection with the holding of a Bacon Hog Fair again this year.

## Summarizing SPORTS -BY- B.P.

They'll do it every time ! The Haldimand Baseball League executive held a meeting here on Tuesday night to make a final settlement concerning our local group. Jarvis and Caledonia were finally convinced that they should round out the group which now consists of five teams, Caledonia, Hagersville, Jarvis, Dunnville and Fisherville. This race should be a tight affair as last years weaker clubs will be considerably strongers, and Hagersville, Ontario Champions, will miss the league's foremost hurler as George Peters is said to be eyeing greener pastures.

Whether Jarvis has a strong team depends solely upon whether the games are played at 6.15 or at the usual hour, 3.30. If the former date is adopted you can expect a very successful season for the local talent, but 3.30 ball is practically taboo as far as we are concerned.

Leo Lefler, Eddie O'Donnell and Malcol mPeacock, three Simcoe products have wish to throw in with our club if evening baseball is accepted. These three would be valuable assets to any club.

The more we consider the Juvenile situation, the more we realize that Coach Elson Held is going to have his hands full. There is one thing certain and that is the players could be getting the jump on the rest of the clubs if they would come out for some early workouts. However, this is practically impossible as the diamond is far from being in suitable condition for even practising. The members of the Athletic Association who are responsible for the playing field should see that it is floated within the next few days.

The Athletic Association really accomplished something of worthwhile recognition when they redecorated the second floor of the Jarvis arena and changed an ordinary dance hall into a really smart ball room. Last week this dance hall was just a bare room with a better than average dance floor. Today, it probably is the best dance hall in the district. The entire interior of the building has been painted in the striking colours of red, white and blue and the decorations, which have not been erected at present, are to be done in the same colours.

The Association is planning a series of Spring Dances, the first of which is to be held tomorrow night, in order to raise money as a means of sponsoring sport here both for this season and for future years. If these dances are successful to any great extent, floodlights for the ball park may be the goal for the Athletic Association to reach It would certainly be a boon to the Town as well as a feather in the hat of the Association.

### STOLEN CAR IS WRECKED WHEN THIEF LOSES CONTROL

(continued from page one)

as well as the front grill, three hub caps, the handle from one front door and the running board. The front fenders as well as the left hand side of the car and the top were a mangled mass of wreckage.

**Driver Unhurt**

How the driver emerged from the accident unhurt was a mystery to those who saw the wreckage and the damage done in the wild ride before the car came to a stop. Harold Nie who started for the scene of the accident as soon as he heard the crash saw the man more than a quarter of a mile east of the car, but never thought it would be possible for him to be in any way connected with the accident. Constable McCoffee of Cayuga, arrived at the scene shortly after and immediately formed a posse to search for the man. Nearly Twenty local men volunteered.

**Found on Townline**

The searchers travelled all the roads in the district and searched barns and other places that might provide a hiding place. Constable Coffee, who was being driven by Chas. Hamilton a local farmer, apprehended Moulton around ten o'clock near the Old Holme's homestead on the Front Road, about six miles from where the accident took place. Constable Coffee stopped a car coming from the north a few minutes before, and the driver told the Constable she had seen a man walking north wearing a maroon sweater. With this information the officer soon had Moulton in tow. It is understood he will be held in Cayuga until Saturday, when he will appear in Magistrate's Court.

**Seen During Afternoon**

Several Jarvis residents state they saw a man fitting Moulton's description around the Village during the afternoon. In fact Mr. Marshall, who had been polishing his car in front of his home a few minutes before, said he had passed by.

The car was brought to Jarvis and it is understood theft insurance was carried.

Among the community services which are being maintained by the CBC on its summer schedule is "Neighbourly News from the Weeklies," with Andy Clarke reviewing the happenings in rural Ontario and perusing the news with a twinkle in his eye. "Neighbourly News" will be wearing an old straw hat and toting a fishing rod a good many times this summer, but on Sunday morning at 10.00 o'clock (Eastern Daylight Saving Time) he will be at his microphone with all the Ontario Weeklies spread out before him. Rural listeners, whose communities are remaining on Standard Time, will tune in at 9.00 A.M. and it is hoped that those members of church goers who wish to attend morning service that the broadcast gets up an hour earlier throughout the summer months.

It was believed the thug concealed himself in the back seat of the car when it was stopped in Delhi but he did not attempt to lay way his victim until the car reached Simcoe. He was ordered to stop the car and was brutally struck over the head several times. Ed Marks, of Simcoe driving behind the Hambleton machine saw a short man jump out of the Hambleton car and run across of the Hambleton car and run across a nearby lawn to make his get away. ## Editors Enjoy Convention In Border City

### Weekly Publishers Hold Two Day Meeting in Windsor

For the first time in the history of the group, the members of the Ontario-Quebec Division of the Canadian Weekly Newspaper Association held their annual convention in the City of Windsor on Friday and Saturday of last week.

The convention was the largest ever held by the Division when more than One Hundred and Seventy-five Editors and their wives gathered for the meeting. The two day stay was divided between business and pleasure. Friday was devoted almost entirely to sight-seeing, while Saturday the annual election of officers and business forums were held.

The weekly publishers were given an opportunity to see for themselves the vastness of the Ford Motor Co. enterprise in the Cities of Windsor and Detroit. They were given a personally conducted tour through the Windsor plant of the Company on Friday morning, and were then taken over to Detroit past the huge River Rouge Plant to the Dearborn Inn for lunch. During the afternoon all were privileged to go through the Ford Museum and Greenfield Village at Dearborn.

On Friday evening a banquet was held in the Prince Edward Hotel with Lee A. White, director of Public Relations for the Detroit News as guest speaker.

All members of the party were particularly impressed with the Ford Museum and Greenfield Village at Dearborn. The Village has been constructed by Henry Ford in memory of his old friend, Thomas Alva Edison, who was regarded as the greatest man of his age. Many old buildings have been brought from all parts of the country and set up in their original state. Among the interesting buildings particularly from the stand point of the Ontario visit-

ors was the old Edison Homestead, which was purchased by Ford and removed to Greenfield Village from Vienna, Ont., where the Great Inventor was born. Edison's Laboratory which was brought from Menlo Park, N.J., was another interesting sight. It was in this building that Edison first made his brilliant discoveries that resulted in the creation of the electrical industries. Wright Bros. Cycle shop, Sir John Bennett's Jewelry Store, the Village Inn, The Town Hall, Church and Courthouse are all reproduced as they were nearly Seventy-five years ago.

The museum is too vast in magnitude to properly describe. Relics of the Industrial world exceed in interest only slightly more as the advanced stages of progress are exhibited in every line of industrial endeavor imaginable. The impressive part of the whole scheme is that it will increase in value and interest as the years go on. The Ford museum will live forever and the memory of its founder, Henry Ford now one of the greatest sights in North America and we hope our readers will take the first opportunity they have to see it personally. We guarantee you will not be disappointed.
