

EMPLOYEES Earn 22.7% More than in 1929

This 22.7% increase in earnings per hour of Dominion Textile plant employees has been made although selling prices are 16.2% lower. Reduced raw material costs and improved manufacturing methods have made the lower selling prices possible.

The U.S. and Canadian textile industries are bracketed by the International Labour Office at Geneva as paying higher wages than those of any other countries. Textiles employ 21% of all Canadian industrial workers—one in every five. They provide 13% of Canada's total net industrial production.

A WEEKLY REVIEW OF NATIONAL AFFAIRS

Ottawa May 14.—The invasion of Belgium and the Netherlands by the Germans has deeply stirred the Canadian people. The spread of the conflagration to the Lowlands has brought home the tremendous forces and men of the attack on the liberties of free people and has brought out just as clearly the iron will of these peoples to defend their liberties. There is no doubt that the coming session of parliament will reflect the seriousness of the situation abroad and the determination of the Canadian people to extend the national effort to the full. The National Defence Council and the Supervisory Board of the Air Training Scheme have been meeting in urgent sessions to throw their weight into the defence of the Dominion's military and air effort to full gear. The air supervisory board which guides the great cooperative training plan, now assuming greater importance than ever before in the face of German air activities, consists of the Minister of National Defence, the Finance Minister, the Minister of Munitions and Supply, Deputy Minister for Air, Chief of the Air Staff, Air Vice-Marshal Coot, the British and Australian High Commissioners and a New Zealand air representative. This plan was inaugurated when the report was created. Hon. Newton W. Rowell, the first Chairman of the Commission, who was appointed by the Dominion Government August 14, 1937, and Joseph Sivola, of Quebec City, who became Acting Chairman when Mr. Rowell fell ill and who later was appointed Chairman to take Mr. Rowell's place.

The members of the Commission have held sittings throughout every Province of the Dominion and have employed a staff of men chosen from Canada's most eminent economists, historians and constitutional experts to help them in their labours of research and investigation.
