TRUCKERS!

(in 32 x 6 size only)

The biggest truck tire bargain you ever saw! It gives you extra mileage at extra low cost! Equip your truck with this big, new 32 x 6 Marathon . . . it runs and runs and runs . . . and the longer it runs the more you save! Note the high, wide tread with the deep notched rib and non-akid tread design.

Generous dimensional increase all around, resulting in greater roominess, stability and riding comfort are among the new features of the Chevrolet line of passenger cars for 1941, as announced today by General Motors Products of Canada.

Front and rear seat widths, elbow and shoulder room, wheelbase and bumper-to-bumper length, all have been noticeably increased, while low er frame and body-floor complete the impression of low-slung strength and centre of gravity. This trend is further heightened by new and massive bumpers and an entirely redesigned front end, which will make Chevrolet for 1941 one of the most distinctive cars on the road.

Two series — the Master De Luxe and the Special De Luxe — comprise the Chevrolet line for the coming year. The two series are similar in size and general appearance the difference being mainly a matter of luxury appointments and special accessories. The new models are now in full production at the Genal Regine, and will shortly be on dis-**Leatherdale Motors** JARVIS, ONT.
