

SUNDAY SCHOOL LESSON

LESSON V
JESUS DECLARES HIS MISSION
Luke 4: 5

PRINTED TEXT: Luke 4: 16-30.
GOLDEN TEXT: For the Son of man came to seek and to save that which was lost—Luke 19: 10.

THE LESSON IN ITS SETTING
Time.—The temptation of our Lord occurred probably in February A.D. 27. All the subsequent events recorded in chapters 3 and 4 occurred in the summer or fall of A.D. 28. The temptation occurred in the wilderness, not far from the barren hills rising from the Jordan River; practically all the other events of these chapters occurred either generally in Galilee, or in the two cities of Nazareth and Capernaum, both located in Galilee, Capernaum being at the north end of the Sea of Galilee.

The temptation of our Lord is also recorded in Matt. 4: 1-11 and Mark 1: 12-13. Though other temptations must have preceded this, the one experienced by Christ, at this time Satan made one supreme attempt to bring Christ under his control, on the very threshold of his great public ministry. The temptation followed a great spiritual experience, a season of precious fellowship with God; it is after such exalted experiences as these that temptation often comes in its greatest power. Temptation is itself not sinful; yielding is sinful. The temptations are three, and we can see that they are typical of the human temptation to yield to the flesh, to compromise with evil, and to avoid the hard work assigned to us to achieve God's purposes through us. Over such of these temptations Christ triumphed.

Jesus Early Ministry
Luke 4: 16. And he came to Nazareth, where he had been brought up, and he entered, as his custom was, into the synagogue on the sabbath day, and stood up to read.

17. And there was delivered unto him the book of the prophet Isaiah. And he opened the book, and found the place where it was written:

18. The Spirit of the Lord is upon me, because he has anointed me to preach good tidings to the poor: he hath sent me to proclaim release to the captives, and recovery of sight to the blind, to set at liberty them that are bruised, 19. To proclaim the acceptable year of the Lord.

The entire passage here is to be understood Messianically, that is, a prophecy that referred directly and explicitly to the Redeemer of Israel who was to come. It declares five great tasks which the Messiah was to accomplish when he came, none of which could fully take place until he came, and all of them revealing his wonderful love for us, who needed him, and still need him, so profoundly.

20. And he closed the book, and gave it back to the attendant, and sat down: and the eyes of all in the synagogue were fastened on him. 21. And he began to say unto them, Today hath this scripture been fulfilled in your ears.

The momentous scene was far above what any Nazareth resident. The Word himself had read the word to them. The Messiah, with the Spirit upon him, was present in their midst and doing all that Isaiah in "his scripture" foretold of him.

In the Synagogue
A word here might be said about the book Jesus read from. The Bible was written on a parchment between two rollers, and was always left unrolled at the column for the day's lesson; but the books of the prophets were on single rollers, and the right place had to be found by the reader. Our Lord, turning to Isa. 61: 1, 2, must have read the passage in Hebrew; and then either by himself or by an interpreter it must have been translated to the congregation in Aramaic or Greek, since Hebrew at that time was a dead and learned language.

Prophet in His Own Country
22. And all bare him witness, and wondered at the words of grace which proceeded out of his mouth: and they said, Is not this Joseph's son?

23. And he said unto them, Doubtless ye will say unto me this parable, Physician, heal thyself: whatsoever we have heard done at Capernaum, do also here in thine own country.

24. And he said, Verily I say unto you, No prophet is acceptable in his own country.

25. But of a truth I say unto you, There were many widows in Israel in the days of Elijah, when the heaven was shut up three years and six months, when there came a great famine over all the land; 26. And unto none of them was Elijah sent, but only to Zarephath, in the land of Sidon, unto a woman that was a widow. 27. And there were many lepers in Israel in the time of Elisha the prophet; and unto none of them was Elisha sent, but only to Naaman the Syrian. 28. And they were all filled with wrath in the synagogue, as they heard these things; 29. And they rose up, and cast him forth out of the city,

"Suffer Little Children . . ."

This is a nightly scene in the deep underground crypt of a London church as babies and small children are tucked away each one into a safe from bombs.

And led him unto the brow of the hill whereon their city was built, that they might throw him down headlong. 30. But he was filling through the midst of them went his way. By these illustrations from the Old Testament Jesus declared to the congregation that the benefits and blessings of the divine kingdom were to be in answer to faith, and not in answer to racial relationship. Then they were filled with wrath, and excluded him from the city. They took him to the brow of the hill to cast him headlong. Hostility thus broke out there at the beginning; but hostility has absolutely no power, and he, passing through the midst of them, went his way.

Luke is fond of recording the eagerness of the people to come to Christ (5: 1, 19; 8: 19, 49; 12: 1, 21; 23). And there is no evidence that our Lord ever regarded his works of mercy and heal-

Farm Notes . . .

Need for Lime On Many Soils

(By G. R. Snyder, Soil Chemist)
Profitable production of milk, the derivatives of which form Canada's most favored war time agricultural exports, depends very largely on an abundance of high quality home-grown protein feed, such as is produced by good crops of clover and alfalfa.

Apply Fine Limestone
Tests indicate that the soil of fields where these crops thrive best is high in lime; likewise, that many failures of these crops are due to strongly acid soil conditions, resulting from a deficiency of this mineral substance. Crops take considerable lime from the soil, but very heavy losses are due also to run-off and leaching during seasons of heavy rainfall.

After-Harvest Fertilizing
Finely ground limestone is the most economical liming material for general application on the farm.

Now, after the crops have been harvested, and before or during after-harvest cultivation is the most suitable time to apply limestone. Thoroughly mixed with the soil, it acts more rapidly than if it is left on the surface. Generally, sufficient limestone should be added to bring the soil reaction up to pH 6.5. Potatoes, however, may actually yield more on soil so close to neutral. A pH of 5.5 or lower is better for this crop, and the limestone, if used, should be very finely ground. On permanent pasture lands, it seldom pays to lime soils which have a reaction of over pH 6.0. The approximate amount required per acre can be determined quickly by a soil test.

Far North Produces Gasoline for Flying

Ronald W. MacKinnon of the Northwest Company, Limited, said in a recent interview at Edmonton, that production of 87 octane gasoline at Fort Norman, N.W.T., oil wells, 1,270 miles north of Edmonton, is a complete success. The company, a subsidiary of Imperial Oil, Limited, installed a refinery plant last fall and went into production this summer. MacKinnon said. The gasoline is produced at Fort Norman cheaper than aviation fuel shipped from Vancouver. Previously heavy diesel and motor gasoline were the only products of the sub-Arctic refinery.

At ten daylight time on Wednesday night you can tune in Fred Allen, Kenny Baker, Portland Hoffs and the Mighty Allen Art Players and the musical comedy troupe of top notch comedians, the "The Town Crier".

The small towns of Ontario are going on the air over CKOC, Hamilton, every Friday night at 7:30 p.m. Standard Time (8:30 daylight). Each week a different community in the province is featured, a brief outline of its history given together with a review of recent events taken from the local newspaper presented before the microphone. . . . This Friday night, tune in on Jarvis.

Salads Make for Healthy Foods

It's salad for lunch for Judy Garland when she finds time to relax at home after completing her role in "Strike Up the Band," in which she co-stars with Mickey Rooney. The young starlet is in the garden of her home between games of badminton and dips in the pool.

Trivia: Latest dance craze is the "Pimponee." Rock & a creation dreamed up by Horace Heidt.

Will Osborne's band is now in Minneapolis. . . Carmen Lombardo has just written a tune that should be a hit, titled "Silver Threads and Golden Dreams." . . . Fred Uhl, favorite of the Big Sister cast, has just taken unto himself a wife.

"THE TOWN CRIER"
The small towns of Ontario are going on the air over CKOC, Hamilton, every Friday night at 7:30 p.m. Standard Time (8:30 daylight). Each week a different community in the province is featured, a brief outline of its history given together with a review of recent events taken from the local newspaper presented before the microphone. . . . This Friday night, tune in on Jarvis.

Don't forget on Friday night the new CBC drama series — Canadian Theatre of the Air — heard from CBL and CBO every Friday evening at 10:30. These programs are worthwhile entertainment, done by capable casts.

A new feature for the dancers is heard over WHEN when Wanda

POP SAYS: WILL YOU LEND HIM YOUR RADIO PLEASE? WANT TO HEAR THE LATEST NEWS? NO! WANT TO GET TO SLEEP!

Rescuer Is Bored Saving Same Man

Patrolman George Parker of Baltimore does not object to playing a role in a rescue act, but he would like a change in the cast once in a while. In little more than a month, Parker, who covers a waterfront area, has rescued the same man three times.

Bureau 1890 said that Crown of Norway was first with that of Sweden.

THIS CURIOUS WORLD

ON THE MOON, WATER WOULD BOIL IN FULL SUNLIGHT.

HOME MADE BREAD DOES MORE IN ONE DAY THAN WHOLESALE BREAD DOES IN SIX DAYS.

HOME MADE bread makes up only 10 per cent of the total baked in the United States today. Fifteen years ago, 40 per cent was baked at home. Dextrine, plus properly balanced ingredients, keeps the wholesaler's bread soft and fresh.

NEXT: How long does it take a cow to eat one egg? How long does it take a pig to eat one egg? How long does it take a horse to eat one egg?

WIN MEDALS AND FREE TRIP

John Lister and Harold Pickett, both from Hornby, Ontario, are outstanding figures at the International Plowing Match, held at St. Catharines this year, was the event sponsored by Salada Tea Company.

The big "Salada" Special class, open to all plowmen who had qualified at matches and to all winners of first prizes in the open Junior class, was the event of the match and included 1977 brought together the top plowmen of the Province and attracted wide attention. The first and second prizes were gold and silver medals and an extensive trip to include a tour of agricultural interest. Twelve cash prizes ranging from \$25.00 to \$100.00 were awarded for this event. Top honours went to John Lister and Harold Pickett, both from Hornby, Ontario.

How Can I?
BY ANNE ASHLEY
How can I make a good soup? Mix 1 quart of wood ash with 1 cup table salt, and enough water to give proper consistency. The dark appearance at first will afterwards turn almost white.

How can I whiten the face and hands, and keep the skin soft and smooth? One method is to wash the face and hands once a day with pure white soap and warm water, and wash again in warm (not hot) buttermilk, or sugar milk, or lightly with a soft cloth.

How can I clean grease from stone steps? Pour on a strong solution of washing soda in boiling water, and cover the stain thickly with a paste of fuller's earth and hot water, and allow to remain overnight. Repeat if necessary.

How can I remedy rancid butter? Soak the rancid butter for two hours in cold water, to which a pinch of carbonate of soda has been added. Wash the butter thoroughly, and then form into the desired roll.

How can I prevent silk from slipping in the needle while sewing? This slipping can be prevented, if after threading the needle, as usual, one end of the thread is brought through the eye of the needle a second time.

Modern Etiquette
BY ROBERTA LEE
1. Can a friendly letter be too long?
2. What is the proper thing to say when entering a strange office and you wish to see Mr. Carter, an executive?
3. When giving an informal dinner, how should the invitations be issued?
4. When an introduction is forced upon you, and you know, from things you have heard, that you will not like this person, can you show here feelings by the manner of acknowledgment?
5. When a husband makes frequent business trips, should his wife, in her letters to him, be cheerful instead of relating every little thing that has gone wrong?
6. When a woman is dining-dancing at a hotel, should she check her wrap?

HEALTH TOPICS

Vegetables Are Very Important

Do you eat enough vegetables? Valuable as they are in minerals and vitamins, vegetables must be included in the things we eat. So states an article in the current issue of the magazine "Health," prepared by the nutrition committee of the Health League of Canada.

Not all vegetables are equally valuable from a nutritive point of view, the article points out. Some vegetables supply iron, others do not. We get Vitamin A from one kind of vegetable and vitamin C from another.

Cabbage, spinach and carrots are good sources of vitamin A, which is necessary to maintain normal vision and to prevent disease. Green cabbage is much richer in vitamin A than white cabbage. The outer leaves of cabbage are more valuable than the inner heart.

Serve Two Per Day
Without vegetables and fruit, people would be deprived of the important vitamin C, which safeguards us against scurvy. Tomatoes, cabbage, turnips and potatoes are chief sources of this vitamin. Orange juice and tomato juice also are good.

Cabbage and green leafed vegetables are valuable in their iron content, needed to prevent anaemia. Dried beans are also good iron producers. At least two vegetables should be served every day.

Among the necessary body materials are: proteins, certain minerals and vitamins. Proteins may be obtained from many sources, but not all are of equal value as body building material. Those obtained from meat and vegetables are superior to those we get from grain, vegetables and nuts, for example. Meat and fish, therefore, are as valuable as our regular diet.

The average man needs about 75 grams of protein a day. Experts agree that a large portion of these should be drawn from milk, cheese, eggs and meat or fish. The following table shows the quantity desirable from each:

3 glasses of milk 13 grams
1 one-half cup of cheese 8 grams
1 egg 6 grams
1 normal slice beef 5 grams

Total 33 grams
The other 32 grams will be obtained from others of our daily food.

He Confounded the Experts
PORT ALBERT TEE CLUB
The veteran fishermen were all present, equipped with expensive tackle and the latest word in rods, in fact, the annual "big fish" competition of the Port Albert, B.C., Tee Club was in full swing. Tommy Turner with a cheap borrowed bamboo rod and annexed the silverware with a 4 1/2 pound salmon. He also won himself a very nice fishing boat, and the congratulations of the veterans, who being good fishermen are sportsmen to the core. Fish like the one landed by Tommy Turner are all in the day's sport, summer, fall or winter, on Canada's west coast. The Empress Hotel, Victoria, social centre of Canada's Evergreen Playground, is the headquarters for fishermen, golfers and outdoor enthusiasts generally. —Canadian Pacific Photo.

Canada Grows More Potatoes

Slight Increase in Crop This Year—Sugar Beet Production Up 30 Per Cent

In its first estimate of production of late crops the Dominion Bureau of Statistics estimated 1940 potato production at 40,850,000 hundredweight, an increase of 12 per cent or 4,469,000 hundredweight over the 1939 yield.

Commercial sugar beet production is estimated at 807,000 tons, an increase of 35 per cent over last year's 600,000 tons. The increase, according to the Bureau of Statistics, is due largely to introduction of commercial sugar beet production in the Fort Garry area of Manitoba.

Production of turnips, man-golds is estimated at 37,346,000 hundredweight, compared with 37,680,000 hundredweight in 1939 while fodder corn is estimated at 3,836,000 tons against 4,814,000 tons in 1939.

Artillery Commander Third Division
Brigadier H. O. Brownfield will command the artillery of the Third Division which is currently slated for the defence of Canada's east coast.

What Science Is Doing
HOLDS KEY TO GROWTH
Evidence that there is a specific substance which controls the growth of human and animal bodies is reported from the University of California's Institute of Experimental Biology.

It was found in the pituitary gland, a pocket little organ at the base of the brain, which secretes hormones that affect other glands.

MILE-MINUTE GERMS
The germs and viruses of the common cold, influenza, infantile paralysis and other disease travel at mile-minute speeds from one person to another.

In a report before the American Public Health Association, three scientists of the Massachusetts Institute of Technology demonstrated in pictures that the droplets of a virus are so small that they will pass through a cloth screen and travel at the rate of more than a mile per minute and have a range of 30 feet or more.
