Place.-Peraea, that part of Palestine which was east of the Jor-dan River, opposite Judah. In this lesson we find continual emphasis on Christ's desire to turn the attention of all men to the subject of their own individual, personal salvation, and away from speculating about what will happen to other people, until they have determined in their own hearts to be right with God. Men are as lost oday as when Jesus was here, and just as He desired to save men then, so He desires to save men

"Except Ye Repent" Luke 13: 1. "Now there were some present at that very season who told him of the Galilaeans, whose blood Pilate had mingled with their sacrifices." We have no record of the particular massacre which these hearers now report to our Lord, but these pilgrims from Galilee doubtless had come up to Jerusalem for one of the Feasts, probably Tabernacles, and had come into collision with the Romans, perhaps through some

he answered and said unto them, Think ye that these Galilaeans were sinners above all the Galilaeans, because they have suffered these things? 2. I tell you. Nay: but, except ye repent, ye shall all in like manner perish. 4. Or those eighteen, upon whom the tower in Siloam fell, and killed them, think ye that they were offenders above all the men that dwell in Jerusalem? 5. I tell you, Nay: but, except ye repent, ye shall all likewise perish." What our Lord is here doing is warning his audience that they should not fire be concerned about distress that has happened to others, speculating has happened to others, special and concluding that those destroyed were particularly wicked men, but rather that they should look into their own hearts, discovering their own wickedness, until they realized the tree were worthy of simthat they too were worthy of similar disaster and sudden death, unless they repented. ### More Fast Trains On This Continent

Railroad passenger service Canada and the United States is much faster than it was a year ago, according to the annual train schedule survey just completed and made public by Railroad Magazine. This study shows that separate runs operating daily at an average speed of a mile-a-minute or more grew during the year from 997 to 1,226 —a jump of 23 per cent. The extension of mile-a-minute railroading, it is pointed out, is primarily due to the general improve-ment of inter-city services rather than to a spectacular speedup on any one system.
