LESSON V THE INDIVIDUAL'S RESPONSIBILITY REGARDING BEVERAGE ALCOHOL

Habakkuk 2 : 15; Genesis 4 : 9-12; Mark 9 : 42-48; 1 Thess. 5 : 22. GOLDEN TEXT—Abstain from every form of evil. 1 Thess. 5 : 22. THE LESSON IN ITS SETTING Time.-We do not know exactly when the fend between Cain and Abel arose. The book of Habakkuk was written about 625 B.C. The words of our Lord here quoted were uttered in the autumn of A.D. 29. Thessalonians was written about

Place.-Where Cain and Abel lived at the time this tragedy took place, we do not know. Hakakkuk was a prophet to Israel. The words quoted from one of our Lord's disourses were uttered in Capernaun Thessalonica was a great city of Asia Minor.

The older classes especially need this lesson, because we are living in a most selfish age, when, more and more, while we talk a great for the most part we are becoming especially in great cities find our-selves living for ourselves. Yet people have never had as many contacts as they have today—le the vast importance of our relation ship to other people be particularly stressed here.

Our Brother's Welfare Habakkuk 2: 15. "Woe unto him that giveth his neighbor drink, to thee that addest thy venom, and makest him drunken also, that thou mayest look on their nakedness! One sins against oneself when one drinks so as to produce a state of sin: one person gives another per son to drink for the deliberate purpose of causing intoxication in him in order that he may be made sport of. No matter if we believe drinking to be justified in some way, let us never be guilty, even by word, of leading another per-son into this habit which sooner or later will bring trouble, disaster

and tragedy into his life. Gen. 4: 9. "And Jehovah said unto Cain, Where is Abel thy brother? And he said, I know not: a I my brother's keeper? 10. And he said, What hast thou done? The voice of thy brother's blood crieth unto me from the ground 11. And now cursed art thou from the ground, which hath opened its outh to receive thy brother's blood from thy hand; 12. When thou tillest the ground, it shall not strength: a fugitive and a wanderer shalt thou be in the earth. When or shalt thou be in the earth. A double curse is pro-nounced upon Cain but first he is given the opportunity to repent; for God is long-suffering and not willing that any should perish.

Loving One Another It is not possible and not nec essary to describe in detail how a Christian must be his brother's keeper. My duty to my brotherand especially to my weaker brother - is to safeguard him from slipping away from duty, to kee him mindful of his pledges and faithful to his yows. The message we have received from God is that we should love one another.

The Little Ones Mark 9 : 42. "And whosoever shall cause one of these little ones that believe on me to stumble. it were better for him if a great millstone were hanged about his neck, and he were cast into the sea." Here is a word that should awaken all of us. parents, pastors, teachers, and all who hold positions of influence. The apiritual trust and faith of a child must not be destroyed, 43. "And !" thy hand cause thee to stumble, cut it off: it is good for thee to enter into life maimed, rather than having thy two hands to go into hell, into the unquenchable fire. 45. And if thy foot cause thee to stumble, cut it off: It is good for thee to enter into life halt, rather than having thy two feet to be cast into hell. 47. And if thine eye cause thee to stumble, cast it out: it is good for thee to enter into the kingdom of God with one eye, rather than having two eyes to be cast into hell; 48, where their worm dieth not and the fire is not quenched. Severe Self-Discipline

fate awaits the unrepentant. 1 Thess. 5 : 22. "Abstain from every form of evil." To begin with, we will never be able to abstain from every form of evil unless firs evil is. The Word of God will light our pathway here. But it is not solely that we are to live neutral life, refusing to do evil, but we are to live a positive, abundan life, in doing good—so constantly that our time is wholly taken up with the things that God approves, our minds fascinated with them. our heart loving them, so that evil things find no room in us. True love for our fellowmen will prevent us from leading others into evil.

Domestio Consumption Taking Care of Most Of It-Fixed Prices Established

Canadian commercial apple pro ducers continue to be seriously hit as a resuit of the war. In peace time nearly 50 per cent of their orop was exported, with the Unit-ed Kingdom as the principal market. That market, and others over-seas, are now practically closed. Under an arrangement with the Dominion Government and the chief exporting Provinces, certain fixed prices for apples of the 1940 crop, which ordinarily would have been exported, have been established. Many of the apples are moving into domestic consumption as resh fruit or processed in one way or another. Improvements in the echnique of processing apples have been developed in the labortories of the Dominion Department of Agriculture and are provg helpful in the marketing. SMALLER CROP

Canadian apple production in 1940 is estimated at 11½ million oushels as compared with 171/2 million bushels in 1939. About six and three-quarter million bushels will be offered this season as fresh fruit, leaving four and three-

Hobby Wanted? Raise Poultry

Retired Workers and People Who Live On Pensions Are Advised by Lambton County Agricultural Representative

Poultry raising as a hobby for retired railway employes, refinery workers and others who quit work live on pensions was suggested by W. P. Macdonald, of Petrolia, Lambton agricultural represent ative, in a recent address at th annual banquet of the Sarnia Poul try and Pet Stock Association. Men living in retirement would not only find it an interesting pasme but it could eventually be come a profitable industry, the agicultural official said.

PROFITABLE INDUSTRY Mr. Macdonald stressed the valu the poultry industry to Lamb on farmers. In 1931, he said, there ere a total of 1,004,000 birds in the county, and the returns to farmers totaled \$362,000. Last year there were 1.029.000 birds and total receipts were \$649,000.

Mr. Macdonald emphasized the ecessity of preserving standards in the poultry industry, and he praised the work of poultry shows in assisting in that regard. If the production of each hen in the county could be increased by 12 eggs a year, it would mean an additional \$180,000 for the owners, he said

Small Squares of Glass Display Wares In London Shops -Less Vulnerable to Bombs

Shops in London, England, both the largest and the smallest, are giving a fine example of the courage and tenacity, if one were needed, of the capital's people. In one of London's main shopping streets, three of the largest stores were recently badly damaged, and everyone thought that it would be months before they could ter their doors to shop. But only three days later the restaurant of one was in use again, and both the others have now opened punctual-

Every second child, at the age of 2 years has dental decay. Many children's mouths are wrecked for life before the age of 5, unless routine dental care is insti-tuted. This was the message given 200 members of the Toron-to Academy of Dentisty in Osler-Hall in January by Dr. John C. Brauer, professor of child den-tistry at Iowa State University. Original Cinderella

Few people know that the Third Pyramid of Gizeh, in Egypt, was erected by King Mycerinus to commemorate Nitokris, a very beautiful maiden who was the original Cinderella. While bathing by the river, Nitokris lost her slipper. A great eagle swooped on it and carried it high over Memphis, where finding it un-palatable, the bird released it. The slipper fell into the lap of the King as he sat eating a peach in his garden. He was so struck by the strange incident as well as by the beauty of the slipper and the shape of the foot that he immediately instigated a search for the owner. She was found, came up to expectations, and because his bride, and it was to commen orate her that the pyramid was built.
