Canadian Manufacturers Have To Produce Fewer Cars This Year

Berry, Motor Vedicle Controller of the Departmen of Munitions and Supply, Canadton motor manufacturers must reduce substantially their output of passenger automobiles during the production period from April 1 to Dec. 31, 1941, as compared to their in 1940.

The Strategic Triangle On the subject of the Battle of Crete, "Time," May 19, had this to say: "If Crete should fall, the British position in the eastern Mediterranean would be pretty nearly untenable. The British would then have no practicable advance naval bases, and German bombers would have almost a semi-circle of air bases within easy striking distance of the Suez Canal and of Alexandrig, the last intact fleet base."
We might add that the Axis' task of proceeding overland from the east against Suez would be con-
