(1) Control of Prices

(2) Control of Wages

Commencing November 17, 1941, there

may be no increase in the prices of goods

and services generally unless absolutely necessary and authorized by the Wartime Prices and Trade Board.

No employer, with certain limited excep-

tions, may increase the basic wage rates

paid to his employees unless authorized

Action Necessary to Stop Inflation

prevent the inflation we knew in the last war, and its subsequent depression, unemployment

Every housewife knows that prices are

rising, and rising prices, unless controlled, will make it more costly and difficult to finance

the war. Rising prices, unchecked, will spread confusion in industry and trade; will hinder

production and proper distribution of sup-plies; will make the cost of living rise more

rapidly than wages and salaries; will lessen

the value of savings; will result in hardship

for almost everyone, and especially those with

small incomes. And the result of uncontrolled

inflation, after the war, when prices drop, will

again be depression and unemployment.
Prices cannot be controlled without control

Whole-Hearted Support Required Your Government knows that this policy, as it affects labour, industry, commerce, and agriculture, demands a degree of restriction to which Canadians are not accustomed, and is directly a wartime measure. It will demand self-discipline and self-control. It will need the whole-hearted support of everyone who has the well-being of his fellow citizens at heart. But by loyal co-operation, Canadians can have much more assurance that the fears, sense of insecurity, the suffering and profiteering which inflation always being a series of insecurity, the suffering and profiteering which inflation always being a series of insecurity, the suffering and profiteering which inflation always being a series of insecurity. brings, will neither interfere now in the winning of this war, nor in the recovery and reconstruction of Canada and the Canadian way of living after the war is over.
