Japan's Attitude Less Peaceful United States Looks For Trouble

Interest, apart from Russia's magnificent defense of Moscow, is now centered on the political upheaval in Japan and the attack on the United States destroyer Kearny by a German submarine.

Germany's advance on Moscow has no doubt called forth warlike developments in Japan. Prince Konoze and his more or less peace-loving cabinet have resigned.

The Japanese claim to have a one-year supply (though much is low-test) of gasoline and fuel oil. Their navy is excellent and has confidence that Germany and Italy can prevent a British-American concentration of strength sufficient to hold the Pacific.

It is possible that Hitler is pushing the Japanese to direct American naval strength from the Atlantic to the Pacific.

Where Will Japan Strike? What happens in the immediate future is unpredictable. A Japanese attack on Siberia, especially if the Russians are unable to hold a decisive line at the European end of the Trans-Siberian Railroad, will make Alaska and the North Pacific as exposed an area as is the North Atlantic.

VOICE OF THE PRESS

FALSE ECONOMY One of the watchwords of the day is "economy."

Don't be over-enthusiastic for economy. Let us put our foot down on false economy. "Going shabby" by those of us who habitually dress well is not going to help make more guns and ammunition.

Let's have economy. But let's have it with dignity, with cool judgment, with a vision that shows us clearly what the effect of this economy will be.

At the United States destroyer over, the navy instituted full-dress uniforms for the crew.

With typical realism, Mr. Wilkie declared that the U.S. "must abandon the hope of peace."

CHAPTER 20 Mrs. Banwood's passion for the radio was now audible on the air.

THE MUSIC was a little louder now. It came lilting through the night with its haunting rhythm.

NO BEAUTY "Take another good look at Hitler's picture. It is the face that will have launched 1,400 American merchant ships by the end of 1943."

ALWAYS ON A PICNIC We can't understand how the ant acquired such a reputation for being industrious.

USELESS TEST Imagine testing Hitler out with a lie detector. You know which would choke first.

WHY THEY FAIL Some folks wonder why they don't get on, when all they're trying to do is get by.

GAMBOLE OR GAMBLE Life is either a gamble or a way you play it.

Repledge for War Savings

side of the great hall young laughter rose distinctly. They were just finishing their coffee, with a very special old liquor in honor of the day when their dismay, the draperies at the library door were pushed aside to reveal Elise in slim black velvet, a white ermine cloak off her very bare shoulders.

She barely nodded to Lucy, who could scarcely believe that she was there. When Shirley had refused, it seemed incredible that Elise had come uninvited.

"Don't be a goat," said Mark, smiling. "I'm not too terribly in the way," she went on wistfully. "I never dreamed you'd be on my dear home day, I longed for a glimpse of something real."
