## NIGHT PICTURES EVERYWHERE

Modern films and fast lenses allow night sport shots such as this-sn shots, not time exposures—even without special photo lights. This is a "golden age" for the camera fan.

ONCE there was a time when, to | With such possibilities as that, get your picture taken, you had to sit still for ten minutes in camera fans are taking up the finer brilliant sunshine, with your face cameras with faster lenses. Bepowdered white as snow so it would cause, of course, a fast-lens camera reflect more light. Ten minutes— can also be used for all other kinds think of it. And then compare this of snapshots. If the light is bright ordeal with today, when snapshots and clear-sunshine, or photo lights can be taken in a mere fraction of -you just close the lens down to

for example, it your reus is as of the state sports events—wrestling, boxing bare bulbs; if you used reflectors events, baseball or softball games, with them, f/4.5 would do. Contee skaters under a spotlight, and sider how convenient that is in tak-similar subjects. Not time exposures, but snapshots. You can snap folks at home.

a second—either in the daytime or at night—and with the most inexpensive cameras.

Yes, photography has certainly made tremendous strides. Today, helps you get what you want. with modern high speed films, you and other camera fans can take pictures practically anywhere at any time. With inexpensive photo bulbs, era. I have at hand a little card-you can get splendid snapshots at board exposure guide which tells night even if you have just a box camera. And if your camera has a lighting. It cost a dime. And believe fast lens, you don't even need the extra lights in many cases.

For example, if your lens is as on high speed film with three or-

pictures of actors on a theater stage, Yes, at home or away, modern and pictures of the crowds out front under the bright marquee. And there's no special technique to it- whether we're beginners or exyou just load the camera with high perts. It's a wonderful age—and speed film, open up the lens to the camera fans are learning how to largest opening, set the shutter at

say 1/25 second, and shoot. 323 John van Guilder
