### SUNDAY SCHOOL LESSON

LESSON 16 Growing Tension With False Leaders Luke 11:14-54; 13:37-48, 52-54 GOLDEN TEXT. - He that I sot with me is against me; and so that gathereth not with me eattereth. Luke 11-23.

THE LESSON IN ITS SETTING Time.-November and December, A.D. 29. Place. Somewhere in Peraea, the large territory known by that name in our Lord's days, east of the Jordan River.

Importance of Cleanliness \$7. "Now as he snake, a Pharl. and he went in, and sat down to meat. 38. And when the Phar see saw it, he marvelled that he had not first bathed himself b fore dinner. 39. And the Lord said unto him, Now ye the Pharisees cleanse the outside of the eup and of the platter; but your inward part is full of extortion and wickedness. 40. Ye foolish ones, did not he that made the outside make the inside also? 41 But give for alms those things hich are within; and behold, all things are clean unto you."
Brushing aside the matter of this external washing of hands, Jesus mmediately turned to discuss more serious violation of a greater concerning inward cleanliness, telling the Pharisees that ernally they were like a cup washed clean, yet in their own hearts, they were like that same eup full of foulness. Of the two r cleanliness, in the sight of God, is much more important than external cleanliness, though even the latter is never spoken of care-

Almsgiving is only mentioned as one typical form of charity, which was in that state of society pre-eminently necessary. The general lesson—that God does not care for ceremonies, in lves, and only cares for them at all when they are accompanied by sincere goodness-is again and again taught in Scripture.

Disregard of God's Love 42. "But woe unto you Phari sees! for ye tithe mint and rue and every herb, and pass over justice and the love of God: but these ought ye to have done, and not to leave the other undone. 48. Woe unto you Pharisees; for ye love the chief seats in the synagogues, and the salutations i marketplaces." Jesus does not object even to the scrupulou trasts the ridiculous eagerness to tithe the most insignificant herbs with the disregard of that love to God which comes out in love to

Mistaking the Pharisees 44. "Woe unto you! for ye are as the tombs which appear not, and the men that walk over the know it not." If a man touched a grave he was ceremonially un-clean, and the Jews took pains to make their graves visible, h sometimes a man might touch a grave without knowing it. Men when they first meet the Pharisees may suppose they are talking to saints, but they are in communication with those who will surely corrupt.

Disregard of the Law 45. "And one of the lawyers enswering saith unto him, Teacher, in saying this thou reproachest ms also. 46. And he said. Woe unto you lawyers also! for ye men with burdens grievo to be borne, and ye yourselves touch not the burdens with one of your fingers." The burdens here referred to are the compli cated interpretations by which scribes, or lawyers, augment ed the written law. They made it more severe than it was in tended to be. They were scrupuous about their own traditions, but they did not keep the law

Rejection of Prophets 47. "Woe unto you! for ye build the tombs of the prophets, and your fathers killed them. 48. So ye are witnesses and consent unto the works of your fathers for they killed them, and ye build their tombs." The charge here is that while the Jews seemed to take great pride in the tornbs they had built for the prophets, yet the fathers of these men had put the prophets to death, which he lawyers of Jesus' time said they would never have done. Yet, they rejected the greatest of all prophets, John the Baptist, and they would soon crucify the sent One of God.

Key to the Scriptures knowledge: ye entered not in yourselves, and them that were entering in ye hindered." The key of knowledge refers to the Scriptures that are like a house with a door requiring a key. God put it into the door of the world for all men to use to get into the Scrpitures. But the lawyers made

### EMBARKING ON FIRST STUDENT FLIGHT

Embarking on a new and glamorous career as a stewardess aboard Canadian Pacific air liners between Vancouver and Edmonton and the Yukon, 22-year-old Winnifred Marion Hiscox, of Winnipeg, is seen here at the outset of her first student flight on the northern defence route. With her (left) Chief Pilot Sheldon Luck, and Air Commodore H. Hollick-Kenyon, Canadian Pacific air superintendent at Whitehorse. Miss Hiscox, blue-eyed and five foot four, is a graduate of St. Joseph's Hospital, Winnipeg, and was a night supervisor at Misericordia Hospital in that city before taking to the air.

Royal Navy Ships

Show Movie Films

Every British warship, from

destroyers upwards, is a floating

cinema nowadays. Whether they are in Arctic, Mediterranean or

Pacific waters, the men on boar

see the latest films, often before

they are shown to the general

public ashore.
"Dumbo," the Walt Disney film

about a little elephant ashamed

of his big ears, was seen at see

long before it was generally re-leased. All films for the Royal

Navy are sent out as soon as they

are made. So far 34 films have

been shown at 35,000 perform-

ances, while 60 newsreels a week

are going out to H.M. ships and

providing the only visual news

the men have of what is happen-

ing ashore. Each ship has from

one to three programs a week, made up of the best of the feature

films, interest "shorts" and news-

Supplied by Britain's film in-

lustry at the bare cost of the

print — one penny a foot — the films go round from ship to ship

until they are so old that they are

it impossible for others to enter by treating the Scriptures as nothing but law and a legal bur den. The Gospel was foreign to them; they hated it and they kept the nation out for they were its religious rulers. The Denunciation

58. "And when he was come out from thence, the scribes and the Pharisees began to press upon him vehemently, and to provoke him to speak of many things; 54. kying wait for him, to catch something out of his mouth." Ining out of his mouth." Intruthfulness of what Christ was saying, these scribes and Pharisees began now to set themselves against Him, and undertook to trap Him in His words. In their indictiveness they were aroused to such a fury that they could hink of nothing else but to get this man out of their way.

### In The Garden By GORDON L. SMITH

Try Something New In vegetables, as in flowers, cientists have been giving u many improvements. Their work has been carried out in two d rections; first, the introduction of getables unfamiliar to mos Canadians, and second, and probably more important, vast improvement in those varieties that ave been grown in this country

Of the vegetables new to most Canadians there are several worth trial in any garden. Many exerienced gardeners make it abit to try at least one new kind each year. Full descriptions wil e found in any Canadian Seed Easily Grown Flowers

There are gardens that fit alnost any situation. For those people who have neither the time nor inclination, there are plenty of annual flowers that thrive on neglect. A little digging of the ground in late Spring is all that required. Take such things as alyssum, dwarf marigolds, portu laca and California poppies for edging. These are little flowers that almost seed themselves, crowd out weeds, do well in any location but prefer sun and light soil. Once started they will look after

For the centre of beds or near the back, large flowers such as calendula, nasturtium, poppy and phlox will make a good showing, and for screens castor beans dahlias, cosmos, sunflower, tall marigold are advised. ning, a few nicotine, carnations

mignonette or stocks will perfume the whole garden.

SCOUTING . . . Plans are now being made by the Scouts across Canada to entertain the four British "blitz Scouts" whose visit to Canada expected has now been confirmed. The boys, who are expected to arrive sometime early in April, are Troop Leader Stanley Newton, of London; Troop Leader John Bethell, of Birkenhead; Troop Leader Hugh Bright, of Glasgow and Troop Leader Roy

will meet Canadian Scouts and leaders and address public meet ings concerning their air raid reseue work carried out in Britain The important value of Scout first aid training was once more demonstrated recently when a young Kitchener woman on the way to church was caught between a post and one of two colliding taxi cabs which mounted the sidewalk. Her left Jeg was almost severed, and it was a Rover Scout who first reached her and applied

with saving her life. The coincidence of the Victory Loan and Scout Week resulted in combined bonfire programmes in a number of centres. At Barrie a big beacon was prepared and burned on the ice of Lake Simcoe by the Barrie Scouts. A similar eacon was burned by the Scouts and Guides of Sarnia in the City Hall Square. At Lethbridge, Alta., in spite of sub-zero temperature the Scouts circled a beaon on the sports field of the R.C.M.P. barracks.

the tourniquet which was credited

At Moose Jaw, Sask., the Scouts and Guides were given an import-ant role in an elaborately planned beacon ceremony. Bearing unlit torches, two Scouts and two Guides were escorted by the Mounties up platform steps to the official party. Members of the latter applied matches, and with the torches flaming the Scouts and Guides descended, marched past a line of soldiers to the beacon, and applied the flames simultaneously to the four corners.

. . . The 2nd St. Catharines (Knox Church) Scout Treep is developing a Boy Scout pipe band, with three sets of pipes, a bass drum and three small drums. It is believed that the band will add materially to local Scout and Guide parades.

# RADIO REPORTER

RAYMOND EDWARD JOHNSON This mysterious man, in the

traditionally mysterious setting of 'Room 13,' is none other than Raymond Edward Johnson, one of America's greatest radio actors. It is he who acts as host on the Sunday night 'Inner Sanctum' shows, heard at 8.30 over a network of stations arranged by the CBC including CKOC, CKCO, CKCL, CKTB, CFPL, CFCO, CJIC and CKCA. Shows are extra fine mystery thrillers, and Ray mond, as well as acting as host, frequently takes the starring character role! . . .

Somebody once said, and aptly that radio maestro Al Goodman, is at home with Bach and boogie or Wagner and woogie. Only portant CBS programs on the with Gladys Swarthout and Deems Taylor, and the "Fred Allen" Air show - Goodman is one of the most flexible conductors currently on radio. He stops at no school

Yes; this indicates good breeding on the part of the young woman. 6. Between three and four-thirty, except when calling on a woman who announces a day at home during other

## What Science Is Doing

HEALING AGENTS Chlorophyll, the green coloring matter in plants, along with bar berry roots, cod liver oil and sulfanilamide, are the newest ans wers to quick healing of war and other wounds, says World Wide

The use of sulfanilamide or one of its derivatives for the promp treatment of wounds by a wound ed soldier himself has already been recommended to the War Department. If the recommendation goes through, every soldier will carry in his first aid kit a small bottle containing five gram of sulfanilamide with instructions to break it and pour the powder directly into a wound. The de-partment is also now contemplating equipment of every soldier with sulfanilamide tablets which he can take after injury.

Chlorophyll is being used di-rectly in wounds, is given by mouth and injected into the veins to stimulate wound healing. The substance, readily obtainable from grass or any other green plants

11 hours, Ottawa nine hours, and Operations Superintendent F. M. McGregor emphasized the vital importance of Trans-Canada in speeding up Canada's war effort and pointed to the tremendous in crease in all three branches of T. C. A. services available to the public, passenger, express, and air mail, and stated that during the past year the airline routes had been increased by 10 per cent. A total of almost 7,250,000 miles was flown by T. C. A. airliners during

### Asks Motorists To Save Anti-Freeze

Chemicals Controller J. D. Lori-Chemicals Controller J. D. Loriv mer of the Munitions and Supply Department said "hundreds of thousands of gallons of industrial alcohol?" may be saved if Cana-dian motorists will drain and store their anti-freeze for use again next winter.

Replacement of alcohol used this season would involve upwards of 2,000,000 gallons next year if no attempt at economy were made, Mr. Lorimer said, stressing that industrial alcohol is "zorely needed in the manufacture of explosives."

Illustrating, he said that the

eleans up wounds and stimulates rebuilding of tissue, Captain Bowers declared. "It has had ex-tensive clinical trial in such cases as wound infections, pus pockets, fistulas, deep abscesses and acute infections of the nose, throat and

In the same class is the bar-berry plant, which the United States Department of Agriculture has tried to eradicate for years because it harbored the fungus of one form of rust in wheat. The effective material in the barberry plant is barberine, long used by the Indians to treat surface in-fections. This, the scientists have found, will, even in a one per cent solution, kill the streptoc

which cause erysipelas within eight hours. It has also been used Answers with considerable success in the treatment of ulcers, mouth infections and bed sores. Cod liver oil has proved effective for infected wounds.

# HOW CAN I?

Q. How can I make a cement for pipe joints?

A. A cement for steam and water pipe joints can be made by mixing 10 lbs. of yellow ocher, 4

lbs. ground litharge, 4 lbs. whiting, ½-lb. of hemp, cut up fine. Mix together with linseed oil to about the consistency of putty. Q. How can I make a goo substitute for a ring mold? A. Fill a glass jar with chopped ice, seal, and set into a bowl. Pour the mixture to be molded

around the jar. Remove the jar when the mixture is well froz Q. How can I make glass A. If it is desired to make some

glass surface opaque, rub over it with a lump of putty. Apply evenly and carefully, rubbing one Q. How can I remove ink spots from wall paper? A. By applying a weak solution of water and oxalic acid. It should

be applied with a paint brush and pressed with blotting paper, as the acid might effect the color of the paper. It might be neces-sary to repeat this process a sec-end or third time. Q. How can I make smelling A. You may make your own smelling salts by breaking one ounce of rock volatile into small

pleces, covering with eau decologne, and allowing to stand for a few days before using. When you are putting away an ice cap, rubber gloves, or rubber bag, fill with rolls of paper.
