#### MURDER IN FERRY COMMAND BY A. W. O'BRIEN

RESCUE AND REUNION CHAPTER XIV

A faint hope, or perhaps only sorrowful curiosity, prompted Clyde Dawson to telephone the port commander who had told him Carole Fiske's disappearance aboard the torpedoed steamer Fort Glengarry.
"Captain," he said, "I recall

that the girl I'm hunting was given accommodation in a cabin

with an officer's wife. Can you

tell me where I could find this rescued woman?" "She was brought to the St John's General Hospital," the naval officer replied. "Let me call the hospital and find out if she is able to see you. I'll ring you

With permission of the head doctor, the commander arranged a short interview with the surviving woman passenger. Dawson found her waiting for him in the sun porch. Pausing only to congratulate her on being saved, he sked if she knew Carole Fiske

"Yes, she shared the cabin with me . . . in fact"—the woman's wouldn't be alive if it wasn't for Carole Fiske. When the torpedo hit I was asleep in my bunk . . . the horrible crash woke me, and the next moment the ship listed heavily to starboard. It was terrible . . . the lighting system was destroyed and the portholes were sealed for blackout, so we were in utter darkness. I heard people screaming, then I must have fainted . . . I have a bad heart

"They told me later that Carole dragged me from the cabin through the passageway and onto the deck. When I came to, a sailor was helping her lift me into a lifeboat. Just then the ship listed worse than ever. They barely shoved the lifeboat clear when the ship keeled over. Carole"—the woman's voice broke— "Carole didn't have time to climb in. She was probably too ex-hausted. If I had only kept my senses . . . if I hadn't been ill,

## Careless Gossip

A guest said recently, upon eaving: "I like to come here. It's the one place I can say anything I want to, knowing it won't go further." The compliment should really have gone to my mother, Constance Cameron writes in Reader's Digest.

One day when I was about eight, I was playing beside an open window while Mrs. Brown confided to my mother a seriou problem concerning her son. When Mrs. Brown had gone, my mother, realizing I had heard everything, "If Mrs. Brown had left her purse here today, would we give it to anyone else?"

"Of course not," I replied.

Mother continued: "Mrs. Brown left something more precious than her pocketbook today. She left a story that could make many people unhappy. That story is not ours to give to anyone. It is still hers, even though she left it here. So we shall not give it to anyone. Do you understand?"
I did. And I have understood ever since that a confidence or a bit of careless gossip which a friend has left at my house is his

"Ye are the salt of the earth: but if the salt have lost its savor, wherewith shall it be salted? it is thenceforth good for nothing, but thenceforth good for nothing, but to be cast out and trodden under foot of men." Our Lord here is speaking not of Lifen generally, but strictly of Christian believers, disciples of the Lord Jesus. The definite implications of this verse are that the world itself is corrupt and corrupting, and that Christians, as they live here among men, are to exert an influence rearding this corruption, as salt by tts distinctive chemical nature reards and often prevents corruption taking place in meats, and other forms of food to which salt s applied.

Point Others To God 14. "Ye are the light of the world. A city set upon a hill cannot be hid. 15. Neither do men light a lamp, and put it under the bushel, but on the stand; and it shineth unto all that are in the house. 16. Even so let your light shine before men; that they may see your good works, and glorify your Father who is in heaven." Here Christians are the light of the world, the source of spiritual light to it as the sun is of natural light. They are the light by means of which the world, the mass of mankind, may see the things of religion, may see the truth abou God and His service.

The Christian's Obligation 13. "And they send unto him certain of the Pharisees and of the Herodians, that they might catch him in talk. 14. And when they were come, they say unto him, Teacher, we know that thou art true, and carest not for any one; for thou regardest not the person of men, but of a truth teachest the way of God: Is it lawful to give tribute unto Caesar, or not? Shall we give, or shall we not give? But he, knowing their hypocris said unto them, Why make ye trial of me? bring me a denarius, that I may see it. 16. And they brought it. And he saith unto them, Who is this image and superscription?

and for praise to them that do well. 15. For so is the will of well. 15. For so is the will of God, that by well-doing ye shall put to silence the ignorance o oolish men." While oruer is a divine command, all special forms of civil government are mere signs for the welfare of society. The Christians were accused of being evil-doers. They were to

and any or other the state of t

be conspicuous for well-doing. Bondservants of God freedom for a cloak of wickedness, but as bondservants of God." They must not attempt to hide wickedness by boasting of their freedom out they must be as God's servant. The word "servant" in refer degradation nor injustice but exabsolute service.

17. "Honor all men. Love the brotherhood. Fear God. Honor the King." Christ honored all men, not simply for what they were in them selves, He honored them all for what they were to God. The spe cial love of the brethren does not shut out other forms and degrees of love. Our Lord's words should be considered in all their full force of obligation. Men are to fear God with the holy reverential awe of sons. They are not to fear man more ahan God, however great may be the authority with which he is invested.

Little Man is a story that awakens faith in our country and stimulates pride in our traditions and confidence in our destiny. At the same time it never loses sight of man himself. ## How To Get Rid Of Wolf Menace

The Star got himself a wolf coat which demonstrated that wolf skins can be converted into outer some and useful in cold weather. Now wolf pelts on which the Ontario Government pays bounties, including a substantial num-ber from Algoma District, are being used to manufacture vests which will do something to make the life of the sailors of the Canadian navy on the Atlantic and Pacific Oceans a bit more com-fortable during the winter months.

That means that the wolf pelts are doing a worthwhile job-and after all there is nothing more laudable than converting a nuisance to some useful purpose.

Running free in the bush, the Algoma wolf, or for that matter any other Ontario wolf, is a destructive creature. He won't attack man, as the fact that the \$100 reward offered by The Star 17 years ago to anyone who could prove that he had been attacked by a wolf in its natural state in Algoma has never been successfully claimed, has amply shown. But so far as farm animals, deer and even moose are concerned, the wolf does a great deal of damage. That is why the Ontario Government offers a bounty of \$25 on wolves. That is why the Algoma Wolf Club, quite apart from the fact that its members enjoy the chase, has from time originate from the Toronto studios of CFRB.
