committee, or get mad if you don't get elected to the office you think you should have.
6.—Don't let them learn to depend on you. Keep them guessing all the time about whether you 'Il be there or not. Tell them you'll do a thing and then just forget all about it.
7.—Get good and mad at some members of the Branch and quit having anything to do with it or them. Don't resign — that gives them too much satisfaction and then besides they could get someone else to do the job you're unwilling to do.
8.—Always be pessimistic. Especially about the Branch ever growing into a Chapter or making the quota at roll call.
9.—Watch everything the officers do and run around telling the world at large how dumb they are.

10.—Encourage your friends not to volunteer to the Red Cross for service, "because they have too many people working for them always for nothing!"

(When we got his far we thought up one that we think is VERY important and we can't resist sticking it in)

11.—Don't tell the publicity department about anything you do in your division. She might put it in the paper and someone would know about it!

FOR ENGLAND?

Why should we fight?" he asked Me and war ?"

What are they fighting now. Dad, What does it mean to you. Dad, The Germans won't come here from Away across the sea.

So why should you go there, Dad, I to 'cause England owns us? I sthat the reason why?

Is that the reason why?

His eyes looked widely at me, I tightly held my son, And this is how I answered His questions one by one.

We fight when England calls us, For in her sacred keep.

The askes of our fathers, Lie in her soil — asleep.

And many times for England, And some may pass her by, lad, And some may pass her by, lad, And some may scorn her hand, But we must be FOREVER, A part of that fair land, For everything we have, son, That's good, and fine, and just, Was washed in British blood, son, And given to us in trust.

AS WE SEE IT ...

they are men who seek power for the sake of power. Predatory in the extreme, they prey upon others to the end that their own in the extreme, they prey upon others to the end that their own sect and themselves may triumph. All the standards and values that you and I care about, they deny. They stand for unreason against reason, for terrorism against persuasion, for a moral nihilism against ethical purpose. While predatory persons live, we cannot live as free men nor can our ideals live.

And we have predatory persons right here in Canada_right here in Ontario____right here in Jarvis! We have them in the Army, the Navy, the Airforce, the Church! In every walk of life because our system of economics and so called security offers, survival and expansion to these persons.

For example___take even in a litter of dogs there is that predatory instinct embodied in at least one of the brood. The instinct that knows no other rule than that of survival and advance__even at the cost of the blood of its brothers____It is so with humans!

We have such an example before us as recently we recall a prominent politician getting up and saying that Canadian Manufacturers should be allowed to make years.

We have such an example before us as recently we recall a prominent politician getting up and saying that Canadian Manufacturers should be allowed to make wer profits for they were in business for the sole purpose of making profits and unless they were allowed to continue this policy of gross war profits, then we could not expect their full support in our war effort. Yet these same men, the Manufacturers, frown on us for asking a cost of living allowance on our Dollar-thirty a day. Here is Predatorizm right in Canada. Nazism is only another variation of this type of person.

(Editorial from American Red Cross Aides, Mount Vernon, N.Y.)

1.—Don't attend meetings and it you go, get there late.

2.—Never accept office. It is easier to criticize others than to have them criticizing you.

3.—Don't do any more than you have to, and then, when someone who will work, does, talk all over town about how the Branch is being run by a clique.

4.—If you have an idea, don't think of telling the head of the Branch of telling the head of the Branch ch, just tel lall the girls at your bridge club.

We have laws in this country that tend to suppress this instinct, but by private bills and by lobbying, these laws are surmounted and these principals ruthlessly attack our way of life.

The whole technique of our commercial (manufacturers') policy and the policy of Predatorism, is in exploiting the rights of others to the end that non compliance with their orders would mean starvation to the smaller man.

We look, after this show is over, to a more democratic economy, a fuller and freer existance wherein a man can work and of greed, by some man or bodies of men, who would exploit their own brother.—suck his blood and yet ascribe to be Christian.

WHY SHOULD I FIGHT

And we must keep that trust, son, Against the force of greed. And fight beside old England

Think of the high courage, the indomitable will of those pioneer women. Within the stockade or in the open field, they toiled—yes, fought—by the side of their men for the safeguarding of everything they held dear.

In the hearts of the women of Canada, this old spirit flames anew today! Gone are the heavy muskets, the log barricades - but the love of freedom, the stubborn resolve to win through at all costs - these things remain unchanged, unchangeable!

Grimly quenching their tears, mothers say "God bless you" to their fighting sons—everywhere young women are serving where duty calls—the women of Canada are bound together in one common cause.

In thousands of Canadian homes, women are revising their family budgets, planning new economies, making extra sacrifices—so that more and more money will be available for the purchase of Victory Bonds.

They know-these women of Canada-that every dollar loaned now means more tanks-more gunsmore planes—more ships—more of everything which is needed to smash Hitlerism and bring Peace to all the family hearths of the world.
