

BOMBER'S-EYE VIEW

Burning fiercely, crippled and out of control, this Mogami-class cruiser, one of Japan's best, was helplessly in the Pacific after the lids of Uncle Sam's Navy had given her a going over from torpedo planes and bombers. These ships usually carry a crew of 850 officers and men.

SUNDAY SCHOOL LESSON

LESSON 27
GOD THE CREATOR
Genesis 1, 2
PRINTED TEXT
Genesis 1:1-5, 24-31, 2:1
GOLDEN TEXT.—In the beginning God created the heavens and the earth. Genesis 1:1.

THE LESSON IN ITS SETTING
Time.—We do not know, and never will on this earth, the time when God created the universe. We do not know exactly when man first appeared.

Place.—No one knows definitely where the Garden of Eden was located, but it is generally agreed that it was somewhere on the continent of Asia, and probably near where the Tigris and Euphrates Rivers pour their waters into the sea.

God the Creator
1. "In the beginning God created the heavens and the earth." The earth is the only particular body in the whole universe that is named. The heavens are definitely and directly related to the earth. Though man lives on the earth, his thinking, his hopes and his future, relate to heaven.

2. "And the earth was waste and void; and darkness was upon the face of the deep; and the Spirit of God moved upon the face of the waters." The desolation here referred to is limited to this earth, and is not identified with the entire universe.

The First Day
3. "And God said, Let there be light; and there was light. 4. And God saw the light, that it was good; and God divided the light from the darkness. 5. And God called the light Day, and the darkness he called Night. And there was evening and there was morning, one day." The first word that proceeds from the mouth of God in our Bible is the word "light." It is not said that God created the darkness. Christ himself came to be the Light of the world in a moral, intellectual, and spiritual way, as God here, in a physical way, introduces light into a dark world.

The Sixth Day
24. "And God said, Let the earth bring forth living creatures after their kind, cattle, and creeping things, and beasts of the earth after their kind; and it was so. 25. And God made the beasts of the earth after their kind, and the cattle after their kind, and everything that creepeth upon the earth after its kind; and God saw that it was good. 26. And God said, Let us make man in our image, after our likeness; and let them have dominion over the fish of the sea, and over the birds of the heavens, and over the cattle, and over every creeping thing that creepeth upon the earth. 27. And God created man in his own image, in the image of God created he him; male and female created he them. 28. And God blessed them; and God said unto them, Be fruitful and multiply, and replenish the earth, and subdue it; and have dominion over the fish of the sea, and over the birds of the heavens, and over every living thing that moveth upon the earth. 29. And God said, Behold, I have given you every herb yielding seed, which is upon the face of the earth, and every tree, in which is the fruit of a tree yielding seed; to you it shall be for food: 30. and to every beast of the earth, and to every bird of the heavens, and to everything that creepeth upon the earth, wherein there is life. I have given every green herb for food: and it was so. 31. And God saw everything that he had made, and behold, it was very good. And there was evening and there was morning, the sixth day." As God ended the work of each day, He declared everything He had made to be good, which means that, originally, everything that was created was perfect, that God manifested His fullness of wisdom in this creation work. Of course, it should be remembered that we

THE DEBUNKING OF CHARLES LINDBERGH

Prediction Made One Year Ago Should not be Forgotten
It was overlooked in all the excitement, but the 1,000-bomber R.A.F. raid on Cologne and the Ruhr marked an anniversary for Charles A. Lindbergh that should not be forgotten, notes Washington Merry-Go-Round.

Exactly one year ago he solemnly proclaimed at an America First rally in Hollywood Bowl:

"The area, the terrain and the climatic conditions of Great Britain are not advantageous for flying. No matter how many fighting planes we build in America and send to England, it is not possible to base enough squadrons in the British Isles to equal in striking power the squadrons that Germany can base on the continent of Europe."

"Suppose we had an air force that was as big as the British. Whose could it operate? Some of our squadrons might be based in the British Isles, but it is positively impossible to base enough aircraft in the British Isles to equal in striking power the squadrons that Germany can base on the continent of Europe."

Surgeon-Capt. A. McCallum of Ottawa, medical director-general of the Royal Canadian Navy, said in an interview in Winnipeg that during the past 12 months the Navy had examined 20,643 men and only 11.4 percent had been rejected.

The health standard of Canada is "very high," he said, adding the health picture was distorted because men rejected for military service often were branded as "unhealthy and medically unfit."

Surgeon-Capt. McCallum said there have been reports that 40 percent of Canada's youth were medically unfit and that "public men have taken the figures from the National War Services which showed that 49 percent of 50,000 examined did not fall in 'A' category."

FEW MEN REJECTED BY CANADIAN NAVY

Surgeon-Capt. A. McCallum of Ottawa, medical director-general of the Royal Canadian Navy, said in an interview in Winnipeg that during the past 12 months the Navy had examined 20,643 men and only 11.4 percent had been rejected.

The health standard of Canada is "very high," he said, adding the health picture was distorted because men rejected for military service often were branded as "unhealthy and medically unfit."

Surgeon-Capt. McCallum said there have been reports that 40 percent of Canada's youth were medically unfit and that "public men have taken the figures from the National War Services which showed that 49 percent of 50,000 examined did not fall in 'A' category."

WANT-AD ROMANCE
BY TOM HORNER
THE STORY: Prissy, green-eyed Kay Donovan, who has come to the city to seek her inventor father, makes four friends and two enemies through the radio. The friends are Ted Andrew, jobless salesman, who she meets on a park bench; MacLeod, Goldberg and Flynn, who advertise in the want ad columns for information as to where her father is; and Mike Balesman, who she meets at a party, leaving her \$428.85, a factory and a million cases of Wondrossop, the product in which he vetted the idea of her living at the factory.

CHAPTER III
BALESMAN—Must be business-getter with original ideas, courage to use them, to sell entirely new product. Salary and commission. Only the best need apply. Box 206.

RAY—Do I think it's that young lunatic that climbs up card tables? Open the door and let's see. Or would you rather be greeting him in the moonlight?

KAY—Do I think it's that young lunatic that climbs up card tables? Open the door and let's see. Or would you rather be greeting him in the moonlight?

RAY—Do I think it's that young lunatic that climbs up card tables? Open the door and let's see. Or would you rather be greeting him in the moonlight?

RADIO REPORTER

WILL LOVE TAKE LOY OFF SCREEN
"And what do I get out of this?" Ted demanded. Key looked at Flynn and Goldberg. "You can have \$25 a week and five cents commission on every copy of Wondrossop you sell," Flynn and Goldberg smiled—"or you can have a quarter interest in the business, and take the same risks I do. I'll put up the cash. I've got \$400."
