ADMISSION 50c

ON THE FARM FRONT

(continues from page one)

As a means of getting the maximum amount of pork products from the pigs that are available farmers are urged to bring their pigs as soon as the weight is possible, that is 90 lbs. making sure of course they do not run over and get into the heavy classification. A good weight to aim at is 215 lbs.

How does this work out in practice? Well, a pig weighing 150 lbs. and dressing 75 per cent. (which is the average dressing percentage) will yield 112 1/2 lbs. of carcass whereas a pig weighing 215 lbs. and dressing the same percentage will yield 161 lbs. of carcass or 19 lbs. more.

How does this help the war effort? Let us use Haldimand as an example. During the period April to October of last year Haldimand farmers marketed 15,047 pigs of which 14,146 or 94 per cent. were in the two top grades. It is impossible to know at what weights these pigs were marketed but for sake of argument let us suppose that 50 per cent weighed 180 to 200 lbs. or with an average of 185 lbs. live weight and yielding 144 lbs. of carcass. If these same pigs had been kept until they weighed 215 lbs. and yielding 161 lbs. of carcass, it would have meant 166,005 extra lbs. of pork products for Britain without extra cost.

The latest figures to reach the Department of Agriculture office at Cayuga indicated that Haldimand

FIRE DESTROYS J. BONAR HOME

Barns Were Seriously Threatened For Time

The home of James Bonar, located on the sidewalk between No. 3 and 6 Highways in the Township of Walpole, was completely destroyed by fire late Monday evening.

Mr. Bonar was awakened by Cpl. James Grant and Pfc. Sgt. MacGregor, who were awakened by the passing. At that time the back part of the house was in flames, and Mr. Bonar was the only occupant.

All other vital functions of the house were in grave danger of being destroyed.

The fire department by Harold Johnson and the firemen were directed to the barn, which appeared threatened from sparks from the house. Fortunately in those buildings could have been saved.

The fire was caused by a spark from a stove in the house, which was being used to heat the water. The spark was carried again on the house before the event of the wind changed.

Mr. Bonar could give no cause for the fire, which was believed to have started in a shop immediately behind the house. It is understood a small amount of insurance was carried.

REAL OPPORTUNITY TO HEAR OUTSTANDING LADY SPEAKER

DR. CHARLOTTE WHITTON C.B.E. HAS HAD EMINENT CAREER

Many People Over Wide Area Expected to Hear Her Address in Knox Church, May 12

It is rarely, if ever, a small municipality has the privilege of presenting a speaker of such outstanding eminence, as that possessed by Dr. Charlotte E. Whitton, C.B.E., who is coming to Knox Church, Jarvis, on Tuesday evening, May 12th, to deliver the address of the Jarvis Group of Women's Institutes.

Dr. Whitton is one of Canada's outstanding women. Her career as a social worker, lecturer, and writer has brought her many honors. In 1934 she was named commander of the order of the British Empire by His Majesty King George VI. In 1935 she received the public medal for public service; in 1937 she was awarded the Covington Medal for her services in the degree of Doctor of Law from Queen's University, Kingston, at its 100th anniversary.

Dr. Whitton is just concluding a five week lecture tour which took her only to the larger cities throughout the United States. Therefore it can only be regarded as a rare opportunity to have her come to a small municipality, such as Jarvis, and credit must be given to those sponsoring her appearance.

She is especially interested in Airwomen and Airmen's families and her subject, "Woman's Place in a Changing World" should be especially interesting to the wives of airmen.

This is a rare treat for local citizens, and it is confidently anticipated that an overflowing crowd will attend themselves of the opportunity to hear this eminent speaker.

Dr. Whitton is a member of the Canadian Red Cross Society.

Local Items Of Interest

A. J. CRAWFORD GIVEN GOVERNMENT POSITION

Munitions Minister Howe announced this week that A. J. Crawford, of Toronto, General organizer for the International Association of Machinists, has been appointed a director of the recently created Polymer Corporation Ltd., government owned company charged with responsibility of producing synthetic rubber in Canada.

Mr. Crawford, who is a brother of Miss Janet Crawford, of Jarvis, is a former vice president of the Trades and Labor Congress of Canada.

TO OBSERVE EIGHTIETH BIRTHDAY

On Sunday, May 10th, "Mother's Day" Mrs. M. E. Siple will observe her 80th birthday. Mrs. Siple is enjoying fair good health and takes a great deal of pleasure in working at her hobbies of knitting and book-keeping.

The occasion will be celebrated at a dinner at the home of her daughter, Mrs. J. W. Duxbury, when members of the immediate family are expected to be present.

The Record joins with her many friends and neighbors in extending hearty congratulations to Mrs. Siple.

MERRY MAIDENS CLUB MEET

The last meeting of the Merry Maidens Club was held at the home of Mrs. Leathough on April 29th. Such demonstration of Spanish Cream and Cornstarch puddings were given. Luncheon was also enjoyed.

Miss Margaret Marr gave a talk on "Milk in the Family menu."

The next meeting is to be Thursday evening at Mrs. E. Marr's.

DON'T THROW AWAY SALVAGE MATERIAL

Next Tuesday, May 12th, will be the annual clean-up day in the Village and as usual refuse will be picked up at the curb and taken to the Town Dump. Citizens should remember however, not to set out salvage material, but to save it until the next salvage collection day.

SOY BEANS

Soy beans have been grown in Ontario for the past forty or fifty years. They have been used mostly as a feed for livestock, as the price for soy beans for oil extraction was not sufficiently high to make it attractive to the farmers. Soy beans and soy bean products have been brought to North America from the Orient since the present war has spread to Asia, these products are no longer available on this continent, consequently the price has risen so that soy beans have now become an attractive cash crop. Soy beans are needed at the present time to supply the necessary ingredients for the manufacture of munitions, as well as other necessary articles. They therefore, become another product that the farmers of Ontario are asked to supply as a war necessity.

STOP PAYMENTS OF MILK SUBSIDY

More Than \$20,000 Paid to Farmers In This Area From Period December 22 to April 30

The Wartime Prices and Trade Board have sent official notices to milk distributors and milk manufacturers advising the subsidies on fluid milk and on milk for concentrated milk products to be paid by the commodity price stabilization corporation since December 22, 1941 will terminate on April 30, 1942, and will not be paid with respect to any milk delivered to distributors or manufacturers after that date.

The notice further states that the subsidy was announced in December 1941 as a temporary measure pending study of the price situation, and that action has now been taken to fix maximum prices for fluid milk, butter, cheese, evaporated milk and other milk products in a balanced relationship with one another.

Throughout the period the subsidy was paid the farmer was guaranteed a top price of \$2.10 per hundred for 3.5% milk. For the greater part of the period the price was guaranteed at \$2.20 including the 4c subsidy. What the price will be commencing May 1, is as yet undetermined.

TREES DISTRIBUTED BY SCHOOL PUPILS

Tuesday last week was tree distribution day for Haldimand County on that date no less than thirty thousand small trees were delivered to depots throughout the county for distribution to the school children.

This is the fourth year that trees have been planted in this way by the school children in this county. A total of over 110,000 trees have been brought into the county. This is not a small number, but even half of them grow and this work is continued it will not be long before a vast change can be made in the appearance of the county.

The project this year was undertaken by the County Conservation and Reforestation Committee of which Dr. E. S. Paul, Deputy Reeve of Walpole, is Chairman. The trees were picked up at the Forestry Farm near Cayuga and delivered to pre-arranged depots throughout the County by a truck furnished through the cooperation of the County Board and Mr. J. R. Sloan, County Engineer. Great credit is due the teachers at each school who very willingly accepted the task of seeing that the package was picked up by the depot and planting the trees among their pupils.

In continuing this work Haldimand County is maintaining its leadership as one of the first to distribute trees in this way. This year more counties have before are providing trees for the boys and girls. The trees are provided free of cost by the Ontario Forestry Branch.

When sown in mixture with oats the crop is ready for pasturing when the oats are 12 to 15 inches in height and should be pastured sufficiently heavy to prevent the oat from heading. When sown alone at low the Sudan Grass to attain a height of 18 to 20 inches at no time allow it to be pastured or cut closely. If the crop is needed for hay it should be cut when in the heading stage and cured in the usually approved manner of making hay.

A mixture of oats and peas is another good emergency hay crop if sown early. It is especially suitable to secure peas to use as seed. Small seeded peas such as O.A.C. No. 181 and Golden Wonder are very suitable. The best rate of sowing is two bushels of oats and one bushel of peas per acre. Oats may be sown alone and cut green for hay but the crop can be cured with less difficulty if it contains a sprinkling of peas. The crop is usually cut when the pea pods are half developed.

(continued on page eight)

CITIZENS COMMITTEE PROVIDE DIVERSION

Well over half a million soldiers and airmen — 622,450 to be exact — have been entertained at small entertainment camps by the Citizens Committee for Troops in Training since the war broke out. It has been announced that Capt. W. M. Wilks, M.C. of the Citizens Committee.

During that time a number of Citizen Committee shows were presented at No. 1 R.C.A.F. Bombing and Gunnery School.

Given on a voluntary basis — most of the entertainers travel in military camps after their regular work — the shows included musical comedy, reviews, variety shows and male and mixed choruses. Capt. Wilks reported: "Many of the actors and actresses work in munition plants during the day, he said.

Under sponsorship of the Citizens Committee, many motion picture stars, including Mary Pickford, Lawrence Tibbett, Fred Crawford and Kenny Baker, as well as famous orchestras, played before full houses of active service and trainee troops.

Formed in September 1939, by a group of Toronto citizens, the Citizens Committee for Troops in Training is privately financed. It has never made a public appeal for funds despite the fact thousands of dollars have been spent on costumes, transportation and equipment for its hundreds of shows. Active in its entertainment work are Capt. Wilks, Miss Nellie Jeffers, four Lewis and Jack Arthur, all well known in the theatrical business. Sgt. Hal Shaw is the Committee's entertainment officer and J. R. Johnston its executive secretary.

Entertainment provided by the Citizens Committee has always been enthusiastically received at the Jarvis Air Station. Capt. W. M. Wilks, "The Record," and we hope to present additional shows in Jarvis in the new future.

Less than three per cent of the total value of goods shipped overseas by the Canadian Red Cross last year was lost by enemy action or straggling.

"THE HOARDER"

PUBLIC ENEMY NO. 1

People who buy more of anything than they currently need, and merchants who encourage them to do so, are sabotaging the war effort and are therefore public enemies.

Loyal citizens do not hoard. They buy only for their immediate needs. They cheerfully adjust their standard of living, realizing that their country's needs must come first. They do not try to gain unfair advantages over their neighbours.

Are you a hoarder or a loyal citizen? Are you hampering Canada's war effort by unnecessary buying? Or are you co-operating to the best of your ability to save Canada from such horrors as Hong Kong?

If Canadians do their duty, there will be no more hoarding. Everyone will get a fair share of the goods available. More food can be sent to Great Britain. More raw materials — more manpower — will be available for making guns, tanks, planes and other armaments to back up our armed forces.

In cases where it is advisable for you to buy in advance of your immediate requirements — such as your next season's coat supply — you will be encouraged to do so by direct statement from responsible officials.
