Weekly War Commentary

Early this week British troops had fought their way through miles of minefields protecting the main German positions and established lines which were held against Axis counter-attacks. It was reported Monday that 1,450 Axis prisoners, including 600 Germans, had been taken in the opening phase of the assault. Optimistic Cairo dispatches reported that the Army of the Nile was successfully widening a road through the minefield to permit the operation of Allied tanks in the vast desert

Still in Lead

duction. As a matter of fact all of the top ten counties in point of grade dropped rather heavily in marketings Haldimand was the first to show this decrease. Let us hope that Haldimand will be the first to show a comeback. Remember every hog is badly needed for food for Britain. We cannot let those brave people down.

Improvement Needed
This is scarcely a record of which we can be proud. There has been some improvement but we still have a long way to go. In order to make the necessary improvement in quality, producers must come to realize more fully that most of the defects in butter are the result of low quality cream. We cannot dismiss the matter by saying it is not our problem but one for the buttermaker. In reality the situation is within our own control. If we produce the proper quality of cream the creameryman you may be sure will do his part in maintaining that quality.

New Haymaker
The latest in hay-making machinery is known as the Haymaker. It is a five foot implement that is attached to and trails the mowing machine. The newly cut swath is pick

Will We Go Over The Top?

We Are All Expected To Do Our Duty -

The Victory Loan figures to this date for the Couny of Haldimand, are not to the point where Haldimanites can look upon them with satisfaction. The Jarvis district has contributed the lowest percentage of any of the canvassing districts in the County. With only three days remaining in the campaign the out-

It is difficult to believe the citizens of the Jarvis district are not patriotic in their motives. The Re-Why then are we falling down in the Third National Victory Loan Campaign?

If it is because we do not have the money to invest, there is nothing to be ashamed of. But facts that cannot be overlooked would indicate there is more available cash in the district than prior to either of the previous campaigns. And it would seem therefore, we are not collectively living up to the obligations

The record of enlistments of men from this community is high. Is their duty to their Country any greater than ours? Victory will mean just as much to us as it will to them. Yet the price they are offering to pay is tremendously higher. What will their thoughts be if we fail to fulfill our duty in this Victory Loan Campaign? Surely we want them to know we are backing them up on the home front.

Are you one of those who say, "Let the big shots put up the money?" Well, friend, the big corporations have put up the money. It is wrong to think of the Organization Meeting big investors as Big shots. Actually they represent the collective investments of thousands of individuals. Thanks to Finance Minister Ilsley, those who control money in the higher brackets, are being taxed higher than any time in the history of the Country. We have got to realize the fact that only by every individual investing to the limit of his or her ability will the money be raised.

Government Waste, You Say -

Sure there is Government waste, plenty of it. But have you ever stopped to realize the tremendous projects undertaken by the Government in an effort to prepare in time. There is bound to be waste, but we It was decided to set the fees at venture most of the criticisms directed, if tracked down would be infinitesimal in companison to the wenture most of the criticisms directed, in tracket to the down, would be infinitesimal, in comparison to the est to be pair of the worthy and never are to be pair t versions as created by those who do a great deal of unnecessary talking. Whether all of the money is unnecessary talking. Whether all of the money is being spent to the best possible advantage is quite beside the point now. The money for this Victory Loan must be raised, and then let those who want to criticise their criticism to the source of their dissatisfacture.

All active social evening was set for Tuesday evening, November 17th commencing at 7.30 sharp. of friends and family. She was a lifetime member of Knox Presbyterian Church, where her father, the late John Mitchell served as an Elder tion. It would be well to remember we are fighting. this cause for the right to continue to criticise as we SAPPER BEV. EVANS

communion she served with true devotion.

She leaves to mourn her sudden passing, one son, John McIntosh on the old homestead in Townsend, and two daughters, Mrs. William A. Davidson (Isabel) and Mrs. Robert Dosser (Mary), both of the Township of Walpole. Her husband predereased her in 1932.

The funeral was held from her late residence on Tuesday with service at the home and graveside conducted by her pastor, Rev. W. H. Fuller of Knox Church, Jarvis. Interment was made in the family plot in Oakwood cemetery, Simcoed The profusion of floral gifts carried a stient testimonial of the deep 1espect in which she was held in the community.

The pall hearers were, nephews of the right to continue to criticise as we will. If we lose Democratic freedom, our tongues will rest, despite injustices that seem apparent.

After Me The War Next—

This complex is all too prevalent. Many seem inclined to think their personal needs should come before the War. Many people after struggling through depression years may be blindly sincere in this belief. But what benefit will this self attitude attain should we lose the War? Would it not be better to postpone personal needs until after the War and Victory is won? Money safely invested in Victory Bonds now will even do more for you when the War is over than it will now. In addition your spending then will do will rest, despite injustices that seem apparent.
