God's Judgment Upon Sin 13. "Now the men of Sodom were wicked and sinners against Jehovah exceedingly." This verse is simply an indictment of Sodom because of its awful sinfulness. 23. "The sun was risen upon the earth when Lot came to Zoar. 24. Then Jehovah rained upon Sodom and Gomorrah brimstone and fire from Jehovah out of heaven; 25. and he overthrew those cities, and all the Plain, and all the inhabitants of the cities, and that which grew upon the ground." Here the Lord is represented as present in the skies, comes, and on the earth where it The question arises, why did God so utterly destroy these cities? One reason might be that He would by this destruction stop the flood of wickedness which must have proceeded from them to all centres of life in the vicinity of the Orient. Secondly, God ounished these cities as a warning to others, both in that generation and in all generations to come, of His utter hatred of sin, of his determination to punish it. and as a menifestation of the fact

that He has the power to destroy

bellion against His holy laws. The Foes of Israel 31. "For their rock is not as our Rock, Even our enemies themselves being judges. 32. For their vine is of the vine of Sodom. And of the fields of Gomorrah: Their grapes are grapes of gall. Their is the poison of serpents. And particular verses are found in Moses, which proceeded from his lips, by divine inspiration, shortly before his death. The great prophet, soon to leave his people, knowing by revelation some of the great tests that were before them, here desires to bear one great final testimony to the absolute pre-eminence, and faithfulness, and power of God, urging Israel to be true to Him Who was the only true and living God. The word rock occurs in this one passage eight times, and may called one of the great Old Testament titles for God. In compar ing Israel's privileges with the pagan people's round about, Moses reminds the people of God that that which the heather

Therefore shall they now go captive with the first that go captive; and the revelry of them that stretched themselves shall pass away." This entire passage is an in tment not of all Israelites, but of the leading men of Israel upon

whom the responsibilities for government and leadership primarily rested. At this time, during the reign of Jeroboam II (825-784 B.C.), an age of military victories and great prosperity, yet at the same time a period of gross wickedness, these men, instead of be ing actively engaged in attempting to bring about a great revival of righteousness, correcting the abuses and transgressions so prevalent in Israel, were found to be taking it easy on Zion. One of the most terrible characteristics of these evil men, leaders though they were, was their refusal to seriously recognize that inevitably day of judgment and divine wrath must come to Israel for her continued disobedience. thought that the Lord has a day which to judge man frets or rightens the irreligious and they use different ways to get rid of The strong harden themselves against it, distort the belief in t or disbelieve it.
