SUNDAY SCHOOL LESSON

April 11 PETER AND JOHN WITNESS CHRIST'S GLORY Mark 9:2-8; 2 Peter 1:16-18 GOLDEN TEXT.-There came voice out of the cloud, This is my beloved Son: hear ye him

Memory Verse: God . . . love us, and sent his Son. I John 4:10. THE LESSON IN ITS SETTING Time.—Autumn, A.D. 29. Place. — Not specifically desi nated, but undoubtedly Hermon, far north in Palestine.

The Transfiguration
"And after six days, Jesus tak eth with him Peter, and James, and John. And bringeth them up into a high mountain apart by themselves. And he was trans-figured before them." The word here transfigured is the Greek word metamorphoo, from which comes our word metamorphis. The root of this word morphoo means to mold into a form, so that the compound word, which here apmeans to change the form of, to alter. It is found referring to our own transformation, which is spiritual (and not physical as the Lord's) in 2 Corinthians 3:18, and Romans 12:2. The word does not simply mean an external

change, but an actual inner and external change. "And his garments became glistening, exceeding white, so as no fuller on earth can whiten them." When the disciples looked at the countenance of Jesus they looked at a refulgence as brilliant and lazzling as the sun itself. And this extended to His entire form, for His very garmenis had the translucent whiteness of pure

Peter's Proposal "And there appeared unto them Elijah with Moses: and they were talking with Jesus. And Peter answereth and saith to Jesus, Rabbi, it is good for us to be here: and let us make three taber-nacles; one for thee, and one for Moses, and one for Elijah. For he knew not what to answer; for they became sore afraid." Peter and his fellows were so taken with what they saw that they de sired to abide on the mount with Jesus and the saints. When the apostle Peter speaks of tabermeans those little booths or huts such as were constructed for the Feast of Tabernacles, made out of branches of

trees or bushes.

The Voice From Heaven "And there came a cloud over-shadowing them: and there came a voice out of the cloud, This is my beloved Son: hear ye him." The essential difference between this voice and that which me this voice and that which was heard at the baptism, is the phrase, 'Hear ye him.' The words are from Deuteronomy 8:15, 19, and seem to be suggested by the appearance of Moses. The Prophet like unto Moses is identified with the Christ, the beloved or elect Son; the allegiance due to Mose is now, with Moses' concurrence transferred to Jesus

The Coming of the Lord "For we did not follow cun-ningly devised fables." The expression agrees with the calm de-claration of St. Paul (2 Cor. 2:17) that they, the apostle were not as the many who falsified or misrepresented the Word

"When we made known unto you the power and coming of our Lord Jesus Christ." Many scholars believe that the word 'com ing' refers to the first advent of ing' here, as in every other passage of the New Testament in which the word occurs, is the second advent, not the first. Holy Ground

"For he received from God the Father honor and glory, when there was borne such a voice to him by the Majestic Glory, This is my beloved Son, in whom I am well pleased: and this voice we ourselves heard borne

Let's all get ready, roll up our

A unique feature of the re cently observed Boy Scout Week was the plan adopted by the Ot-tawa Normal School. Student teachers during that week were instructed to give a history of the birth and the growth of the Scout Movement to their classes.

John H. Price of Quebec, a member of the Canadian General Council of the Boy Scouts Association is a prisoner of war in Hong Kong.

Col. C. G. M. Grier, head of Canada's new Royal Canadia Army Cadets was one of Canada's first Boy Scouts. Long before the Movement was officially inaugurated in Canada, Col. Grier and a group of his boyhood friends formed themselves into a Scout patrol and carried on. They cor-responded directly with the Foun-der, Lord Baden-Powell who courteously answered all their enquiries. That was in 1908, the year Scouting was started in Great Britain.

His Grace the Archbishop of Canterbury, Primate of the Church of England has become a member of the General Counci of the Boy Scouts Association in Great Britain. Two British Boy Scouts

been awarded the Victoria Cross in the present conflict, the An-nual Report of Imperial Headquarters of the Boy Scouts Assoclation reveals. Despite the fact that 15 Boy Scout Troop headquarters were

destroyed by enemy bombing Boy Scouts of Norwich, England have just completed the shipment of their 1,000th ton of wastepaper. From a Fleet Air Arm pilot: "You would never believe the number of Scouting activities which come into our training. Swimming, Morse and Semaphore one expects, but the Fleet Air Arm expects its pilots to know knots, whippings and splices. The

instructor asked me if I had been

a seaman in the navy. I was glad to be able to answer, 'No chief, but I was a Boy Scout.'"

YES!

Minister Winston Churchill used the world wide facilities of radio vision of a post war future. In-cluded in his comment were sev-eral considerations particularly of interest to those who listened to his speech in rural Canada and the United States. Said the British Prime Minister . . . "During the war . . . the position of the farmer has been improved . . .

healthy village life on the basis sing . . . And what with modcinema and wireless to which will the country and on the land ought to compete in attractiveness with life in the great cities. . " Wireless, or as we know it better in Canada, radio, undoubt-

edly has made a tremendous coning in the rural sections and small towns of the Dominion. Improvements in the design and capacity of radio receivers in recent years have made possible the bringing of news, education and entertain ment directly into the most remote homes and settlements in the backwoods of civilization. And now Mr. Churchill promises that television will come into vogue shortly after the war is over. He might also have promised a new type of radio receiver based upon research in the field of what is known as "frequency modulation." But for the fact that war has diverted the energies of radio technicians and manufactur-ers into spheres which have a direct relation to the military struggle, frequency modulation and television would likely have been with us now. Frequency modulation employs a new technique broadcasting and receiving which virtually eliminates all in-terference from static and other the horse English forms of electrical distortion . . . |

His face was a study in bitter His face was a study in bitter anger. His lips were tight, his head hunched low between his broad shoulders. Jim's fists were so tightly clenched that his knuckles showed white. Penny pressed back tears. Then anger overwhelmed all other emotions. She shared Jim's bitterness.

She walked over to him looked others might have suffered.

"Please take care of yourself,
Jim," she said. "You need some rest, too, and temorrow is going to be an especially tough day."
"Don't worry about me, Penny. I thrive on this sort of thing,"
Jim replied. "Besides, every hour I work tonight brings me that much closer to settling accounts." She walked over to him, looked up into his eyes. She offered him much closer to settling accounts with Castro." comfort without saying a word.

"Let's go, Penny," he said, finally. They pushed their way through the crowd, toward Jim's

His brakes squealed as he tor-tured them to a stop in front of Penny's door.
"Good night," he said. "Don't
worry about anything. I'll see you car. Penny shivered, despite the warmth of the night. Jim peeled off his coat and wrapped it around her shoulders.
"This is it, Penny," Jim said.

"Good night, Jim," she said, reluctantly. "Take it easy."

Quiet, except for the sounds of "Castro has asked for a show-down. He'll know he's been in activity in the mill yards, had already descended over Kirktown. a fight before I'm finished."
"Please, Jim," she pleaded. She heard the distant foghorn voice of the diesel-engined limited as it rounded the bend. "Please, for my sake, don't do Penny knew that if Midge had returned a light would be shining in the window. She knew that Midge would have much to say and many questions to ask. She was glad the house was dark. Castro has it coming to him. There are other ways. Don't Jim's smile was bitter. "A lot

11/2 teaspoons dry mustard At the door, she stopped, listen-ing. She thought she heard the faint sound of footsteps, speeding lightly away. She sensed, rather than saw, a shadow fading away. Fumbling for her key, Penny at first didnt see the note tacked on the door. When she did notice

rushed through her.

Cautiously, she unfolded the message. In big red letters, hastily scribbled, Castro had delivered his warning.

"Shut up—or else. Take a tip from us. Leave town tonight." -When Penny arrived at the Courier office next morning, Jim was in overalls. The sun filtered through the broken basement window.
"Hello, Penny," Jim greeted

happily. "Watch your step there. Some of the nails are pretty "Good morning, Jim," Penny answered, as cheerfully as she could. Hours before she had de-

termined that no note of anxiety would penetrate her voice.
"The damage isn't as bad as I yum. thought it would be," said Jim. "The office got the worst of it. t'll take more than a bomb to blow up that old press. And our linotype has gone through worse than a little fire. The boys were down as soon as the firemen would let them in. We have most of the mess cleaned up already."

Penny looked over the damaged room critically. Desks and counter were shattered splinters. Burned papers soaked with water and chemicals were piled in a work of the humble junket tablet.

up before we go to press."
"Jim, Penny said, "I know I'll just be in your way today. Do you mind if I take the day off?" "I was just going to suggest that myself," said Jim. "Go out and have a good time. We'll be ready for work by tomorrow."
When Penny reached street level, she noticed two men, ap-parently absorbed in conversation, at the opposite corner. They paid no attention to her.

They waited until she waved to the bus driver to stop. Then they dropped their cigarettes and walked away. She knew they would report to Castro that she had left Kirktown. Penny stopped briefly at the Kirk estate. She luxuriated in a cool shower, dressed, and guided the roadster to a parking space

in front of the building which housed the offices of Johnathan and Jones, architects.
Charlie Jones welcomed her delightedly. He cleared a space for her to sit down. Then he swamp_ ed her with drawings and plans and blueprints.

"When can you start actual construction?" Penny asked. "Tomorrow," he said.

TABLE TALKS

SADIE B. CHAMBERS

A few weeks ago we published in this column menus based on low-cost meals. These were sent out by the Canadian Red Cross Society in the campaign against malnutrition. Quite a number of people think

dishes in the menus. answer to this is that unfortunately the cheapest meals are al-ways the meals containing more starch. For example, potatoes, eye-witnesses. I hope no one was hurt. A lot of windows were smashed by the blast." hurt. A lot of windows were smashed by the blast."

That was like Jim. He had alsugar intake. Therefore starches ready forgotten his own losses in the excitement of getting a story and in the worry over losses that

Eat more green salads. This epring weather we all have a hankering for more salads and fruits. These need not be the most expensive. I had never made a salad from red cabbage but this week I tasted one of these and I think the "red" adds remember — color for vitamins!

Spanish onions are very good now
—add a few slices and rings to your salad. Have you ever tried

your salad. Have you ever tried crange and onion rings with your favorite salad dressing?

Rambling on about salad dressings,—reduce the cost of menua and make your own. It is amazing to me how many people buy ready made salad dressings. Hero is a recipe for a salad dressing for those who require a reducing duet. Then, too, the mineral oil has many points in its favor. Some feel the taste of the mineral oil would be unpleasant. Just forget

would be unpleasant. Just forget this. Remember it is tasteless and try it. Mineral-Oil Salad Dressing 1 egg
% cup mineral oil

% teaspoon salt
1 tablespoon sugar 1 tablespoon corn syrup 1% cups mineral oil 3 tablespoons lemon juice 1 tablespoon malt (the purest)

vinegar
If desired add a little tomato the ragged slip of paper, a chill catsup or some sauce, which flavor you particularly like. Into a bowl (be sure it is well chilled) beat the egg until very thick and light. Graqually add

the ¼ cup oil, beating well after each addition. Mix the mustard, salt, sugar and syrup; add to the egg mixture and beat in well. Gradually beat in the 1% cups of mineral oil and, as the mixture thickens, alternate the addition of the oil with additions of lemon juice and vinegar. Then add the flavoring sauce if desired. Store dressing closely covered for serv-

ing. For non-reducers it may be thinned with cream. Try this on the red cabbage salad with the addition of some chopped celery and onion and see if your family does not say yum-

Some Simple Desserts
So many speak of desserts
these days and the difficulty of
preparing them. I hope you have
not forgotten about the prunes
and dried fruits, soaked for a
couple of days without boiling.
You will find them very good
without the addition of sugar

ter were shattered splinters. Burned papers soaked with water and chemicals were piled in a corner, ceiling high. She wondered if the odor would ever leave the building.

"You can't work here today, Jim," she observed.

"We don't have to," he answered cheerily. "We have a real office now. The bank is going to let us use their conference room. It's a lucky thing Castro didn't pick Thursday for his little game. We'll have plenty of time to clean up before we go to press."

"Jim, Penny said, "I know I'll int he is you way from starches, some very wholesome desserts can be made out of the humble junket tablet. Add cocoa or fruit to the bottom of the cup before adding the junket. These require no starch for thickening. They add to your necessary milk intake and are incapensive. The custards with just milk and eggs, either boiled or baked, can have the fruit additions and are better than the prepared pudding powders, if nutrition is uppermost in your mind. Did you ever add just a little red jelly to the top of your junkets and custards? It's a zest-ful touch.

Treat Vitamin C With Loving Care

"Go ahead," Penny ordered, "Get started." "We're all set to go," Charlie Jones told her. "Tomorrow morning the steam shovels will be on

the job. Boy, have I got work to do! I'll telephone the contractors immediately." "I'd better get out of here be fore I'm run down," Penny laughed. "You really move when you get going."

"You bet," he answered.

"We've been waiting for your sig-

Next, Penny did some shopping. The first speech she had ever made from a public platform was scheduled for Friday night. She needed an appropriate dress. And while she was at it, she might as well have a new hat, she decided. After that, and lunch, she felt

better. An inviting theatre of-fered relaxation. She enjoyed herself completely. To keep Castro guessing, she decided to spend the night at the estate. She would have a surprise in store for him Friday night.

THE GOSPEL WITNESS 130 Gerrard Street East - Toronto 2, Canada

The Right Tools The right tools will save much labour. But they should be in first-class working order. means that hoes, spades, weeder spudders, etc., should be sharp and clean. An old file will do the trick. Lawnmowers must be kept in the same condition if they are to do neat work and not pu uncut.

A little hand-drawn cultivator will help speed the work in a fair-sized garden, while a when hoe will soon pay for itself in labour saved, if one goes in for a large supply of vegetables. For getting under both flowers and vegetables and for milling the weeds under shrubbery, a sharp ful implements. There are differ ent sized rakes and differen

width of hoes. Planting Groups Flowers and vegetables divid themselves into three general planting groups — hardy, semi-hardy and tender. In the seed catalogues and on the packet these are the general descriptions used, and this information prevides the key to planting time in any part of the Dominion.

The first group can be put in

just as soon as the soil is fit to work, this means when one can get out and dig without raising any mud. Soil fit for working o planting should crumble, not pack into a ball, the experts point out. Among the very hardy are spin-ach, lettuce, radish and peas, etc.,

among the vegetables, and most of the poppies, cosmos, batchelor buttons and sweet peas, among the flowers. Late frost will not hurt these things. Uusually the sooner they are planted the bet

ter.
In the semi-hardy line, vege-tables and flowers which will stand a light frost or two, would be carrots, beets, peas, potatoes and corn in the vegetable line

and zinnias, calendulas, calliopsis in the flowers.

The tender plants are those which will not stand any frost

This Valuable Property Is Very Easily Destroyed

"If you don't take care of your vitamins, they can't take care of

true of vitamin C, which is the most easily destroyed of all the members of the vitamin family. It is also the most difficult vitamin to get in adequate amounts during the winter time if citrus fruits are not available. Tomatoes, canned or as juice,

are next best to citrus fruits as a source. Potatoes, cabbage and turnips can provide substantial amount of this important vitamin if they're given a chance. Prepare them improperly and they may be practically worthless as sources of vitamin C.

Baking or boiling potatoes in

the skin helps retain vitamin C.
Cabbage and turnips should be served raw often but should no be cut up until shortly before serving.

The use of closely covered pans

is excluded. Partly used tins of tomatoes o juice should be kept covered and cold and the rest used as soon a Citrus fruits should not be cut

up or have their juice squeezed

until just before using. Soda should never be used i

cooking vegetables. A Ride Round The Table
