

Blind Newt Holds Record For Fasting

The cat which survived a 41day voyage as a stowaway with-out food, producing four kittens hto the bargain, must certainly a rare-specimen of endurance, though the licking of cosmogene.

from a crated engine no doubt
helped to keep the wolf from the
stor. But the annals of the animal world contain fasting feats even more remarkable.

Passing over the case of the Liverpool dog buried during a Mitz which survived after 20 days without food or water, the first of the really notable records in that of the marine iguanas from the Galapagos Islands, which obstinately refused food for three months before giving up their hunger strike. This, however, has been beaten easily by a 25-foot python in the London Zoo, which declined all food whatsoever for 18 months and was none the worse when it began eating again.

A Madagascar boa-constrictor, however, turned even this record into small beer by existing, i similar conditions, in the Paris Jardin des Plantes for four years and a month. The world's record far is held by the blind newt, the Proteus, one specimen of which spent five years between two meals. The record for a man, by the way, is 60 days.

SYNOPSIS Dave Bruce, out of a job, arriver t Wilbur Ferris' Cross-Bar ranch. turran, the foreman, promises him a job if he can break a horse called Black Dawn. When he succeeds, he discovers Curran expected the horse to kill him. A girl named

Lois rides up. She is angry with Dave for breaking "her" horse and refuses to speak to him even after he has used his savings to help her foster father, Hooker, pay off the mortgage on their ranch. She leaves, and that night, while Hook-er is trying to tell Dave a secret he has learned, Hooker is killed by a shot fired through an open window. As Dave starts to town to get the sheriff he meets Lois, who immediately believes him guilty. Now Sheriff Coggswell has just arrested Dave for murder.

For an instant Dave sized up the situation. It hadn't occurred to him before that he could possibly be under suspicion of having killed the harmless old man whom he had befriended. For a moment the ignominy of his position maddened him with anger. But he hadn't a chance, with Sheriff Coggswell's gun covering his heart.

So, with a shrug of his shoulders, he held out his hands. While Sims covered him in turn, Coggswell extracted a pair of handcuffs from his saddle bag and snapped them over Dave's wrists.
"I guess you kin handle this bad

TARGET FOR TO-NIGHT

Films Made With War Alcohol - The last aerial photograph fits snugly into place — and there lies the blueprint of another German target due for a pasting by our fighting airmen. Pictures taken by aerial reconnaissance are vital links in the chain which will lead to the ultimate destruction of the Axis war machine. Another link is the camera film on which these pictures are recorded. In making this special film alcohol is used, just as it is used for many other essential war purposes—for plastics, explosives, anti-freeze and navigational instruments, in the factory, on the field of battle itself, Alcohol is making a direct contribution to Victory. Because it is so urgently needed in such fabulous quantities, our plants are operating at peak capacity.
