# WHAT SCIENCE

ADRENALIN FOR FLIERS When we are fighting mad two little glands which are called adrenals and which lie above the kidneys are aroused to chemical action. The glands pour out ad renalin. Some classic experiments made years ago by Dr. Walter B. Cannon (Harvard) have shown how essential adrenalin is in the emotional life of all higher animals. it stimulates the heart so that it can work harder. Without it there is no fight in man or

Dr. George W. Stavraky (Uniapplied this knowledge for the benefit of the Royal Canadian Air Force. He conducted research to discover the effects of a deficiency of oxygen at altitudes of more than 10,000 feet. He determined the exact amounts of oxygen and carbon dioxide needed for the best action of adrenal glands. He found that unless a man's blood contains certain amounts of both oxygen and carbon dioxide the adrenals do not perform their fund can't fight.

SULFA FOR SICK TREES After a five-year test, F. A. Bartlett, a tree expert, announces that the bleeding canker disease of shade trees can be successfully treated by injections of one of the sulfanamides. Ailing trees treated by the method and properly fed showed an average annual increese of twig growth of more than three inches over similar trees neither treated nor fed. The itiated at Rhode Island State Coilege several years ago when it was discovered that trees in sereral Eastern States were dying of an unknown fungus. After isolation, the disease proved to be bleeding canker. The compound, a "sulfa" derivative, was applied through injections. A total of 4. 011 injections was made on 828

Modern Etiquette By Roberta Lee

1. Is it proper to use a type-writer for social correspondence? 2. Is it all right for a girl to telephone a young man at his of versation? 3. What is the proper way for

a hostess to serve tea?
4. Isn't a hostess inhospitable when she accepts payment from a guest who has called long distance on her telephone, or receives a C.O.D. telegram? 5. When a woman is wearing gloves, should she remove the right one before shaking hands? 6. Isn't it poor manners for person to take hold of another person while talking with him?

1. Yes. There was a time when the typewriter was considered suitable for business correspondence only but that time has passished variety of stationery should be used when typing a letter.

2. She should not do so unless the be used when typing a letter.

2. She should not do so unless the call is very urgent.

3. The hostess should remain seated while pouring the tea; then hand the cups, sancers, and plates to the guests.

They may help themselves to sugar, cream, and lemon, as well as to sandwiches and called the control of the control of

#### OUT OF DOORS IN WINTER By C. J. Hylander Perhaps you think of winter a you are a nature lover, you'll excitement for your winter walks. Now that the leaves are off chance to study their branches. And you'll want to become better acquainted with evergreens, those trees and plants that stay green all year round. There are permanent residents among birds too birds and animals by their tracks

Strange Folk These British

a destroyer, are lightly armed and have only their speed and maneuverability to ward off attack.

As convoy escorts Canadian corvettes have performed notable work. The Arvada recently came

into port with well over 100 sur-vivors from ships sunk by enemy

action.
Seventeen of Canada's corvettes, it was also disclosed, took part in the United Nations invasion of North Africa.

Corvettes have ranged as far north as Iceland and as far south as the Caribbean.
In the Pacific corvettes provided a section of the fighting fleet

which escorted the troop landing on the Aleutians to take the offensive against the Japanese. In fact, according to the De-partment of Munitions and Sup-Jeeps Take Place

American jeeps, the handy-andies of the United States Army, are going to plow now.

The quarter-ton vehicles, which have been used to haul generals and even Presidents, hunt tanks and carry the wounded to hospitals, will be pressed into service in the spring plowing program in Britain to raise food for part of the American symmetric forcer steepers.

\$50,000,000 in Subsidies Pro

Inflation Away

tects Prices Ceiling From the end of March last year to the present time, according to a House of Commons return, the Prices Board has paid out \$50,000,000 in subsidies to protect its prices "ceiling," says
The Ottawa Journal.

This looks like a lot of money; a lot of money, at any rate, to protect a ceiling. Actually, it is but a bagatelle in comparison with what the people of Canada would have had to pay out if there had been no prices ceiling.

A jump of one point in the cost

of living index means roughly \$30,000,000 out of the pockets of Canadian consumers. Therefore, if we were without a prices ceiling and the cost of living had gone up, say, four points (which would not have been extraordinary) what we would have paid would not have been \$50,000,000, but \$120,000,000. If, as would not have been impossible, the jump in of grief and difficulty; but it has

They Even Conduct a War

Kansas City Times, the British cruiser H.M.S. Scylla (Capt. I. A. P. MacIntyre), on patrol duty in the North Atlantic, was informed that a large German cargo ship

was attempting to run the block-ade and reach a French port. Aft-

er a 200-mile chase the Scylla overtook the vessel and fired a

warning salvo ahead of her. In-stead of stopping, the blockade runner shifted course, and the cruiser then fired directly at her. Here is the rest of the Admiralty's

report:
"Soon flames were seen coming

"Soon flames were seen coming from the superstructure of the enemy vessel, and it was noticed that the crew was abandoning ship. The cruiser ceased fire until the lifeboats were clear of the ship, and then the blockade runner was finally sunk with a tor pedo. This was done as quickly as possible, because it was believed that German aircraft and U-boats might be in the vicinity and might be attracted to the scene by smoke from the burn-

scene by smoke from the burn-ing ship."

Remember the number of times that survivors of Allied merchant

vessels have reported being fired upon by the submarine which had sunk their ship, after they had taken to small boats and liferafts,

On Decent Principles

THE WAR - WEEK - Commentary on Current Events Fighting Spirit Of True Canadians

Cannot Be Beaten By Any Enemy want to put on your warm coats and explore out of doors. Even though there may be snow on the ground and less greenness in the landscape, the world of nature is very alive and there is fun and The Independent Majority of the Steelworkers of Steel Co. of Canada ran the following advertisement in the Hamilton Spectator on January 23 and paid for it out of their own pockets: STRIKING IN WARTIME IS A DIRTY BUSINESS

In fact, over 75% of the Steelworkers at the Steel Company of Canadia regard such action as TREASON, and want your help in avoiding any such occurrence at our plant. Every man on strike from a Canadian steel plant to-day is killing Canadian soldiers as surely as if he shot them. This fact makes the relations between the Steelworkers' C.I.O. management, and the Government no longer a private matter, but a public concern. We think the idea of a steel strike should make every citizen of Canada as hopping mad as it makes us. How would you feel if through in the snow.

There may be days when it's not easy to go out of doors and then you'll want to learn how to

ada as hopping mad as it makes us. How would you feel if through determined action of an organized minority you were forced to stop working in what you knew to be a vital part of our war effort? Or if you had worked for your firm for over 25 years, as over 10% of us have, and had no grievances you thought were very important these days when so many people are suffering so much, and were suddenly told you were expected to strike on Monday?

-Or if you had several children, a home to pay for, and other expenses you could just meet, and were suddenly faced with the possibility of being forced to live for several weeks with no money coming in.

Don't get us wrong. We aren't Union haters, or "Company men." We believe well-run and responsible unions can benefit every on. We also know that basic wage rates may need to be adjusted from time to time, and there are other grievances in this plant as in

What we object to is the use of strikes over which we have no control to force decisions in such matters in these times. The Government has set forth a policy of wage and price control to try and avoid troubles and hardships met in the last war. It also provides means for adjusting inequalities brought to its attention. Public opinion should demand quick, firm, and just use of this machinery to settle problems as they arise, and avoid situations such as we have here. To allow any group to dictate its own terms in any such dispute spells disaster for the whole national economy.

THE C.I.O. IS BOMBARDING WORKERS AND PUBLIC WITH PROPAGANDA PUT OUT EXPRESSLY TO WIN MEMBERS AND INCREASE THEIR OWN POWER EY DISCREDITING BOTH GOVERNMENT AND MANAGEMENT.

WE WOULD LIKE TO EXPRESS AND EXPLAIN THE REAL CONVICTIONS OF THOSE STEEL-WORKERS WHO DO THEIR OWN THINKING.

FIRST—A FEW COLD FACTS WHICH CAN BE EASILY VERIFIED:

Union membership never represented more than about 25% of the 4,900 wage earners at Hamilton Works. Not more than 500 members have attended any one meeting.

Only 300 members were present at the meeting in which the strike vote was held. Three hundred men are attempting to force more than 4,000 men to stop work.

A large percentage of former C.I.O. members believe in Unions and joined to assist in correcting grievances the C.I.O. brought to their attention. They joined on the understanding that no strikes would be called in wartime. These men are now thoroughly disgusted, are not paying Union dues, and are completely inactive in Union affairs, but they are included in estimates of C.I.O. membership.

membership.

The strike issue here is Union recognition and collective bargaining, with the pay increase an incidental. Through our Works Council we already have a collective bargaining agreement through elected representatives, free of charge. The Union guarantees to give us the same thing for about \$50,000 in dues. We do not take our Works Council seriously enough, or make it work as it should, because we didn't have to fight for it.

We feel that this projected strike is part of a planned program to unionize Canada's steel industry, no matter at what cost to the country—YOUR country. The C.I.O. is following a familiar pattern which has been very successful in the States. Strong and decisive action is needed immediately to prevent further trouble, and forestall a general inflation. Management's hands are tied, the Government is unwilling and unable to act without some overwhelming expression of public opinion.

Now is your chance to do something concrete to prevent a minority sabotaging our war effort. Write the Government. Express your opinions in the papers, and make sure any man who supports a strike in these times realizes what he is doing.

As for us, we take this opportunity to tell the world that we have

As for us, we take this opportunity to tell the world that we have no intention of being pushed around. Certainly not by any selfish group who feel that the present crisis is a golden opportunity to gain power and faise wages, even at the risk of torpedoing our whole war effort.

We are paying for this notice out of our own pockets, hoping it may help to save us the money we would lose if the Steel Com-

A Committee of The Independent Majority of the Steelworkers of the Steel Co. of Canada

"PURE DICTATORSHIP" There is nothing in our civil law to prevent strikes, says the Owen Sound Sun-Times. If workers are not content with conditions they cannot be forced to stay on the job. But what right have they to say to others, not members of their Union, "You shall not work!" and use force to prevent them from working? None whatever, we should say

should say.

It is a poor rule that does not work both ways; but apparently these strikers want everything their own way. They are exercising their privilege of refusing to work but they are refusing to others the privilege of staying on their jobs. And there is nothing democratic about that. It is pure dictatorship. In a dictator ruled country their Unions would not last a minute.

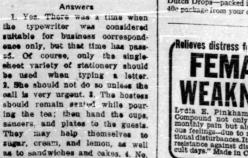

the cost of living reached 10 kept prices down and inflation points (it has gone up that fast in some other countries) our bill from a major economic disaster. would be \$300,000,000.
