SHUTTLE TO SICILY: LSI Boats Take Allies In, Bring Axis Out

The landing boats that ferried Allied invasion troops to Sicily didn't return empty to North Africa. In these contrasting photos, British soldiers are shown wading ashore from an LSI (Landing S hip: Infantry), left, in initial invasion operations. Not much later, long lines of Italien pricate and the later, and the later of Italien pricate and It mers, right, were put aboard vessels for return trip.

GOD SHOWS HIS PEOPLE
THE WAY — Exodus 13—15
PRINTED TEXT, Exodus 13:17. 22; 15:17-22a.

Time.—1445 B.C. Place.—The Israelites as they went out of Egypt gathered to-gether at Succoth, in the north-east of the land of Egypt. Other places in our lesson are to be found between Succoth and the worthern end of the Red Sea

that God led them not by the way of the land of the Philistines, although that was near; for God said, Lest peradventure the people repent when they see war, and they return to Egypt: but God led the people about, by the way of the wilderness by the Red Sea: and the children of israel went up armed out of the land of Egypt."

The shortest and apparently

the easiest route for the Israelites to have pursued would have been that which led along the coast. But this route passed through the chief towns of the Philistines, a strong and warlike people. So God took them by the way of the Red Sea and the wilderness of Sinai to the Transjordanic region and so across Jordan to Canaan proper. The barriers of life may be ranked among its greatest bene-

As for me, I have been house cleaning, picking berries and can ning. Yes, I've been away in the wild woods after raspberries and many. Where the berries were chased me out. However I have six jars of fruit put away. Berry picking seems to have gone out my neighbours say they are too around isn't worth what you get. Maybe they are right—I don't know. But I do know that as long as my legs will carry me I'm going to pick berries. To me it has a fascination all its own. It is something that belongs absolutely to country life. The rustling leaves, the singing of the birds, to me it is just about perfect. At least it is until I hear the sound of a cowbell in the not too distant vicinity. Cows . . . and maybe more than
