FATHERS DAY

Last Sunday was Father's Day and the following from "Opinion Research" covers the Old Bear quite nicely we think:
From the very first hour of the very first time that he paces a hospital corridor in horrible suspense until the time that he is fondly referred to as Granddad, every father is a logical candidate for the title of "The Forgotten Man."
Mothers are glorified in song and story, but poor Pop is heard of in only such ditties as "Father, Dear Father, Come Home With Me Now. The Clock in the Steeple Strikes Nine."
Noble soul that he is, he stands up calmly under the slings and arrows, and goes about his daily task of bringing home the bacon. It isn't so easy to get now. He suffers under the indignity of being held up to his quaking children as the stern and unyielding arm of justice who lies in wait behind the woodshed armed with a raw strap or a willow switch. His only recreation is the occasional poker game with his downtrodden brethren, and the calmness with which he draws to an inside straight is ruffled by the restriction that awaits him if he stays out late.

Weekly War Commentary

Smashing Air Blows
Concentrated attacks by Allied bombers on military and industrial targets in Germany and enemy-occupied territory continue. At the week end the great Schneider aeroplane works at Heilbronn, 170 miles southeast of Paris, and radio-location factories at Friedland, in the southern Germany were bombed on successive nights. Three planes were lost in each of these raids.
On Monday night one of the biggest attacks of the war was made by British and Canadian bombers on Krefeld, just west of the Ruhr. The Air Ministry announced that a total of 133 catastrophic raids now have been made against the cluster of industrial centres within a 20-mile stretch of the Rhine, which includes Krefeld, Duisberg and Dusseldorf.
Another indication of Allied domination of air and sea in the Mediterranean was afforded early this week by the bombing of the King which made an unprecedented wartime visit to Malta. He travelled to the island, which includes Krefeld, Duisberg and Dusseldorf. The bombing was escorted by four destroyers.

GOD SAVE THE KING
SOCIAL PROGRESS IN OUR TIME
"Social surveys show," says the Beveridge Report on Social Security in the past thirty or forty years, "that the standard of living available to the community has risen rapidly in the past thirty or forty years. The real wages of labor, what the wage-earner could buy with his earnings just before the war, was, in general, one third higher than in 1900. For an hour's less work each day, a worker could buy, when earning was interrupted by sickness, accident, or unemployment, had increased in still larger proportion."
The rise in the general standard of living in Britain, in the thirty or forty years that ended in the present war has two morals. The report continues, "First, general property and rising wages diminished what, did not rise, in accident or unemployment. Second, that it is wrong to assume that the present war must bring economic depression. The report states that the permanent forces making for material progress continued to work in a British of shrunken scale."
Investments and real export markets counting in her unemployment, was materially higher in 1938 than in 1913, and is in terms of money wages, of standard of living and real wages.

Not such a bad tale to tell for social progress under Capitalism. Of course, the Beveridge Report, based on conditions in Britain; still it would seem as if Capitalism were not such a Big Bad Wolf after all.

The C.C.F. And The Press

THE C.C.F. PLANS TO DO WITH CANADA
Whenever it is sought to be infringed you can look for a fight of real proportions.
Press freedom exists in this country wherever a newspaper pays its way or makes a profit. A good deal of the revenue of newspapers depends upon subscribers paying for the paper and building up for it a circulation. Another segment of newspaper revenue comes from advertising. As long as a newspaper pays its way or makes a profit, it can afford to be free, independent and outspoken, no matter whose on is goad. Take away its revenue and you destroy the newspaper itself — or else you destroy its freedom. As long as a newspaper and its publisher are free, independent and outspoken, no matter whose on is goad. Take away its revenue and you destroy the newspaper itself — or else you destroy its freedom.

DO IT NOW!
Making 1942 income tax returns well before the June 30th deadline should appeal to 2,000,000 Canadians for patriotic as well as personal reasons, because every cent of the estimated \$1,824,000,000 accruing from this source brings final victory nearer.
The cost of collecting income taxes from all sources in the fiscal year 1939-40 was \$1.85 for each \$100, and in 1942-43 dropped to 40 cents. This year, although the amount derived is greater than the total from 1935 to 1939 inclusive, the cost may be further reduced if returns are made promptly. A single cent on each \$100 collected means a total saving of nearly \$2,000,000 or \$1. for every taxpayer.
Those who secure the proper forms from employer, post office or district inspector now will know just what information and receipts are needed. While the forms have been greatly simplified it would be folly for anyone to put the matter off until the last few days. Working on them, too, is the warning that returns not in by June 30th incur a penalty of 5 per cent, not just of the balance owing at June 30th but of the full tax.
In shaking off the old "catch-as-catch-can" for the new pay-as-you-earn plan, Canadians have welcomed cancellation of one-half of the 1942 tax liability on earned income. This means that most taxpayers will have a comparatively small balance to pay with their 1942 return. Many in fact, will find they have an amount to their credit, in addition to the portion which will be refunded after the war with 2 per cent interest.
TOWN HOME TOWN AND MINE
One of the most democratic institutions in modern Canadian life is the small town, Main Street. It is an institution for it never changes — a few shiny store fronts, theatres and even traffic lights may modernize its surface, but the great, generous kindly heart of it beats as steadily today as it did fifty or one hundred years ago.
The even tempo of small town life sometimes tempers city visitations. It takes an effort on their part to understand that the comparatively leisurely way of doing business on Main Street is not inefficient. They rarely realize that the merchant wouldn't sell a nickel's worth if he did not take time to manifest his genuine interest in the state of his customer's family, garden and health.
The Main Street community is quite unconscious of class distinctions as the world knows them. All classes, rich and poor are accepted into the circle. The qualifications are merely that the members feel a sense of belonging to the small town brotherhood, joy in their neighbor's success and sorrow in their failures.
This sharing of emotions which confuses the city folk on Main Street, that is good and simple and kind. And if its steadfast heart ever ceases to beat, the Freedom we claim for Canada would be a dead and lifeless thing in the community.

Things that make GREYHOUND a great public service

... also make it a great force for Victory!

The very same features that made Greyhound one of the world's greatest passenger-carriers have also made it ready and able to do a hugely expanded, essential wartime job. Today Greyhound is working at that job full-time, full-strength—carrying the millions who are fighting, working, supporting the war effort.

ECONOMY...
Greyhound pioneered travel economy — and today makes even more important saving—using only a fraction as much rubber and fuel per passenger, per mile, as do private autos.

COMFORT...
Wartime passengers cheerfully accept a little less comfort and convenience than Greyhound offered in peacetime—knowing well that greater travel luxury than ever will come with Victory.

CONVENIENCE...
Frequency of schedules is now more important than ever—saving precious time, permitting the planning of when travel will aid the war effort most.

Because they have been needed urgently elsewhere for transportation of war workers, Greyhound buses no longer operate over all routes. But when the war is won they will be back to serve you again—on the same fine equipment and courteous drivers.

ARE YOU ONE OF THE MILLIONS WHO ARE JEOPARDIZING YOUR VISION?
Are you one of the millions who are jeopardizing your vision by neglecting to have your eyes examined by a professional optometrist? If so, you should know that the eyes are the most important part of the body and that if they are not properly cared for, they will become weak and may become permanently injured. The eyes are also the windows of the soul and if they are not properly cared for, they will reflect the inner state of the mind. Therefore, it is very important that you should have your eyes examined regularly and that you should take proper care of them. You should avoid reading in poor light, and you should avoid looking at the sun or other bright objects for long periods of time. You should also avoid smoking and drinking alcohol, as these habits are harmful to the eyes. If you have any symptoms of eye trouble, such as redness, watering, or pain, you should see your optometrist at once.
