WHO DO YOU THINK SHOULD STAY HOME?

If everybody would co-operate, nobody need be left home. This is especially true of shoppers and other non-essential travellers. Wartime conditions demand that they be home by 4 p.m. to avoid peak hours . . . otherwise they may be left until 7 p.m.. And please avoid week-ends. This is one way you can help the war effort.

SCHOLARSHIP

Thirty-two weeks of study in the arts of music and the stage is what lies ahead of 18-year-old Evelyn Pasen, whose voice has been featured on many of CBC's National Network programs during the past year. The vivacious Miss Pasen has won a scholarship at the Juilliard School of Music in New York, and her path of song looks bright.

Someone recently asked a question as to a ration, farm produced, that would give good results in egg production. Briefly such a ration might include the following: wheat oats and barley, ground medium coerase for mash; oyster shell or ground out give mash; oyster shell or ground out given beyond our quota figure—that the committee knew all the time and solity to get to market in and ability to get to market in and conformation of the sow is all the more magnificent.

When the Record went to press ast week we still had \$70,000 00 to take in the promode of its all the more magnificent.

This is the season of the year to watch for and control lice on poultry. It is wise to keep them in check before they become too plentiful. Frequent dusting with sodium floride using small priches.

tiful. Frequent dusting with sodium floride, using small pinches on the head, under the wings, in the fluff and around the vent, brushed in well, will usually control this pest. A thin stream of nicotine sulphate placed on the perches just before the birds go to roost will also produce the desired results. There should, of course, be plenty of ventilation in the house to prevent the birds from suffering ill effects from the poisonous gas given off by the nicotine sulphate Naturally, of course, the house must be kept clean.

Some considerable discussion is taking place these days as to sources of seed for the 1944 crop. Some old grain remains in farmers' hands and there may be a little of the 1943 crop that will be satisfactory. It would be wise, before using any of this zed to run a germination test at home. This can be easily dene by counting 100 seeds, picked at random from the bin or bag and planting these in some loamy earth placed in a flower pot o rfiat box.

JAP FRUIT FOUND TO BLAME

AS ROBBINS GET HANGOVER
AT WESTERN UNIVERSITY

London, Ont., Nov. 11 - (CP) -The trunken robins have gone south.

They dwelt, of all places, in an atmosphere of the highest culture and impeccable respectability — at an impeccable respectability — and impeccable respectability and in the unities of the university of Western Ontario. Specifically, they established a hability of the their bacchanalian tastes brought them to the attention of an own somewhere in Florida is a brought them to the attention of an own somewhere in Florida is a brought them to the attention of the rural power districts was announced today by the Ontario Bydro Electric Power Commission.

The revision in rates and the institution of a uniform rate for all rural consumers was decided upon following a thorough study of the whole rate structure by the Ontario Government and the Ontario Hydro Electric Power Commission.

The revision in rates and the institution of a uniform rate for all rural consumers was decided upon following a thorough study of the whole rate structure by the Ontario Hydro Electric Power Commission.

The revision in rates and the institution of a uniform rate for all rural consumers was decided upon following a thorough study of the whole rate structure by the Ontario Hydro Electric Power Commission.

The War Stamp girls did a land office business at the Victory Loan banquet in Knox Church basement on Monday night. They found all contacts willing buyers, and at the close of business they found that nearly three hundred stamps had been sold, netting more than \$74.00.

The three girls wearing the attractive uniforms were Catherine Cresswell, Doreen Stire and Ethel Cassidy. The final sale topped all others when a well known radio man, from Hagarsville, formerly of Jarvis, took his change from a ten dollar bill, in those beautifully embc.ssed, twenty-five cent stamps which so gloriously depict Canada's War effort.

Hydro Rates Cut

Rural Areas

PLAN TO RAISE THIS AMOUNT

Since the Navy League committee was established in Jarvis last year, the thoughts of the citizens of the district has turned more to the hazardous work being done by the men on the sea. For the first tirre, Jarvis, turned in nearly fifty ditty bags this year, which will provide moments of happiness to a similar number of sailors at Christmas time. The Navy league however, also needs funds to carry on their work, and the week of November, 21 - 27 has been set at \$150. This is a small amount, and no doubt will be quickly subscribed by the citizens of this community. The school teachers are lending their co-operation, and are distributing small envelopes to all students, who will be asked to take them home for their parent's contribution. All are urged to do their part and put some donation in the envelope to be returned to the school.

The men of the sea have a perilous task, our small contribution to their welfare is vital. Do your part during Navy Week, November 21 - 27.

Reduction in hydro rates for 129,-000 rural consumers through a uni-form power rate for all rural areas of the province, elimination of ser-vice charges to farmers and an analyzemation of the rural power and an analyzemation of the rural power and analyzemation.
