THANKSGIVING-

FOR THE first time since the war began Canadians approach a Thanksgiving season heartened by the successes of the United Nations on all fronts. The Germans and Italians have been driven out of North Africa, Italy has surrendered unconditionally and the Russians are thrusting town by town toward their west-

Canada's fighting forces take a high place among those of the United Nations and their achievements in Sicily during the past sum-mer qualified them as "veterans" in General Sir Bernard Montgomery's intrepid British 8th Army. In the Dominion, Canadians are making a tremendous effort for victory, an effort of freedom-loving people, in which of its own volition democracy has willed to stand against the assaults of military and moral dictatorships.

Thanksgiving is essentially a home festival when families gather to feast heartily on the fruits of their land and labor. For this happy institution we may be thankful, but most of all for the opportunity for world service in which the pioneer attributes typified in the first Thanksgiving will stand us in good stead.

Thanksgiving ever since its inception in 1621 has been a celebration peculiar to the New World. Fifty-five surviving white men and women at Plymouth invited oo Indian braves to share in a feast including "as much fowle as with a little helpe, served the company almost a weeke," The colonists gathered to mark with thanksgiving the successes of their labors made possible by their persistence, courage and in-

Such qualities the inheritors of the truly North American feast of Thanksgiving will have need of in the days ahead, whether for the final stages of the war or for the rehabilitation of the world. Canada, whose growth has fostered and demanded enterprise and adaptability will be ready to take a leading part in creating have reason for thanksgiving.

A SHORT NAP MAY MEAN A LONG SLEEP—

FIGHTERS are careful about their sleeping habits. They do not doze while they are facing their opponents, for example. least the winning kind do not. Both boxfighters and warriors get to be champions and stay champions because they know it is not safe to relax before the opposition quits or is

Supposing the Nazi propaganda master, Goebbels, handed out a new dish - his theme that Canadian troops were losing interest in the war. Let's say his fancy story ran something like this: Canadians in the Navy, the Army and the Air Force are becoming weary; they are more interested in getting back home than in pressing an attack; their aggressiveness has noticeably deteriorated.

What would happen to Goebbels' propaganda in this country? Why, in every big | bound for London. "What station is this?" | bound for London beautiful bound for London. "What station is this?" | iod. When the price of wheat be and little town people would laugh it down!

But suppose that Goebbels tried his hand at such tactics, in reverse. Let us imagine that he planted the following story among Canadian troops overseas: the folks at home are becoming weary of the war; production is dropping noticeably in plants throughout the country; absenteeism is growing into a major problem; young and old are spending more and more money for selfish purposes and are be-

coming less interested in Victory Loan drives. Would our men overseas in such a situation have the same confidence in us and the same scorn of such a rumor-story as we would show against the reverse propaganda? We think the answer would be "yes." We believe that our troops have confidence in the home front.

We have given them every reason for such faith in the past three years. But if we are to the home from the heritage of improved citizenship is among its most important function.

"Il leave my draughts on if I want in winter or in fall, Electric wiring that's frayed and worn." be champions in our field as our men in uni- tions. form are champions over there, we will remember that even a slight relaxation can prove our undoing. This is particularly applicable to our present task of making the Fifth Victory Loan campaign an outstanding success.

VVVV THE POWER OF ORGANIZATION-

THIS IDEA that when everything is run by government everything will be run fairly takes a little consideration.

Just at this moment the Canadian Bacon Board is trying its level best to get the government to allow it to stimulate the production of bacon a little more. To do that, some rest rooms. Quarters for the rest out himself O.K. more money has to be paid the farmers for raising hogs. This is done by raising the price of become to the Price of become will be in the town hall build ing.

Humboldt (Sask) Journal clothes, price of bacon to the British Government, that would put the price of bacon up in Canada. HUNTERS HIT JACK POT That would put up the cost of living index, and that would cost the Government a great deal of money, both on its own gigantic expenditures for labor, and by loss of Excess Profits Tax from private employers not working on Gov-

Thus, the Government balks at the idea. t even balks at the other plan, of giving the farmer his increased price for hogs as a subsidy. The trouble is that the Government has to remember politics. It dare not tell organized labour that the need of more bacon for our forces and our Allies makes it necessary for us to produce it, even if the cost of living rises. It is afraid to face the taxpayers with any further increase in taxes or compulsory savings t would be afraid to face the farmer with frank admission that this is why the price of bacon hogs is not increased.

bacon hogs is not increased.

It looks, from this and many other such cases, that when the government runs everything, everything will be run on the basis of chairman of the Prices Board, has the most votes are to be won.

Ottawa, October 6 - (CP) - Pressure upon its price control ceilings ome relief to the low income earn-chairman of the Prices Board, has

ight try it. One thing is certain: when the development of inflationary tenden-employees up to 50 cents an hour, Government runs everything there will be no cies. need to worry about people not being interested in politics, or not voting at election time.
