AN APPEAL RENEWED

Nearly a generation ago a Canadian doctor paused amid the desolation of a bloody Flanders battlefield to breathe into burning life the pent-up plea of Canada's fighting sons: "To you from failing hands we throw the torch—be yours to hold it high."

These words, fired with the essence of a Great Cause and pointing like a blazing signpost along Canada's road of destiny, quickened the inspired the Allied peoples of the First Great War. History itself bears witness the appeal was answered in full measure.

Today we stand in the fifth year of an even greater conflict. Today our sons—Canada's sons—march in full battle array against an even stronger and more ruthless enemy. Great victories lie behind us, but our leaders have warned of the immense trials ahead.

The climactic battles of the struggle for freedom are at hand. And as we watch the terrible events unfold—thousands, with that prayerful anxiety that comes only to those with dear ones in the heart of the fray—unseen valiant words of another day hearken us to make ourselves worthy of such sacrifice.

They were written on behalf of our dead in that other war by one who himself laid down his life in the struggle. For those who have fallen they are as applicable now as then.

"We are the dead. Short days ago
"We lived, felt dawn, saw sunset glow,
"Loved and were loved—and now we lie
"In Flanders fields."

Now as then, men at full grips with the enemy ask us at home to "take up our quarrel with the foe." Our country will soon be in the midst of its greatest appeal for funds to carry on that quarrel.

There can be but one answer.

SALVAGE HELPS MOTORISTS

The announcement of Mr. Howe that owners of passenger cars may have their tires retreaded with camberback rubber of the passenger type without a tire ration permit will be welcome to Canadian motorists. Following the increase of the ration of tea and coffee, it is also an encouraging sign that the Government is ready, when adequate resources are available, to mitigate the drastic sacrifices it has had to impose upon the Canadian people for the purposes of the war.

But the people also owe this recovery of a lost privilege to their own efforts. It has been the creditable work of some 2,000 salvage committees, organized all over the Dominion for the purpose of collecting old tires and tubes and other waste rubber, that has produced the material to make possible the concession now granted. Hundreds of public-spirited citizens and thousands of school children have given freely of their time and energy to the work of these committees, and they deserve the gratitude of

the motoring community.

Despite the mounting output of synthetic rubber there still is a shortage of rubber necessary for the manufacture of new tires, and salvaging of rubber tires and tubes is still important. The concession is not to be regarded as the termination of this. It provides evidence of how motorists can help themselves by helping the salvage committees.

FARMER CO-OPERATION REQUESTED REGARDING SEED GRAIN FOR 1944

Due to the partial failure of 1943 oats and barley crops in the Province, the Ontario Department of Agriculture this week is taking steps in an effort to assure an adequate seed supply for 1944. The Department is requesting the co-operation of growers in planning now for their 1944 seed needs and reporting individual requirements to county agricultural representatives by November 15th.

Hon. Thomas L. Kennedy, Minister of Agriculture, in commenting on this measure states: "What the Department of Agriculture would like farmers to do is secure wherever possible good seed of suitable varieties for their 1944 sowing needs. All oats and barley suitable for seed from the 1943 crop and any held over from 1942 should be cleaned and offered for sale as seed. Farmers should offer their surplus seed first to neighbours and advise their Agricultural Representatives of any not sold by November 15th. Do not feed grain of seed quality. If necessary, replace it with Western feed grain. Farmers are advised to buy seed grains early and if unable to obtain suitable seed, advise their Agricultural Representative not later than November 15th. This will enable us to estimate the requirements for each district so that there will be ample seed grain for everyone."

It is further suggested that Directors and Members of County Crop Improvement Associations can become actively interested in the movement and supply of seed grain, thereby contributing valuable assistance in a situation which demands serious and immediate action on the part of farmers all over the Province.

"JACK RABBIT" FROM GERMANY

The so-called Jack Rabbit of southern Ontario is really a German hare. It was brought here from Germany in 1912, by a German, and released near Brantford. There is no evidence that he gave it the name Jack Rabbit to conceal its identity, but that name has prevailed most people from recognizing it as a German hare. However, the same hare occurs in England and throughout central Europe; its real name is European hare.

The Royal Ontario Museum has kept a record of its spread. It reaches Canada in 1920, Toronto in 1925, and Georgian Bay in 1927. Like many other animals (and humans too) the hare is partly good and partly bad. Before the war when sportsmen could get ammunition the European hare was a favourite game animal in a part of Ontario not now provided with game. But hares have to eat and they find the farmer's crops to their liking, and in winter sometimes girdle orchard trees.

THEY WILL COME

They had just become engaged. "I shall love," she cooed, "to share all your troubles." "But, darling," he murmured, "I have none." "No," she agreed, "but I mean when we are married."
