OTTAWA REPORTS

That The Ceiling Prices On Apples Will Stabilize Prices During the Marketing Season

The ceiling prices placed or formed one of the main orders established by the Wartime Prices and Trade Board during the past week. According to the Board, the order nade very little change in the prices that were prevailing in the industry at the time the order was announced. The main effect of the order will be to stab ilize prices for the period during the marketing season when prices generally rise.

"Flying Flea"

Details on the performance of Britain's secret "Flying Flea" were made public by the Air Ministry last week for the first time, although the 'plane has been in action on all fronts since the war began for artillery spot-ting and observation work. The tiny 'plane, a low-wing monoplane, has a maximum speed ci 125 miles an hour and can take off from roads, fields or wherever there is a 50-yard run-

The "Flying Flea" is unarmed and depends entirely on manoeuvrability to escape enemy fighters. THE WAR - WEEK - Commentary on Current Events
