pearls? Yes—now I remember. We speak of rough diamonds and Some people do and some don't. I have friends who say that to black pearls, don't we? Anyway, what we have are black diamonds. them an auction sale is a heart They are very precious indeed—and we keep them in the cellar. breaking affair. Well, that may be true in some cases but-there Yes, you've guessed it—our black diamonds are nuggets of coal! are sales and sales. We actually had two tens delivered yesterday along with 25 per

A few years ago many farm sales were held for the simple reason that farmers had to arrange a sale themselves or have the mortgagees take over. Such affairs. But there are no sales sales are the result of the owners realizing that they have a grand opportunity to "get out from under"; to realize prices on their stock and implements that they would never get at any other time. Really, I think an auction sale crowd provides a pretty fair sample of mass hysteria. It seems to me that only the strongsale for it has an allurement that a weak-willed person can hardly resist—you just feel you have to raise that other fellow's bid.

farm sale near here. And what a sale! I believe the owner had been preparing for it all summer. How any one man could collect so much truck in a lifetime is a mysreaped a good harvest on his colpeople, like myself, were out to buy something that is no longer on the market. What we were after was a large size mail-bo and, as Partner was away to a threshing, it fell to me to do th bidding. Of course we already have a mail-box but it is small and pretty well knocked about. In winter the snowplough comes along and scoops up our mail-box as well as the snow - and that doesn't improve the mail-box. In summer, because the box no longer closes as it should, the starlings make a nest inside it. and every day the partly-built nest must be pulled out before one mail can be put in. And that goes on for weeks. You can leave it to the starlings to teach us a lesson in perseverance.

Anyway, I think you will agree that a new mail-box was practically a necessity. Unfortun Government doesn't think so, for mail-boxes are listed among

However, I was lucky at the cents less than it cost when new also got quite a kick out of looking on as the rest of the There were seven or eight new bought down town for 29 cents each. They sold for 90 cents a pair! An extension ladder that had seen its best days fetched \$15. What the stock and implements went for I don't know as once I had made my purchase I was ready for home—after wait-ing three hours for the auctioneer to get around to my mail-box.

I don't know much about dis monds but I have a hazy idea that black diamonds are regarded others. Or am I thinking of

How Can 1??

Q. How can I bleach old lace! A. Remove the yellow spots by wetting the lace and spreading where it will freeze, or by wetting and spreading it in a very hot sun. Either method may require several days to bleach thoroughly, and the lace must be kept wet all during the process.

Q. How can I make a tooth powder? "
A. By mixing thoroughly five ounces of areca-nut charcoal, two ounces of cuttle-fish bone, one ounce of areca-nuts, raw and pow-dered. Strain through a fine sieve.

Q. How can I prevent a colored suede belt from fading onto the dress from perspiration? A. Line the inside of the belt with a strip of waterproof adhes-

Q. How can I loosen corns? A. It is claimed that it will loosen by binding a piece of lemon around it, changing the applica-tion daily for about three or four days. Then soak the corn in warm

Q. How can I make a substitute for whipped cream? A. Slice one banana and add it. the white of an egg. Then best it. The banana will dissolve. This

makes a delicious substitute for whipped cream.

SUNDAY SCHOOL LESSON

LARDER LAKE

This is the active mining camp of the north country. The present activity may well be a record for diamond drilling in one area.

The development of the young Kerr Addison mine to a position in the forefront of Canada's big gold mines, has been the stimulus for the effort to find new mines. All authorities agree that conditions exist in the area, which warrant the expectation that several new mines will be developed.

The question which we find in many minds, is—How can one participate in a mining development, such as is getting underway in Larder Lake, and do so on a sane, sound basis, with every reasonable chance of success? Our answer is "diversification" over the list of well located properties, where the prices of the shares are still in the penny

Arjon, Armistice, Lar-Add, Moosewood, Pelangio are already drilling, and Tovarich and Grassy Lake are expected to be drilling shortly. Virgo Larder and Largold have been financed; and rumours are heard in regard to Martin Bird. Mount Cheminis Mines has been incorporated and is planning diamond drilling.

We are interested in Tovarich, and think the chances for success are good. On location next to Chesterville and close to Kerr Addison, we think Pelangio may be a big winner. Then, on the excellent conditions indicated by drilling to date, Moosewood, located adjoining Omega, may have ore conditions at any time. Then again, on Lar-Add flanked on two sides by the Amalgamated Larder, which company has been financed by, and is controlled by Anglo-Huronian, Consolidated Smelters, Ventures and Noranda,—the chances for success should be excellent.

We think this Larder Lake development is the opportunity of years. May we assist you. Correspondence invited. We have a map of the Larder Lake area available on request.

and before Pearl Harbour we had haded over to the British fifty our over-age destroyers. bably would have lost the war Canadian Navy hadn't come rough in a spectacular and her way. It is not surprising that d resources, should have been the to shoulder 51 per cent of the But it is one of the marvels this war that Canada, an agri-litural nation of less than 12,-0,000 people, could have contribper cent of the vast fleet fighting ships necessary to get eighters across.

That President Roosevelt's

Visit To The Capital Was Of International Importance. It is a few days now since Presi-

dent Roosevelt visited the capital of Canada and addressed Canadians from a dais within the shadows of the peace tower, but Canadian Navy was composed of a handful of destroyers manned by a personnel of less than 2,000 men.

Thirty thousand persons — as Thirty thousand persons — the person of the fore-most Canadian events of all time. many as turned out for the King ed twenty-five fold. As for ships of war, Hitler would like to know Hill to see and hear him. Thousands more jammed all the approaches to the War memorial down town to watch the President reverently lay a wreath; and still

of the fifty American destroyers which were traded to the British, Canada got seven, but while these were a real help they were only a beginning—a stop-gap. During the early months of the war, the need became apparent for a new type of vessel; a ship designed to combat the U-boat, to be launched in large numbers. In a the future neace and happiness launched in large numbers, in a the future peace and happiness hurry. There was no time to be of mankind depended in large lost. The answer was an improvisation called the corvette.

Once the Canadians had the depended in large measure upon Anglo Saxon good will and understanding and cooperation. And Canada it must be remembered, stands as the interpreter between the United States and the Empire.

One wondered, momentarily, a building it in numbers that would shock the Nazi high command if it knew. Large shipyards and small ones, even tiny boatyards whose experience had been limited to fishing boats and pleasure craft, responded in a way that made history. And husky young lads from the Prairie Provinces went down **ADVERTISEMENTS** FARN EXTRA CASH
