Under these provisions, no permit from the Board is required when this livestock is hauled by a truck owned and operated by a farmer, and in such cases the truck may also haul livestock belonging to a neighbouring farmer. No permit is required when the exhibition livestock is hauled by a P.C.V. operator carrying it over the route on which he is authorized to operate.

In other instances, however, where exhibition livestock has to be hauled beyond 35 miles from the truck's registered address, a permit must be obtained from the services administration. Arrangements have been made, said Mr. Carroll, whereby the application forms for these permits can be secured from the agriculture.

WHO DO YOU THINK SHOULD STAY HOME?

If everybody would co-operate, nobody need be left home. This is especially true of shop-pers and other non-essential travellers. Wartime conditions demand that they be home by 4 p.m. to avoid peak hours... otherwise they may be left until 7 p.m. And please avoid week-ends. This is one way you can help the war effort.

Some people are irked with the news that Canada will not follow the U.S.A. in taking coffee off the ration list. But it is pointed out we have only a four months' supply on hand, which is not so much Besides. here's another angle. Because of our low tea ration and relatively high coffee coupon value, cause of our low tea ration and relatively high coffee coupon value, the latter's consumption is up 15% over pre-war normal while tea is down by a half. It would be difficult to eliminate one without the other, they claim.

Owen Stables at Tillsonburgh Suffer Heavy Fire Loss Len Lee Perished in Flames

BRIEF NOTES FOR THE BUSY FARMER

Harry Fields, of Hamilton, trainer for the Owen Stables at Tillsonburg suffered severe burns and shock, due to his efforts to rescue three horses from their stable at the Tillsonburg Fair Grounds early Sunday morning. Len Lee, promising three-year-old colt, perished in the flames, while two others were brought to safety.

Fortunately for Haldimand County fodder supplies seem to be fairly abundant. A preliminary estimate shows and frame of the yield of hay and clover would indicate an increase of approximately one fifth of a ton per acre as compared with last year. This on the basis of an increase of some four thousand acres gives a total increase of some four thousand oraces gives a total increase of some four thousand tone increase of some four thousand tone for thousand
