When it comes to saving coal—Patriotism and common sense go hand in hand

FARSIGHTED householders are seeing the urgent need of preparing their homes now against this winter's coal shortage. They are acting now!

HEATING SYSTEMS MUST BE EFFICIENT: HOMES SHOULD BE ADEQUATELY INSULATED.

Here are some jobs you should be doing NOW!

1. Have your entire heating system inspected. Order necessary repairs.
2. Have your furnace thoroughly cleaned by a competent man. Insulate furnace and pipes where necessary.
3. Be sure that you have sufficient storm windows and that all windows and doors fit tightly. Have cracks in walls repaired. Weatherstrip wherever it is necessary. Consider seriously the insulation of ceiling and walls.

Many homes waste as much as 60% of their fuel through inefficient heating equipment, inadequate insulation and other heat losses. Winter is just around the corner. Prepare NOW!

HON. C. D. HOWE, Minister

This Week

Written Specially for the Record
— By John C. Scott —
Canadian Press Staff Writer

Toronto, Sept. 22 (CP) — Ontario politics are in the news again and C.C.F. members who will sit in the next legislature have held their first caucus in the Queen's Park building. Out of the caucus came 15 committees to scrutinize the work of various government departments and others to investigate planning, Dominion-Provincial relations, housing, conservation of natural resources, merchandising and fuel.

Through pronouncements of their leader E. B. Muldoon, members of the next legislature's official opposition have given notice they will make it tough for Lt.-Col. George Drew's Progressive Conservative government when the provincial house meets again.

Against the government's thirty-eight members, from a Speaker made by the opposition, the C.C.F. will present an opposition of thirty-four and they will draw support also from two Liberal Progressives elected from Toronto ridings.

To maintain his government, Col. Drew will have to get support from the fifteen Liberals and the lone Independent Liberal. However, Queen's Park gossip is that the latter, former Premier Mitchell Hepburn, will lead a group of Liberals who will support the Progressive Conservative administration in the House.

Mr. Hepburn is well known for his opposition to the C.I.O. and the C.C.F. has derived much support from that Labor organization, several of its officials having been elected as C.C.F. members of the legislature.

Among the group expected to swing the government support with the former Liberal premier is A. St. Clair Gordon, former treasurer, who still retains his post as chairman of the liquor control board.

On the province's farm front, Premier Drew and Agriculture Minister Kennedy are advancing with their plans for agriculturalists and the special agriculture committee named several weeks ago for the purpose of investigating the government's policy in the farming industry to advise the government on needed legislation.

At the same time, the C.C.F. government were Mr. and Mrs. R. J. Simcoe, Mr. and Mrs. Hugh Montgomery and Mr. and Mrs. R. J. Simcoe.
