## SUNDAY SCHOOL LESSON

October 10 REVERENCE FOR GOD .- Exodus 20: 3-7; Matthew 4:10; 6:9;

GOLDEN TEXT - God is a Spirit: and they that worship him must worship in spirit and truth.

Memory Verse: I was glad when

they said unto me, Let us go unto the house of Jehovah. Psalm 122:1. THE LESSON IN ITS SETTING Time.-The commandments were given in 1445 B.C.; our Lord's temptation took place in January, A.D. 27; the Sermon on the Mount was delivered in the summer of A.D. 28; our Lord's words with the woman at the well took place

in December, A.D. 27. Piace. - The commandments were given on Mount Sinai; our Lord's temptation in the wilder ness near the Jordan: the Sermon on The Mount was given somewhere on a mountain in northern Palestine; the discourse with the woman of Samaria was at Sychar.

Our Only God "Thou shalt have no other gods before me." This commandment forbids the recognition of any other than Jehovah as God. This includes the prohibition of ascribing to any other being divine attributes; rendering to any crea ture the homage or obedience due to God alone; or exercising toward any other person or object those feelings of love, confidence, and submission which belong of right

only to God." "Thou shalt not make unto thee a graven image, nor any likeness of any thing that is in heaven above, or that is in the earth be neath, or that is in the water under the earth: thou shalt not bow down thyself unto them, nor serve them; for I Jehovah thy God am a jealous God, visiting the iniquity upon the third and upon the fourth generation of them that hate me and showing loving kindness unto thousands of them that love me and keep my commandments." This commandment opposes id olatry, that is, the worship of an idol or image of God, or of God through an idol. We are not to make, worship or serve an idol. Anger, jealousy, hatred and revenge are ascribed to God, not as passions, but as feelings of a holy being in regard to that which is evil. He that makes and worships an idol has lost the knowledge of

This iniquity is called the iniquity of the fathers, inasmuch as originates with them, and is only perpetuated in the sons who adhere to it. The fathers will have to account for their own iniquity, not only as men, but as fathers setting a bad example to their household. But the sons who, on arriving at the exercise of a natural judgment, walk in the same iniquity will be treated as respons thle beings, and visited for the iniquity which they have made their own. The comforting promise is that God will never fail to show mercy to all successive generations that humbly and thank-

fully own Him for their God. Use of God's Name of Jehovah thy God in vain: for Jehovah will not hold him guiltless that taketh his name in vain. This commandment forbids all irreverance toward God; not only the highest act of irreverance in calling on Him to bear witness to falsehood, but also the irreverant use of His name; all careless, un-necessary reference to Him or His attributes; all indecorous conduct in His worship.

Bomb The U-Boats It is impossible to spot sub marines below the surface from airplanes over the Atlantic, says the Windsor Star. In the clearer waters of the Mediterranean, an airman can look down and see submarines as much as 60 feet below the surface. But, in the Atlantic

any submarine beneath the surface However, airplanes on patrol can spot the tell-tale feather of water made by the periscope of a submarine. Once that is seen, the air patrol can begin to bomb with telling effect. Any submarine commander, who

knows there is a constant air patrol being kept overhead, realizes that he is tempting fate to put up his periscope. He understands that the pilot aloft will spot the feather and begin to work on him. Hence, more than one enemy submarire commander has kept his periscope down, refusing to take a chance with the airplanes overhead. And, if he does not use bis periscope, the submarine commander has to attack shipping blindly, which is not effective.

ments of the war has been the ability of Canada to Snance its own magnificent war effort. It was made possible by a financial condition in which the production of gold had a large and important

contribution of the mines to the post war problems. They will be expected to help by producing more gold and especially in giving employment to returning soldiers and others released from various war industries. Under these conditions the necessity for keeping them going should not be over looked. - Port Arthur News-Chronicle

Generally, from time to time we hear of some person who has been to somebody or other, and from all accounts you would think they had had some sort of miracle worked on their feet. But most of us are sceptical of such stories and pay little attention to them Partner and I have both been a ioubting Thomas in that respect. But not any more-no indeed, we have both reformed, and are now ready and anxious to spread he glad news abroac that you and I don't need to go limping u. way through life.

You see, in desperation, we a ast took our sceptical minds and tortured feet to a foot specialist -and we each came out with a pair of feet that are now ready to g places and do things. And all for the price of a dollar a

And what does the doctor do? Well, he first prepares the corns and callouses by placing a cotton pad over them soaked with some sort of softening solution. ## Eastern Canada's Abandoned Farms

Farms Are Now Idle

In Eastern Canada there are between 12,000 and 13,000 farms, covering about one and one-half million acres, which have been abandoned and have been idle for some time. This condition exists despite the fact that many thousands of acres of new, wooded land have been cleared and settled in some parts of Eastern Canada during the last ten years. So states an official of the Central Experimental Farm.; Should this abandoned land,

which to a large extent has al-ready been cleared of its forest, be used for land settlement purposes instead of clearing new land of its original forest cover? In
