The shipment is the first of a regular monthly service to prisoners-of-war in Germany.

Lassie, a pup bought by Chicago police captain Louis Capparelli a a pet for his daughter, was kept in the police station to be bousebroken. Nazi Supply Lines Lead Through Rome

The only way the Germans can supply their defence lines at Anzio and Cassino is through Rome. All railway supply routes and all major roads lead through Rome to the south, and through Rome only. Rome is one large distribution center through which all things German flow. It will be an open city only when and if the German army stops using its stations, airfields, roads, military depots, and barracks and not before.

being kept before the eyes of the world these days as a result of the part which the soldiers of the great little Dominion are playing in the fighting for Cassino, says The Ottawa Citizen. The New Zealanders make up but a com-paratively small force in the 5th

Army, but they are the kind of fighters who keep finding their way into the news, New Zealanders drove back the Germans in the battered Italian town in bitter hand-to-hand fight-ing. But they have been fighting a long time in the Mediterrean campaign. They and the Indians flanked the Mareth Line under Montgomery when Rommel stopped to make a stand in his flight way from El Alamein to Cape Bon.

It is probable that almost all the original members of this New Zealand force have become cas-ualties in the last four years. But there must be still a few tought veterans left who fought in the arguard action in the dramatic British retreat from Greece. Except for two or three months in Syria after Crete, these N. Zea-landers have been fighting ever since through long months of heat, cold, sand and mud.
