**TONS OF FOOD ARE GOING TO WASTE IN THIS DISTRICT UNLESS YOU ACT NOW!**

**JARVIS! It's up to YOU!**

This community is faced with the immediate task of organizing to SAVE FOOD materials urgently needed by our invading Armed Forces.

There is not available at this moment one half the farm help required to save the abundant food crops ready for harvest on farms in this community. Yet these crops must be saved to feed our invading armed forces—to whom food is as vitally important as ammunition. They can not win if they don't eat.

The man power needed to save this food can be provided ONLY in one way, and that way is by the citizens of this community organizing to provide help for its farmers; organizing the "spare hours" of its men in the cause of Saving Food for Victory.

- ★ **Council** You can lead, effectively, the weight of your official influence by your organization. You can "help the farmer" by promoting a plan demands by permitting municipality to transport commodities to and from farms; by giving leadership in organization work.
- ★ **Employers** You can give vital assistance by retaining a shift, or your entire staff, for a day or more; by increasing the urgency of their duties to the farm; for the period of release.
- ★ **Merchants** You can organize to give a body with your staffs on the weekly you could close your stores for an entire day, or one week to assist during this critical period.
- ★ **Clergymen** You can impress the need for agricultural commodity organization via clubs and other means to organize enthusiasts.
- ★ **Mechanics** Also artisans, laborers, clerks, salesmen. You can provide the greatest service because you are in organization wherever you are. Assist "locally" in plugging your spare hours to help on the farm.
- ★ **Service Clubs** You can add to your leisure of social service by enrolling in this most constructive task; by forming committees to work in cooperation with commands headquarters, on many phases of the work.

**JOIN THE Farm Commandos**

**HERE'S WHAT TO DO**

Officers of the Municipal Council, Executive of Board of Trade, Merchants' Association, and Service Clubs should arrange for an organization meeting as soon as possible, and the Agricultural Representative of the district to be present. He will be glad to assist and cooperate in every way. Write direct to Ontario Farm Service, Postoffice Buildings, Toronto, for information and literature. Let the farmers know what you are doing, enlist their aid in helping you to help them.

BRIEF NOTES FOR THE BUSY FARMER — By Haldimand Hark —

My kingdom for a drink — Don't forget the pullets on the range. This has been repeatedly urged the necessity of providing ample water on the range. These young birds suffer just as much through lack of water as they do through lack of food. We cannot expect them to grow into strong healthy laying hens if we stint on our care here.

I want to thank you all very much for the amount which I received to-day. I don't know what we boys would do here for another week if it were not for you kind people here. Because it would take a small fortune if I had to buy the things here at these prices. Thanking you all again, yours truly,
