

Four Reasons—Among Many

Canadians are holding and buying more Victory Bonds because they realize:

- that in 1944, Canada's war expenditures may be the highest of any year to date and must be financed.
- that increased war production will shorten the war.
- that Victory Bonds are the best safeguard against the needs of the future.
- that Victory Bonds are the most secure and saleable investment, and yield a good return.

There is no better investment than Dominion of Canada Bonds.

OTTAWA REPORTS

That Canadian Wheat Supply In 1945 Will Probably Be 10 to 15% Less Than In 1944

Canada's wheat surplus at the close of the current crop year is expected to be between 230,000,000 and 350,000,000 bushels compared with 350,000,000 at the end of July, 1943, but crop prospects are such as to suggest that total wheat supplies in Canada during the next 12 months will be perhaps only 10 to 15% less than they were in the crop year just coming to a close.

Reduction in prices of imported farm machinery, as a result of the Budget announcement of the cancellation of duty and war exchange, will amount to about 95% on general line implements, 115% on cream separators, 85% on tractors and 1% on tractor repair parts, according to H. H. Bloom, administrator of Farm Machinery for War-time Prices and Trade Board.

The new Federal bill to stabilize prices of agricultural products has its keynote in the clause providing that in prescribing prices, the administering board "shall endeavor to ensure adequate and stable returns for agriculture by promoting orderly adjustment of the market to peace conditions, and shall endeavor to secure a fair relationship between the returns from agriculture and those from other occupations."

Legislation provides for the setting up of a Board of three to administer the Act and regulations passed from time to time. In the alternative, the Board to prescribe, with the approval of the Governor-in-Council, prices at which the Board may purchase agricultural products in the market. Two alternate methods of stabilizing operations are provided for: first, that the Board may purchase products at the prices prescribed, according to standards and grades covered by Acts now in existence, or which may be set up by the Board. In the alternative, the Board is empowered to pay to producers the difference between the prices prescribed by the Board for any product, and the average price at which the product is selling on the open market, in case the average market price is below the prescribed price. Either method may be used at any time according to what the Board determines is in the public interest. A revolving fund of not more than \$200,000,000 is provided by the Act for the Board's operation. All agricultural pro-

FLYING CHICKS

ducks are included except wheat which is already under the Wheat Board Act.

Just 24 hours before this picture was taken in Chicago, these kiddies were eggs in California. United Air Lines Stewardess Lynn Stauffer fondles chicks which make trip as experiment in post-war possibilities in transportation by air of such items to foreign countries.

Strawboard Used In Containers

Those who are studying the request of the Hinde & Dauch Paper Company for wheat, rye and oat straw may be influenced by the knowledge that strawboard is urgently needed by the Department of Munitions and Supply. Strawboard is used extensively in the manufacture of congested shipping containers for overseas shipments. It is also used in the packaging of certain foods for civilian requirements.

How Can I?

By Anne Ashley

Q. How can I clean window shades?

A. Try rubbing them with a rough flannel cloth dipped in flour.

Q. How can I give a polish to cut glass?

A. Articles of cut glass will have a brilliant polish if a little turpentine is added to the water when cleaning them. Use about one tablespoon to two quarts of water.

Q. How can I make rice pudding without raisins so that it will not curdle?

A. Cook the raisins separately, as they frequently curdle the pudding. Drain off the water and add to the pudding when the rice is done.

Q. How can I bring back faded colors?

A. If colors have faded in a garment, use a little vinegar in the rinse water after laundering and it will help revive the colors.

Q. How can I make a wall paper cleaner?

A. Mix 1 cup of flour and 1/2 cup cold water to a smooth paste. Add 2 tablespoons salt, 2 tablespoons sugar, 1 tablespoon kerosene. Boil until it thickens, stirring constantly. Allow it to cool, then knead thoroughly. Use the same as the manufactured kind.

Have You Heard?

By Anne Ashley

Two dairies were engaged in an advertising war. One of the companies hired a daredevil racer to drive a car around the town with large placards reading:

"This Daredevil Drinks Our Milk."

The rival company came out with placards twice as large, reading:

"You Don't Have To Be A Daredevil To Drink Our Milk."

Canadian sailor: "How fast are your aircraft carriers?"

American sailor: "Can't stay. Never really tried 'em at top speed yet. All they've been required to do so far is keep up with the planes!"

Poetic Rover (to farmer): "And does this glorious setting sun mean nothing to you?"

Farmer (mopping his brow): "It says it does. It means I can eventually unhitch the horses and go home."

"I have a brother with a wooden leg."

"That's nothing. I've a sister who has a wooden chest."

Rustic: Ticket to London for the missus.

Booking Clerk: First or third, sir?

Rustic: Sh! She's the third, but I ain't never told 'er about the others!

Medium: "Ah, I hear the spirit of your late wife knocking."

Man: "Who's she knocking now?"

Modern Etiquette

By Roberta Lee

1. Where should the waitress begin to serve at dinner, and should she then proceed to the right or left?

2. When a girl is introducing a man to her mother, what would be the best phrase for her to use?

3. Is it in good form to send engraved invitations to a christening?

4. Is "Your's Very Truly" a correct closing for a letter?

5. Wouldn't it be time enough for a bride to wait until she returns from her honeymoon trip before acknowledging wedding gifts?

6. What does it mean when a friend is on a menu card?

ANSWERS

1. She should first serve from the left side, the woman guest of honor, who is seated to the right of the host, then proceed to the left. 2. "Mother, this is James Gray." If the man should be probably ten years older than the girl, she may say, "Mr. Gray." 3. It is done occasionally, but usually these invitations are extended by informal notes and telephone. 4. No, as there are three mistakes in the phrase "Your's", without an apostrophe, the possessive pronoun. The word "very" and "truly" (not truly) should not be capitalized. It should read "Yours very truly."

5. No; the gifts should be acknowledged before she goes away. 6. "Larded fried veal."

casually, but usually these invitations are extended by informal notes and telephone. 4. No, as there are three mistakes in the phrase "Your's", without an apostrophe, the possessive pronoun. The word "very" and "truly" (not truly) should not be capitalized. It should read "Yours very truly."

WHAT SCIENCE IS DOING

Lie Detector

At its last meeting the American Psychiatric Association expressed its low opinion of the lie detector in a resolution which pointed out that the findings were wrong in about thirty percent of the cases reported by Fred Inbau in 1942, that the feeling of guilt is too complex to be tested by any single instrument, and that the hardened criminal is more immune to the test than the free interview and other modes of probing his mind, says The New York Times.

No definite conclusions can invariably be drawn when the lie detector is used, and even those that are valid are no more trustworthy than ordinary confessions.

Headache

Nothing is more depressing than headaches. Why suffer? Lamby's will give instant relief. Lamby's is good for: colds, coughs, sore throats, back, stomach, bowels, toothache, neuralgia, rheumatism, etc.
