WARTIME SAVINGS

THE CANADIAN Government's monetary policy during the war has been generally approved by all serious minded citizens. This has been borne out by the consistent success of Victory Loan appeals and War Savings through stamps and certificates.

But there is a danger ahead. The European phase of the war may possibly end soon. Some may consider an armistice with Hitler, the signal to let loose on their spending.

The war against inflation must be carried on for some time after all military phases of action cease.

ELBOW ROOM

WAR HAS A WAY of denying at every turn the elbow room that makes for gracious living. Streets, buses, hotels and restaurants are packed everywhere.

Even the moderately gregarious sometimes suffer the delusion they are being pursued by a crowd. Daughters with husbands overseas have brought their broods home.

There's little to be gained in speculation about where the crowds kept themselves before the war. What is needed is wise planning for

PERSONALS

Montgomery has Auto Accessories Mrs. Guy Leathong spent the week end with Mr. and Mrs. Thos. McCready of Buffalo, N.Y.

Public buildings that have been allowed to run down at the heel during the manpower shortage also are marked for improvement and expansion in many centres.

Then, many persons who are dissatisfied with their present housing elbow room, plan to spend their war savings on new, more spacious homes.

It should all work out to eliminate that wartime feeling that someone large and strange is sitting in one's lap.

THE FREEDOM of the common man vanishes when there is only one employer for his labour.

WEEKLY PAPERS and THE WAR— THE WEEKLY newspapers of Canada are rendering a fine service in helping to maintain morale on the fighting front and at home.

Perusal of town and village papers reveals an inspiring interest in the welfare of the armed forces. They are giving leadership in every direction—cigarettes, socks and sweaters.

It would take columns to tell of the valuable work which the rural press of Canada has done to stimulate re-voiting, to raise money for comforts, to sell Victory bonds, and the like.

Canada is indeed fortunate in possessing a weekly press which is capable of rendering great patriotic service at such a time.

SO LONG as we live under a price system the business man is compelled to produce things that are wanted or to go out of business.

EVER walk into an auction and find yourself getting excited and wanting to bid... a victim of "auction fever" if we let them. Everything is in short supply. Many more people are able to bid. But... if prices are bid up... all our dollars will lose some of their value. Even necessities could get out of reach.

- What use is more money, if living costs go up still higher.
What good are higher returns to business, if they are offset by higher costs.
What does the farmer gain if higher farm prices lead to depression and low prices later.

We cannot continue a full war effort and prepare to meet the problems of the post-war period unless we maintain a stable and reasonable price level now. DON'T BID AGAINST YOURSELF - DIG IN AND HOLD!

LISTEN TO "IN THE SPOTLIGHT" RADIO PROGRAMS EVERY SUNDAY NIGHT 7:30 p.m., E.T. This is one of a series being issued by the Government of Canada to emphasize the importance of preventing further increases in the cost of living now and deflation later.

Brother, Should You Spend a Dime?

A dime is small change! But when a lot of dimes march out of your pocket they soon become dollars that start to fight other dollars, for the new neckties, dresses or furniture left for us to buy. This battle of the dollars is called INFLATION because it starts prices rising! And the higher prices go... the less your dollar is worth! For instance, during the last war, people had to pay for sugar that you get for today. A voile night dress was compared to the you pay now. Your dollar buys more goods, is worth more than the dollar of 1914-18. Price ceilings and other anti-inflationary measures have helped keep its value high. And remember! Every time you use your money wisely to pay off a debt or to increase your savings when you refuse to hoard goods or patronize black markets... it makes your dollars worth MORE!

Make This Pledge Today! I promise to give my support to keeping the cost of living down. I will buy only what I need. I will observe the ceiling whether buying or selling goods or services. I will pay off old debts, save for the future, invest in Victory Bonds and War Savings Certificates. And I will support taxes which help lower the cost of living.

Keep Your Dollar Value High!

Published by THE BREWING INDUSTRY (ONTARIO) to help reveal the dangers that inflation represents for all the people of the Nation.

Let a DURO Pump be Your Hired Man RUNNING WATER UNDER PRESSURE SPEEDS FARM PRODUCTION

THE Dominion Government has authorized increased production of farm machinery and equipment which includes Duro Pumping Systems. We are doing our utmost to produce more Duro Pumping Systems. However, the greatest part of our production is still required for the Armed it is impossible to produce all the Duro Pumps required.

Be sure to order a Pumping System large enough to take care of your needs. The cost is only a trifle more and you will be well repaid. For Sale By: W. J. ELLIOTT JARVIS — ONT.
