FARM COMMANDO

Front

trol over conditions

is virtually a pollus. Producers are now guaranteed minimum participation certificate values of 5 cents per pound for alfalfa, alsike and alsikemixtures and 3 cents er pound for red clover seed.

BRIEF NOTES FOR THE

sized that a grower selling any of these seeds to a seed buver is free to bargain on the basis of the value of his seed.

V V V

In other words no prices have been set other than maximum retail needs to be a seed but of the value of his seed.

but otherwise there is no set price to the producer.

V V V

Farmers and exhibitors of live stock other than racehorses may receive permits to transport farm live stock for purely exhibition purposes beyond the 35 mile limit when using a truck not their own and not having a P.C.V. license. A farmer owning his own truck does not require a permit for this purpose and he may even carry a neighbour farm er's stock along on the same trip. All applications for permits must be endorsed by the agricultural representative.

V V V

A total of 783 herds representing

A total of 783 herds representing A total of 783 herds representing 13,296 head of cattle were tested under the area test in Haldimand county up to August 9th. A total of 349 head or 2.62 per cent. were reactors. This is the lowest percentage yet reported. These reactors came from 97 premises. A total of \$11.102.00 has been allowed for compensation. This is an average of \$31.81 per head.

Yvv

Too much Haldimand poultry is being marketed in an unfinished con dition. This is unprofitable to the producer and the consumer is not satisfied with what he buys. Producers of poultry are urged to see

satisfied with what he buys. Producers of poultry are urged to see that their product is properly finished before selling. This is particularly true where the birds are being sold on a graded basis. The place for this finishing to take place is on the farm.
