Is 'Present Arms' to this Strange'

The Quality of poultry arriving at the local processing plant seems to be showing a marked improvement. This is most gratifying to all concerned. It means a greater return to the product, and a much better satisfied consumer.

An analysis of a half dozen lots of chickens picked at random showed 28.2 per cent A Milkfed, 54.82 per cent B Milkfed, 54.82 per cent grade C. If this is any indication of the average, it means that Haldimand poultrymen are going a long way to improve their product. Furthermore on a basis of price it so happens that these six farmers were paid an average price of 27.75 cents per pound for the entire lot.

with the Christmas Season. We hear many stories these days, from the occupied countries. They say themselves, that many of them for the first time, know what it is to share - their daily bread - the small luxuries that may, once in a long while, come their way - but most of all, the

Christ Child ever before us, we cannot fail.

In this fifth Christmas of a world at war we, of The Salvation Army, pause to offer a special prayer of thankfulness that, in the coming year, we may look for Peace, and that this bond of fellowship may be one of the cornerstones. We recognize the gigantic tasks we have to make this a lasting Peace and, with the spirit of the
