Have You Heard?

A young air corps officer sta-tioned somewhere in Egypt was flying near the Great Pyramid, carrying out exercises in naviga-tion and discovering his geographal position with a sextant. After a series of involved and confused calculations, he turned auddenly to his pilot and said,
Take off your hat."
"Why?" asked the pilot.

"Because, according to my cal-culations we are now inside St. Faul's Cathedral."

"Your wife is a very systematic woman, isn't she?" ask-ed Robinson. "Yes, very," replied Smith. "She works on the theory that You can find whatever you

want when you don't want it by looking where it wouldn't At the end of the first week young husband wrote to his wife: away from home on a new job, the

How Can 1?? By Anne Ashley

Q. How can I tighten the cane A. The cane seat of a chair that is slightly sagged can be tighten-ed by washing it with hot water, then drying it in a hot sun.

Q. How can I restore the swee ness of winter vegetables, that have arrived a long time after they have been picked? A. The sweetness can be resto ed by adding a little sugar to the water while boiling them.

Q. How can I clean windows

A. By washing them with chamois wrung out of warm wa-ter. Rinse the chamois and wring out as dry as possible and the rub over the windows again.
Q. How can I romove kalsomi from walls and ceilings without making too much dust? A. To remove kalsomine, wash walls and ceilings with warm water and a large sponge (if you are lucky enough to have one) or an old soft bath towel until the wash

ng water is clear. Q. How can I clean a velou covered chesterfield without vacuum cisaner? A. To clean a velour coverchesterfield, brush the dust out of the covering with a stiff brush or whisk and sponge with a non-inflammable cleaning fluid such as carbon-tetrachioride.

These are some of the Americans of Corregidor. They yielded to Japan's superior forces in what they thought was honorable surrender. They are being marched off to captivity. But many of them died on the way, and more died in prison camp, victims of the Japs' inhuman treatment, whose revelation through the U.S. Army and Navy report shocked the United Nations. The report indicated that, through vation and torture, at least a third of American fighters captured in the Phillipine Islands were killed,

OTTAWA REPORTS That In Parliament Last West A Price Floor Was Proposed For Staple Farm Products

Cheering news for Canada's farming community came week in the Speech from Throne at the opening of the fifth session of Canada's 19th Parliafarm products to ensure stability for agriculture follows an announcement made some time ago by the Prime Minister that this measure was under consideration. No group in the Dominion has contributed more in hard work and human endurance to the winning of the war than the farmer and his family. The coming season will call for no less effort than in the previous war years. A floor on farm pro-ducts in the future would be an in-

centive to meet this call. If you are tempted to use feed grain from the West for seed this year, the advice of Experimental Farm experts is "Don't." While there are several varieties of wheat, oats and barley that do equally well in both Eastern and Western Canada, as proven in tests made by the Cereal Division, Experimental Farm Service, Ottawa, the only safe seed to buy is Registered seed. Owing to the possibility of a shortage of seed grain the coring farmers are urged to

STRAW NEEDLES this spring, farmers are urged to order now. In addition to the possibility of Western feed grain being unsuitable to various localities in ANTI-SKID DEVICE e East, attention is called to the ious weeds which re-cleaning is not guaranteed to remove.

The farmer who has his own seed and who is doubtful about its germinating qualities due to in-jury by bad harvest conditions, heating or other factors, is advised to test it. Make the test by count-A more efficient windshield wiper has been invented—and now ing out 100 kernels and placing them in a saucer of moist sand with another saucer turned over it to help hold the moisture. (It may be necessary to add a very small amount of water each day to keep the sand moist). In a few Start New Life

days sprouts will begin to show and it is then easy to determine what percentage of the seeds will Farmers should place orders for fertilizer not later than March 15 to avoid disappointment, according to the fertilizer administrator, Warsurname-Kerin. time Prices and Trade Board. Regarding mixtures containing pot-ash which is in shorter supply than last year, retail distributors have to me." CLIP JOINT

been directed to see that all reg-ular farmer customers are supplied before accepting new accounts. New customers who are bona fide farmers may be taken on if addi-tional supplies are available. Need for potash supplies has led to re-duction of potash content in several mixtures and a consequent reduction in the ceiling price. A more liberal supply of nitrogen and phosphate has led to the approval mixtures containing only these two elements. A substantial reduction in price has been obtained to encourage the production of am-monium nitrate, a new wartime chemical with 32 percent nitrogen content. A minimum of 60 lbs. of this is now being used in every ton of mixed fertilizer produced.

The total gross farm value of all the field crops produced on 60,345,600 acres in 1943 was \$1,-104,055,000 compared with \$1,179,-073,000, the estimated value of crops produced on 60,809,200 acres in 1942 according to the latest Canadian Bureau of Statistics fig-

The search for new outlets for farm products is of primary im-portance, says the report of the sub-committee of the Advisory Committee on Reconstruction apicy, tabled last week in the House of Commons. A research pro-gramme including such experiments as use of plastics from farm waste, paper manufacture from straw, processing of oil seeds, grain alcohol production in local plants and food dehydraters for each farm is suggested.

You can get some idea of the size of the task which Bomber

Command has set itself by comparing Berlin with Hamburg.
Hamburg was itself a vast city—getting on for twice the size of any city in Britain outside London.
Hamburg had 1,800,000 inhabit-

ants and a fully built-up area of 8,382 acres. It is taking a whole series of attacks to render such

Command to peg away at Berlin

without interruption. The enemy

must be kept guessing as to where

Counter-Counter Measures

It isn't too much to say that the

bomber offensive is today the joint product of the brains, the

courage, and the grinding hard work of this entire nation. The

very success which has been achieved may tend to make some

people think that the bomber offensive has just been a matter

of building a sufficient number

of bombers, flying them over

and coming tome again The fact is that the bomber offensive has

only been carried forward by keeping one step ahead of the

Germany, dropping the bombs

a city as this useless to

Nazis. Moreover, it will, course, be impossible for Bor

we are going next.

Pathfinders Mark Targets it impossible for the Nazis to use Berlin. For remember, Berlin is If, for example we were to at-tack Berlin today with the same today the capital, not simply of aircraft and using the same Germany, but of Hitler's whole slave empire. Berlin is a city in methods which we employed only two years ago our bomber force would be massacred in one or two operations. But equally, if today our Lancasters, Halifaxes, Stira totally different class to Essen, Dusseldorf, or even Hamburg-or any other of the cities which Bomlings had to meet no more than the defences which existed in ber Command has so far attacked. Berlin is the fourth largest city in the world. It is one of the half 1942 they could destroy every dozen or so world capitals round which the life not only of one na industrial centre in Germany with negligible losses to themselves. Recently, we have been given an account of the work of our tion but of a whole area of the world revolves. Berlin contain Pathfinder Force. The need for someone to find the path to the target is obvious — for naturally that same darkness which hides the bomber from the defending fighter also tends to hide the target. factories of the highest importance; but its unique significance is that the economic life of Central Europe as a whole has been carried on by

means of the financial, marketing, fighter also tends to hide the taradministrative, and transportation get from the bomber.

The Pathfinders are marking Berlin Not Yet Destroyed the target so that intensely concentrated bombing is being achieved. For Germany that's We don't know what the effect of the paralysis of such a centre will be. For such a thing has never yet happened. If, however, Bomber Command can effect its purpose, we shall know . . and within the next few weeks. It may be that the Nazi empire can perhaps the most ominous development of all. For it is the concentration in both time and
