RED CROSS
WITH DUE regard for the very excellent work being carried out by numerous other organizations, the Red Cross Society is in a class by itself.

After four years of effort there may be a tendency to regard the Red Cross in a matter of fact way. We hope this can be avoided. Surely the need of the Red Cross is more important now than at any time, and it would be most regretful should the tempo of work lag.

THE FLY LEAF on the beautiful calendar issued by the Rolph-Clark-Stone Company for 1944, contains a message worthy of contemplation by all readers.

By the want of our money or the loss of our youth? The money will be returned with interest. There must be suffering and loss of life. That is the cost of war. But this sacrifice may be mitigated by the extent of which our leaders can be re-energized.

VALUABLE SERVICES
Newspapers sometimes obtain news ahead of time, and of course in the opinion of some readers we need have any.

FIGHTING SONS DESERVE FIGHTING MOTHERS
HERE IS A New Year's programme that a mother with four sons overseas outlines for all the mothers of Canada.

WHAT OLD ABE SAID
ABRAHAM LINCOLN had strong opinions about things. On economics he said: "Prosperity is the fruit of labor, property is desirable; a positive good in the world."

THE FIRST step in building a sound family of nations is to build a nation of sound families.

THE LETHBRIDGE Herald recently commented on the rather strange legal partnership in Toronto which strange legal partnership of Lang, Michener and Joffie, Daniel Lang, treasurer of the Ontario Liberal Association; Ronald Michener, a defeated Progressive Conservative Candidate on behalf of the C.C.F., party in Ontario and a successful candidate in one of the Yorks. This was all very firm, Conservative and C.C.F. all under political party.

WAITING IN WHOLE ARMOR OF GOD
EXPERIENCE of nearly a year with the Dominion Government's wartime liquor policy provides no evidence that it promotes the cause of temperance.

Let us fight for sound homes for the whole nation.
Let us fight for the schools that will provide the best possible citizens - men who will put their country's welfare before their own selfish interests.

Let us fight for the healing of all the bitterness that exists in industry, that management and labour may work and build together for the benefit of all.

Why not a million women in Canada starting to fight on this basis? Perhaps the men who are serving us with such devotion would find that we had also done our bit at home in their absence.
