The Effect of the "HOURS OF WORK AND **VACATIONS WITH PAY ACT 1944"** 

ON BUSINESS AND INDUSTRY IN ONTARIO

ON JULY 1st. 1944, the "Hours of Work and Vacations

While it is the purpose of this Act to provide improved conditions for all workers employed in industry in this Province, it will be obvious that the provisions of the Act cannot be permitted, at this time, to interfere with the all-out capacity effort required in producing material

The Industry and Labour Board, which will administer the Act, therefore, considers, in view of the present acute manpower shortage and the vital demands of war, that the application of the Act should be postponed and working conditions in force at present should not be arbitrarily changed.

> The Board therefore authorizes the continuance of Existing Working Hours in all industries operating on priority War Material in the Province of Ontario.

Industries engaged in Agriculture, Horticulture, Fishing and the Production of Foods and Farm Products; Dairying Industries including cheese and butter; Firms engaged in the building and upkeep of roads, construction, transportation, textiles and other undertakings which can be considered essential to the full maintenance of the war effort, shall be considered in the category of War Industries insofar as their present working hours are concerned.

Preparation of the groundwork for the operation and application or the Act will go forward immediately but the Industry and Labour Board wishes it to be understood that these preparations will not be permitted to interfere in any way with existing working conditions in vital industry as long as the present crisis exists.

## Closed For Two Weeks

On Saturday, June 17th, the 45th (R) Norfolk Field Regiment goes to camp Petawawa for a two week period, and with the Regiment goes 75 per cent of the Record staff. As a consequence, it has been decided to discontinue publication of this paper the weeks commencing June 19th and June 26th.

According to Lt. Col. W. D. Stalker this is the most mportant camp for the 45th Regiment since the outbreak of War. The men will get practical training in the firing of live ammunition from field artillery including 18 pounders, 25 pounders and 4.5 howitzers. In previous camps at Niagara-on-the-Lake this was impossible due to the ab sence of a suitable artillery range.

While we dislike to interrupt regular publication of the Record, we feel sure our readers will understand the objections to any other course. This is wartime and very few have not been affected in some way by the trials of The subscriptions of all subscribers will be extended for two weeks, and if the course we are taking proves objectionable to any readers or advertisers, just remember, Hitler is responsible for this.

At the present rate of production canada must market 2½ hogs for every one hog consumed at home. On the present basis it is expected that the export contract will be filled by August 1st or five months in advance. This is in no way an alarm ing situation for Great Britain can take all we can produce.
