IMPORTANT ELECTION

UNFORTUNATE circumstances have made it necessary for a by-election to be held in Haldimand-Norfolk. The date for the voting is March 20th. The result of the voting is highly important to the entire Province, and for that reason it is to be hoped that all electors will exercise their franchise in this election.

The C.C.F. Party with the unusual success they enjoyed in Ontario last August would appreciate nothing better than to elect a candidate in Haldimand-Norfolk in the first test since that election. A defeat for the Government would weaken the administration, and would only serve to hurry another general election.

No doubt the C.C.F. movement had its beginning due to glaringly apparent faults in our present system. The idea of social security naturally found a favoured place in the minds of many who felt the want of it in the depression years. The C.C.F. is now capitalizing on the rights of the little man. They hold a star aloft that will give to the same little man the rights taken from them by the selfish system of private enterprise. They point to certain examples which register in the minds of those who refuse to appreciate the benefits that have come to them due to the enterprise of individuals who they would condemn. We are naturally a selfish lot, and any plan or system which we feel might give us more will naturally be attractive to many individuals.

There are many faults in our system and many corrections to be made by those who will seriously devote themselves to that betterment through the system that now exists. But until such time as some other Country practising the plan of socialism can show us a better standard of living for its people than is enjoyed in Canada under the system of private enterprise, we suggest the people of Haldimand-Norfolk would be well advised to consider seriously how they mark their ballot on March 20th.

The Letter Box

Dear Laird: Just to let you know that I am still receiving the copy of the "Jarvis Record" that you send me each week. It certainly is a welcome little paper when you are so far away from your home town. Each time I receive a copy of it, I really enjoy reading the news from home. I have left England and in my travels I have been to North Africa, Sicily and have finally ended up here.

I have seen quite a few things that I never thought ever existed, but I wouldn't trade it all for a little piece of Canada. I would like to thank all the people around Jarvis for making it possible to send us boys out here and in England the cigarettes which we appreciate so much. Smokes are scarce out here. They are a thing of the past.

Well Laird, I guess I will have to say cheerio for now, so give my love to all around Jarvis and I hope to be with you all ever.

I remain as ever,
W. E. FESS

Hello, Rusty: Here I am again to thank you and the Jarvis Cigarette Fund for three hundred smokes I got to-day. They certainly are a welcome parcel. We get an issue out here but that is only fifty a week and you can hardly smoke them.

I got three records today also and was quite surprised and glad to read of George Parkinson's experiences. We all will have plenty to talk when he is all over, which I hope won't be long now.

Cherio and thanks again for everything.
DICK METCALFE

Many thanks, folks, for the cigarettes they were as usual, greatly appreciated. I was talking to Capt East and Ted Barber yesterday, they were both well, too, and we had quite a talk about "back home," etc. Well I must quit. Cherio.
PHIL COLWELL

Dear Friends: Many thanks for a thousand cigarettes received Christmas eve. Never was a Christmas present more thanked for. Enjoyed a very nice Christmas in London. Thanks again. Letter following.

A TURNING POINT OF EMPIRE

TWO WEEKS ago in the first of these series of three editorials, we made the point that, regardless of political and personal views on the proposals that Lord Halifax put forward, he has certainly brought to the fore a subject on which it is imperative that Canada have a very clearly defined policy. Russia's recent moves in granting autonomous powers to all of its sixteen soviet republics in need for such action on the part of the Dominion.

A new era dawned in Commonwealth history when we in Canada, as a free nation went to war because a central European monarchism was being overthrown by one of her nobles in a war in which we have pledged everything until victory is finally won. The question that faces us now, is to what extent are we prepared to go to win the peace too. This is the real underlying issue in all of these editorials on Future Empire policy.

Many criticisms have been voiced of Lord Halifax's proposals for closer unity of action with the Dominions, on the grounds that they are just another cloak for the old balance of power theory. If that is all he had in mind, then the idea should be discarded as outmoded. It is just like saying that the answer to industrial strife is for one especially strong group of management to band together and try to enforce peace. It might have temporary results, but never could be permanent.

Permanent peace will only be preserved when this sort of fearless international leadership is given - when nations will unite and have the moral courage to preserve and protect what they know is right. That is the only kind of security that the smaller nations of the world would feel was adequate, knowing that, no matter what the cost to national or economic interest of others, their rights would be safeguarded.

FEDERATION FACTS

— By Norman High —
Haldimand County farmers have decided to go ahead with the formation of a co-operative business. The service will be in the field of poultry and raising of livestock, being handled on the stressed and overworked farms. Each Forum will contribute not more than ten minutes of entertainment to the programme so that each Forum may hear from each of the other groups.

This is the final issue of Federation Facts. The term of your Federation for the Haldimand Federation of Agriculture has expired. An expression of sincere appreciation is extended to all members for their co-operative response to efforts that have been put forth in this past winter's programme and to the presence of Haldimand for its excellent support of the work. The high caliber of mutual respect and friendliness that exists between different areas and groups in Haldimand County is a noble heritage, guard it well, for it would have to be made.

USED FOR INSECTICIDES
New Delhi (C.P.) - India imports quantities of pyrethrum seed from East Africa which is now the United Nations' sole important source of the insecticide-producing pyrethrum flowers. The main producers were Japan and Dahomey.

that there are now fourteen or more Forums organized and meeting every Monday night. Members of Forums should remember the general meeting of all Forums in Haldimand County to be held in Fisherville on the evening of March 20th. Friends of Forum members are invited. Each Forum will contribute not more than ten minutes of entertainment to the programme so that each Forum may hear from each of the other groups. Part of the ten minutes might be used for a brief report of activities of the past season. The limit in time for each contribution will be strictly adhered to, because the number of Forums to be heard from will be quite lengthy. For refreshments, take your own lunches and the Fisherville Ladies will serve coffee. It looks like a fine, large evening.

BANKING IS ADAPTABLE

...it changes constantly to meet this country's changing needs

FOR INSTANCE...

Ever wonder where your ration coupons go? The answer is that your grocer takes your sugar, butter and other coupons to his bank, which acts as the government's agent in identifying and accounting for millions of spent coupons. This vast bookkeeping job—known as "Ration Coupon Banking"—is just one of the new, additional assignments which the banks have assumed as part of their wartime service.

Another is the payment, on behalf of the government, of certain subsidies arising out of wartime price control. Still another is the handling of exchange transactions as agents of the Foreign Exchange Control Board.

At the same time the banks have arranged facilities to serve military establishments and new war-industry centres alike. Through loans to industry and agriculture, they have helped to increase the supply of raw materials, weapons and food.

They have acted as issuing agents for approximately \$5,700,000,000 worth of Victory Bonds and War Savings Certificates, as well as lending direct financial aid to the government through short term loans.

All this in the face of widespread staff changes resulting from enlistments of 8,360 trained bank employees.

The war emergency has proved the readiness and ability of Canada's banks to adapt their services to new conditions. It has proved, once again, the strength of your banking system, which is providing a firm base of financial service for the greatest economic effort in the nation's history, and will with equal resourcefulness meet the challenge of the years ahead.

C. C. F. Public Meeting

IN THE JARVIS TOWN HALL

Wed. Evening, March 15

Special Speakers - BERT LEAVENS—M.P.P. Woodbine

GEORGE LOCKHART—M.P.P. Rainy River

JIM GIBSON—Candidate

QUESTION PERIOD - EVERYBODY WELCOME

Mr. Percy Atkinson of Ganfords, Mr. Harry Bonham spent the week end in Hamilton to be near his husband who is still a patient in St. of Halifax.

What the CCF will do for the Farmer

HERE ARE SOME OF THE CONSTRUCTIVE THINGS THAT A C.C.F. GOVERNMENT WILL DO FOR THE FARMER:

Guarantee minimum prices based on the cost of production, including a reasonable return for labour on the farm.

Help farmers plan production democratically to meet known demand.

Refinance farm mortgages at a low rate of interest through wise use of public credit.

Extend Hydro to all rural areas and steadily level out Hydro costs.

ELECT Jim Gibson the C.C.F. Candidate

James G. Gibson, C.C.F. candidate in the Haldimand-Norfolk by-election, is a farmer with years of practical experience in agriculture and with many other qualifications for public service.

Born and brought up on his father's farm in Haldimand County, he now operates the same farm with his wife, Laura, using the most modern methods to contend with the problems of wartime production.

Jim Gibson took time out from farming to attend the University of Toronto where he graduated with honours in Modern History. As Premier of the Ontario Boys' Parliament he had already travelled widely throughout the Province.

Jim Gibson also went to England for a year, attended the London School of Economics, and studied agriculture in both Great Britain and Denmark where the latest scientific methods were being used by practical farmers.

Returning to his home in 1932, Jim has been a very busy and hard-working farmer and citizen ever since. He was active in the New Canada Movement among farm youth.

Jim Gibson is highly qualified to represent the Haldimand-Norfolk Riding with which his family has long been associated, and he is also highly qualified to speak for agriculture in the Ontario Legislature.
