When Johnny has thrilled to the last lines of Tom Sawyer or Huckleberry Finn and when Jane has lived through exciting experiences of Anne of Green Gables, all they need to do to get more literature is stroll down the street...

WHAT SCIENCE IS DOING

Plasma Miracles

Blood plasma, the foremost life-saver of wounded men in this war, has been split into a number of fractions, each of which is as miraculous as plasma itself.

Garden Notes

To Relieve Strain

This year with the war in a critical phase, gardeners and gardeners are needed more than ever.

For the citizen of the Dominion. In the spring one turns naturally to gardening.

Digging in the soil, sowing seeds and watching plants develop provides a welcome and needed change when tension was never greater.

Good Seed There is not a substitute for good seed. Other factors may be beyond control but the gardener has absolute check over this foundation.

Sow Grass Early Any work with lawns should be started just as quickly in the spring as possible.

Head Colds Hang On..

To relieve discomfort, one of the best things you can do is to put a good spoonful of home-made Vicks VapoRub in a bowl of boiling water.

The War - Week - Commentary on Current Events

There was no blood and thunder in the remarks Mr. Churchill made last week about the little central nation on the other side of the St. George's Channel.

For the British people have found it hard to tolerate a situation in which the same moderation in his comments at his press conference.

Public opinion in both countries will support these spokesmen. There can be no feeling in the United States or in Britain against the people of Eire.

The problem, as Mr. Churchill briefly explained it, is a purely practical one. As long as Axis spies, with the status of diplomats, remain in Eire, close to the scene of preparation for the invasion of the Continent, the military plans of the United Nations are in danger of being betrayed.

The Time Has Come Speaking in the House of Commons, Mr. Churchill said in part: "We have for some time past taken a number of measures to minimize the dangers arising from a substantial diversion to the Allied cause involved in the retention by Mr. de Valera's government of the German Minister and Japanese Consul, with their staffs, in Dublin."
