## RESULTS ARE DEFINITE-

The results of the Haldimand-Norfolk by election on Monday clearly demonstrated that the people of this riding are not yet prepared to scuttle the freedom, the traditions, and fine record of the past established by the system of government long in force. The emphatic endorsation of Charles Martin, the candidate of the Drew Administration leaves no doubt that the irresponsible agitation which supposedly would lead us to utopia, has not, and not likely will ever lead the people of this riding o selling the security of the past for som radical dream of the future.

The C.C.F. party increased their total vote over the last election in August 1943. but this was to be expected. They unleashed every power of their resources during the campaign to influence the voters toward the doctrines they expouse - even to the extent of bringing in the National leader. Their campaign was extensive and their literature found its way into every home in the riding. Their policies were placed before all of the people. If we are to judge by the result, the declarations of policy as voiced by the socialist leaders will never meet with popular approval in this riding. Even though there may be backtracking or qualifying of existing policies - as a party their qualifications for leadership in Government will always be viewed with certain suspicions.

The candidate has been a good, sound citizen of this riding all his life. He has lived among the people doing good where ever he Being tolerant toward the weaknesse of others and giving leadership in every undertaking that would promote the welfare of his fellow citizens. He is the kind of man who lives up to the ideals of good living and certainly that is the type of representation we want at Queen's Park.

## RED CROSS OVER THE TOP-

THE Jarvis Red Cross Branch and the Nanticoke Branch have announced that again the people of this community have substantially put the annual campaign for funds over the top.

There is nothing particularly wrong with people of a community who unfalteringly meet the charitable demands made upon them from time to time. The people of the Jarvis community have a splendid record in this regard. In every undertaking since the outbreak of war when calls upon their generosity became more pronounced, our citizens have wholeheartedly met the demands made upon them. They would not want it otherwise. In connection with the Red Cross Campaign just concluded, a vote of thanks is due to the canvassers who went to every home in the district with their appeal. Their job was made easier no doubt by the way the appeal was met.

#### VVVV THINK IT OVER-

"COUNT YOUR blessings .... words of the old gospel hymn are singularly appropriate at a time when one hears of beefing" on the home front.

Apart from mental anguish suffered by those who have lost loved ones overseas, Canadians have comparatively little to worry about. Those at home may grumble about high taxes, rationing, curtailment of the sale of alcoholic beverages and other things, but they know nothing of the suffering and privations of millions in war-

Canada remains untouched by war's physical destruction. Our people have not been made homeless by enemy bombings and families have not been torn asunder because their cities, towns and villages had become battle-fields. And because of the war many of those on the home front have been given the opportunity to earn more money than ever before in their lives.

Canadians also have to be thankful for the fact that they live in a land of natural plentyin itself a major blessing. Such a blessing, if available to all other nations of the world, would act as a brake on war-like spirits. For why should a people endowed with plenty of nature's gifts want to live the hard way - the warlike way?

And in peace or war Canadians always are free from fear of such catastrophies as major earthquakes and floods which in many countries from time to time have taken huge tolls in life

Truly the physical annoyances Canadians are called upon to put up with as a result of the war boil down to petty pinpricks. The joy expressed by returning fighting men at being home again and the amazement of newcomers at the fulness of our wartime life should make "beefers" pause and think.

# A SOLDIER'S PRAYER-

THE FOLLOWING poem entitled "A Soldier's Prayer" was submitted to us by Rev. itewart B. East from the Italian War Theatre. n his words the poem expresses the feelings of he boys, some of whom have prayer for the supply the deficiency of first time in their lives. The soldier's name is unknown, although he fought his way from Egypt to Tunicia Egypt to Tunisia.

Stay with me God; the night is dark The night is cold; my little spark Of courage dies. The night is long; Be with me God and make me strong

love a game. I love a fight. hate the dark; I love the light; I love my child; I love my wife. I am no coward. I love life.

Life with its change of mood and shade want to live. I'm not afraid But me and mine are hard to part, O unknown God, lift up my heart.

You stilled the waters at Dunkirk And saved your servants. All your work Is wonderful, Dear God. You strode Before us down that dreadful road.

We were alone and hope had fled We loved our country and our dead And could not shame them; so we stayed The course, and were not much afraid.

Dear God; that nightmare road! and then That sea! We got there - we were men My eyes were blind, my feet were torn My soul sang like a bird at dawn! I knew that death is but a door.

I knew what we were fighting for Peace for the kids, our brothers freed, A kinder world, a cleaner breed I'm but the son my mother bore A simple man and nothing more.

But, God of strength and gentleness

Be pleased to make me nothing less Help me, Mam, when death is near To mock the haggard face of fear That when I fall if fall I must, My soul may triumph in the dust.

Happily, in the existing economic status of Canada, such breadwinners are very much in the minority. Most families in communities large and small in all provinces are in receipt of sufficient income to provide for the necessities, to pay their income taxes in full and in addition buy Victory Bonds.

There are large numbers of these, however, who spend their income as fast as it comes in and who will also find the income tax balance due for the year 1943 difficult to finance.

#### HOUSEWIVES IN INDUSTRY

- By Lewis Milligan -

Housewives have been recruited fighting forces. War is an abnor-mal condition in human life, and it requires both men and women to do things they would not think of doing in times of peace. Cities are devas-tated and homes and entire families are wiped out in an instant, and even countries remote from the way zone family life is more or less bro-ken up and the routine of civilized

we accept these conditions as we accept an earthquake, and we strive to make the best of them. There may be those who, having benefited by the war, would not mind if it continued indefinitely. They look back upon the depression and feel that they should blame-somebody for those hard times. But if the war came to Canada they would wish they were back in the depression with all of its hardships. If we are prosperous in Canada, it is only be-cause people in the war-torn countries and our fighting men are suffering and dying to keep us free. Full employment has always been associated with war, and one of the evils of war is that it creates overmployment. The employment of ousewives and others who in times of peace would be engaged in dom estic affairs is perhaps the worst feature of that condition. The home is the nursery of the nation, and, if t is neglected, family life is disorized and the rising generation is degraded. This is evidenced by the reports of increasing juvenile delin-

quency.

In all our planning for post-war reconstruction one of the first things should be the rehabilitation of the home. And yet there are those who advocate the continuance of housewives in industry in order to give what they call "full employment" and maintain the national income at the wartime level of marinum nare the wartime level of marinum nare the wartime level of marinum nare. the war-time level of maximum production.
