This Applies To Every Community

(An article written by a Victory Loan speaker appeared in a recent issue of the "Orono Weekly Times," from which the following extract has been taken. It is well worth reading.)

In Clarke Township alone, here are some facts to cherish. Almost 200 men and women have entered the armed forces, the Village of Orono alone has sent about 59 of these. Four of our girls are also signed up, seventeen of our men have been wounded, and four others reported missing and may never come back. These figures are conservative and not exaggerated. These are the husbands, sons and daughters of our own people. There is no question as to what the relatives of all these will do during the Loan. The big question is what will you do, you who have no loved ones in the conflict, or those of you who choose to keep your dollars close by, or others who strive to find what they foolishly think is a safer investment. After all, it is a question of your der the auspices of the Loal. No. figures are conservative and not exaggerated. These are the husbands, sons and daughters of our own people. There is no question as to what the relatives of all these will do during the Loan. The big question is what will you do, you who have no loved ones in the conflict, or those of you who choose to keep your dollars close by, or others who strive to find what they foolishly think is a safer investment. After all, it is a question of your dollars against the possible safe return of the other man's child. This other man's child is carrying on in spite of blood and sweat, and the parents in spite of tears and worry. Our men and women are fighting for themselves, their loved ones, their homes, but they are als; fighting for all others, you included, while you have comfortable homes, have never heard the sound of a bomb, have never seen the results of war's destructive powers, and have never waited and prayed at home with a dreadful fear that will not down. If you have money you can invest, it is your duty to do so, for the sake of the other fellow, for the peace of the world, and after all, for the sake of your own self respect.

sake of the other fellow, for the beace of the world, and after all, for the sake of your own self respect.

There is only one thing the self-respecting man can do, and that is BUY VICTORY BONDS to the limit of his ability, and buy until it really means a sacrifice. Then when our men and women come marching home he will be able to look them in the face unashamed, and if he meet the friends in sorrow because their loved ones do not come back, his sympathy will be worth while, because it rings true after having done his bit.

The Sixth Victory Loan has been going fairly well, but at a speed which will find the district far short **OBITUARY** of its quota at the end of the cam-
