WHAT SCIENCE IS DOING

Future Aircraft

propelled aircraft. Highly exper-lenced and critical test pilots say they are easily flown, very responeive to controls, and the high-speed otary power units are so smooth and vibrationless in operation that they prefer them to orthodox types. Their advantages are many, according to the men who fly them. To begin with, the power produced is applied directly. There is no transmission gear of conversion mechanism. Thus the power plant is simplified, weight is considerably re-duced and loss by friction is avoided. Then it does not need highgrade aviation gas as fuel. Paraffin, diesel or tar oil can be used in its stead and so-called "safety" fuels can be used without any loss of efficiency. There is no compli-cated supercharger, with gear shifts, clutches and boost control.

Only a simple fuel-injection system is required. Also the vibration to reduced, the airscrew is eliminated, saving further weight, simplifying control and reducing compli-cation. Predictions are that with the coming of this British gas tur-bine, the design of future aircraft

being planned.

The British have announced that Allied invasion planners have had mosaic of 8,000 miles of continental invasion coastline, put together from pictures made by the RAF. Five hundred thousand pictures were used in the mosaic. They were taken by reconn ssance pilots flying seven miles high at six miles a

DOES YOUR BODY ACHE?

RECTAL SORENESS AND PILE TORTURE QUICKLY RELIEVED

if you are troubled with itching plies or rectal soreness, do not delay freatment and run the risk of letting this condition become chronic. Any itching or soreness or painful passage of stool is nature's warning and proper treatment should be secured at once. age of stool is nature's warning and proper treatment should be secured at once.

For this purpose get a package of Hem-Hold from any druggist and use as directed. This formula which is used internally is a small, easy to take tablet, will quickly rolleve the itching and soreness and aid in healing the sore tender spots. Hem-Hold is pleasant to use, is highly recommended and it seems the height of folly for any one to risk a painful and chronic pile condition when such a fine remedy may be had at such a small cost. If you try Hem-Rold and are not entirely pleased with the results, your money

In an unusual division of duties, Maj.-Gen J. C. Murchie, above, has been appointed chief of staff of the Canadian Army, with temporary rank of lieutenant general. He'll be responsible for Dominion forces in North America, while Lt.-Gen. Kenneth Stuart, whom he succeeds, retains responsibility for succeeds, retains responsibility for forces overseas.

United Nations And Axis Struggle For Supremacy In Southern Italy WHERE ALLIES LAUNCH ALL-OUT DRIVE

THE WAR - WEEK - Commentary on Current Events

Map shows where Allied 5th and 8th Armies in Italy have opened an all-out offensive along an 85-mile from from Casino to the Tyrrhenian Sea. It is believed to be the first of coordinated blows from the west, south and east planned to squeeze Germany out of the war.

pened in Southern Italy two weeks ago, differs from pre-vious attacks of the Eighth, Army. Our task now is to assault and break through in turn a series of natural defensive positions strongly held and long prepared, each of which the Germans will cling to until forced out. Our immediate objective is the Gustav Line which has been for-

titfied for many months past, and ncludes modern -concrete defense works in many places. Behind this lies the Adolf Hitler Line, another strong natural defensive position, which German military engineers prepared for months past, strengthened to the utmost, and which Hitler's

troops will be ordered to hold to the last man. The defenses we now are attacking are the strong-

est the British Army has encoun-

tered in the present war.

own name to this second line be-yond the Gustav defenses indicates

its strength, and Nazi belief that it will not be broken. Anticipating the onslaught, the enemy has strengthened these defenses, specially the Hitler Line, with steel and concrete, using his own men and thousands of Italian

The Germans also cleared civilians out of an area behind the front at least 20 miles deep, which now has become an arena of a slugging match unrivaled in Ital-

ian history.

May Be Turning Point

This battle may be as much a turning point as was the Battle swiftly because one side had a major superiority in weapons, including the weapons of treachery and ruth cosness.

over from General de Gaulle a tech nique of automotive warfare. They also won because the French were divided, with the minorities of the extreme left and the extreme right "Believe me, you should try ALL-BRAN for constipation — if it has the same cause mine had. For nothing I tried keeps me so regular, so gently."

No dosing —no nesty harsh nur. Now the Nazi superiority in weapons, in Italy and everywhere else, has passed. Some of the

United Nations weapons are now superior in quality. In quantity and in productive capacity the United nations have an enormous advan-tage. Our supply lanes are open, subject only to minor loss by sub-marine action. British factories are comparatively safe from Nazi at-tack. American factories entirely safe. German factories and supply routes enjoy no such immu For many months they have been under attack and for a month under an air assault of unprecedented magnitude. In Italy itself the railways below Florence are reported
