A. L. MILLER, Editor

NEVER HAVE SO MANY OWED SO MUCH—

YOU DON'T make two operational tours over enemy territory as the pilot of a huge four-motored bomber plane without realizing what this war is all about. You don't sit in the cockpit in one of those amazons of the air, with the responsibility of the lives of six other crew members behind you, in the face of a terrible flak barrage without realizing the game is for keeps. You don't ask yourself will I or won't I. You do it. What do you do ? You pray to God for your life and exert every skill at your personal command to preserve it. Yes, it is different than making up your mind whether or not you will invest in a Victory Bond. It is different than deciding whether or not you will make a donation of blood at the next Clinic. It is different than deciding whether you will give five or ten to the Red Cross at their next appeal. It is for keeps.

That is the experience of S.L. Harry Gowan D.F.C. and Bar. Two complete operational tours over enemy territory. Forty-five flights in the face of enemy flak barrage, fighter planes and weather. Four motors and a control board that would blank a College professor. What is this we have asked the sons of our own community to perform for us ? It has been a task that has called for the greatest possible courage ever conceived in the human heart. It has been a task far removed from the Christian teaching that has formed the environment of our normal life.

Thank God, Harry Gowan has returned to us. He is not asking for any special praise, he is not looking for any hero worship. But it is there. He has merited the most outstanding acknowledgement of service rendered that any community, or country, could have reason to recognize. Yet he has done all this for us, with no more ado than he would have delivered a load of peas from his farm to the thresher. We say to the readers of this paper, that such a performance is of historic moment in our lives. Harry is home again. Bands and fanfare will not reveal our true feelings to him. But the silent prayers we offer for his safe return will be revealed in a manner beyond our comprehension, and will dispose his heart to the reception of our feelings of deep gratitude for a duty performed on our behalf.

WARTIME INCONGRUITIES—

GLIMPSES of life in Europe's oppressed countries are filtering into Canada as Allied armies steadily but surely bring about the liberation of these lands from German domination. Through war correspondents' reports and news photos Canadians are learning more and more about the hardship, degradation and privation suffered during five years of war.

The sympathy engendered by these accounts should in no way be tempered by reports of factional strife in these countries, of gay and protracted liberation celebrations, of crowds at race meetings and of the latest Parisian fashions. These are the incongruities of war — sidelights that cause a minor mental shock at first glance, but which pale into insignificance when set against the depressing picture of conditions in the greater part of Europe.

On this side of the Atlantic we have been engrossed with the broad aspects of war — of German and Allied offensives and withdrawals, the effects of the German air blitz on Britain, the atrocities in Poland and Greece and the Nazi persecution of the Jews. So black has been this overshadowing picture that we have hardly sensed that life has gone on for the suffering peoples, a life only possible because it has been buoyed by the hope of ultimate release.

Every picture has its light as well as its shade and a little thought puts the incongruities of war in their proper perspective. The spark of freedom has been kept alive under conditions never before known in the history of Europe and the resiliency of the emancipated nations has been thought-provoking in its revelation.

But behind it all lies the fact that the war-torn and pillaged countries cannot fully recover without the help that only the New World can give in abundance. Canada's part in bringing about this recovery will be no mean one.

TOWNS AND THEIR CITIZENS—

WHY DO some towns go ahead while others seem to stagnate ? asks the Orangeville Banner. Continuing it says, this is an interesting question and a question that will immediately suggest a number of answers. We do not profess to know all the answers.

We are not sure that we know any of them. Nevertheless, we are going to venture the statement that one answer lies in the spirit of the citizens themselves. If they are progressive and enterprising the chances are that their town will go ahead. If they have acquired the habit of overcoming obstacles it is very likely that working unitedly they will find ways and means of overcoming any obstacles that may bar the progress of their town.

If they are so immersed in their own affairs that they are indifferent to civic welfare, careless about what happens so long as it does not directly affect or concern their own businesses, then the chances are that the town will stagnate.

We are all just a little too much inclined to let things drift. Too many of us are content to let established habits and conditions continue no matter how badly they may be outmoded. Because the affairs of the town have run along in a certain way, why should they not continue to run that way ? Complacency and contentment have their good points, but they do not make for progress.

Citizens must have the urge for change and improvement if their town is to have much chance to go ahead and increase its business, increase in wealth and population, and attract new industries. If the citizens of a town are bright, ambitious and industrious they can do a whole lot to overcome the limitations and obstacles that block the way of progress. And they can do a whole lot more by acting unitedly than they can ever hope to accomplish by individual action.

SALE! Dollars at Half Price!

Sounds like a sure-thing bargain. But how many of us realize that in Canada we're getting dollars at less than half the price of other years ½ PRICE ½ SALE! ... at a fraction the price in many other countries to day. Here's what we mean. A dollar is worth as much as it will buy. And to day your dollar buys at least twice as much as it did in the last war. For instance, your 5¢ buys a bar of laundry soap that cost 15¢ in those days. To day, you can buy the same quality felt fedora for $3.50 that set you back $8.50 then. Truly your dollar is half price since it buys twice as much. Price ceilings and other anti-inflationary measures have kept its value HIGH! And you protect your dollars worth every time you buy a bond VICTORY BONDS .. pay off a debt BILL PAID .. refuse to hoard goods or frequent black markets. That's how to make dollars count MORE!

Make This Pledge Today!

I promise to give my support to keeping the cost of living down. I will buy only what I need. I will observe the ceiling whether buying or selling goods or services. I will pay off old debts, save for the future, invest in Victory Bonds and War Savings Certificates. And I will support taxes which help lower the cost of living.

Keep Your Dollar Value High!

PLOWING MATCHES SUCCESSFUL

One of the largest Plowing Matches in the history of the Haldimand Plowmen's Association was held on Thursday last on the farms of Messrs. Leonard Park and Ward Grinyer. A total of fifty-one entries were received and all of the plowing was of a very high order.

One new feature was the Practical Plowing class with Tractors. This attracted five entries and proved to be of great interest throughout the day.

The entries were almost equally divided between horses and tractors which is different from many previous years. There were twenty-five teams and twenty-six tractors entered.

Howard Fess won the Premium Award for the best plowed land in Jointer Classes, winning the Salada Tea Special. Rhys Bacher won the Premium Award in the Tractor Classes for the best plowed land being awarded the special Trophy donated by S. W. Cronk.

Another feature of interest at the Match was the large number of Juniors taking part.

The program during the day was enriched by Demonstrations by the Dynamometer under the guidance of Mr. Clark Young, a Corn picker operated by Mr. Malen Wilkins and a combine which was on display.

In the evening a most successful Banquet was held in the Eastern Star Hall. On which occasion Dr. G. I. Christie was the guest speaker. Dr. Christie complimented the Association on its work and stated that it must have the confidence of the local people in order to attract such a large entry and such a lively interest. He also stressed the importance of the one family small size farm.

The winners for the various classes were as follows:

Jointer in Sod - Open — 1st, Howard Fess, Selkirk; 2nd, George Garlow, Ohsweken; 3rd, Robert Laidlaw Jarvis; 4th, Alfred Dickie, Jerseyville.

MAN AIDS NATURE

Study the story of Canada's achievements under the Prairie Farm Rehabilitation Act. Areas there which a few years ago were drifting sand dunes dubbed by many as the Canadian desert, are today growing grass and trees. Livestock are grazing. There is hope and stability in the land again. Nature has lent a kindly hand in the changing cycle of weather, but man's ingenuity was the mainspring.

Can You Picture CANADA without Doctors?

Today our country's doctors and nurses are serving by the hundreds with Canada's armed forces—in every theatre of war. And here, at home, other thousands are fighting doubly hard to keep their fellow citizens in good health. They are truly a potent factor in minimizing interruptions in war production.

We, of Greyhound Lines, salute Canada's 10,723 doctors and 38,509 nurses for doing so much to make our Dominion a better place to live in. Our job is different, but vital, too—providing safe, dependable transportation—making near neighbors and good neighbors of all the communities we serve in Canada.

GREYHOUND

● That old saying, so well known to farm folks . . . "Plow to the end of the furrow" . . . so aptly makes our duty plain. And the end of the furrow is beyond the horizon.

Our men on the fighting fronts have weary, trying days ahead of them. We, on the home front, must not waver nor falter. Our duty is clear, *we must keep faith with our fighters.* On Canadian farms we must maintain our efforts to produce the foods our fighters and our allies need. That work will reward us with increased incomes.

And we must *save* . . . to have money to *lend* to our country to pay the increased costs that this war continues to pile up.

Money invested in Victory Bonds will help to buy the tools of war. They don't last long in action. They must be replaced. It's our job . . . the home front job . . . to see to it that our fighting men have everything they need.

Victory Bonds yield a double harvest. They provide our country with money to carry on the war. Later, they will provide money to buy things we will want and need, and which we have done without during the war. Victory Bonds will provide cash to pay for improvements for farm and home . . . new buildings . . . new machinery . . . better stock . . . new car . . . furnishings and conveniences for the home.
