

It Does taste good in a pipe
Picobac
The Pick of Tobacco

A lady war worker, engaged in the making of precision instruments, went to a ball game on her day off. A decision of the umpire dispensed her. "Ya big hum", she hollered. "He was safe by a thousandth of an inch!"

Canada's Prosperity Is Not An Accident
It is not accidental that Canada has achieved its high standard of prosperity and comfort under a system of private capitalism operating under democratic rule, claims the Kitchener Record. The system has its operational faults and abuses, but basically it is strong, popular and successful.
What we need now is a sound plan for putting that system back on a peaceful basis with fewer faults and abuses than it had before, and a willing and co-operative belief in it by all of us who must make it work.
Fill that need—as undoubtedly it will be filled—and we need not go looking for red bogeymen under the bed.

Up In The Air
A traveller from Berlin said a typical story going the rounds in the German capital was that after the war was lost Hitler and Goering were hanging side by side from a gallows, convicted as war criminals. Goering turned to Hitler and said: "Didn't I always tell you Adolf, the war would be decided in the air."

Fatherly Advice
Navajo Indian Judge Many Children received notice that a son had been wounded in action. He sent him this message: "If you are wounded in the leg and can't march, you should tell the army and come home. If you are not wounded in the leg, get up pronto and shoot some more Japs."

Sapphires and Diamonds
by DOROTHY TROWBRIDGE
CHAPTER VII
Nancy glanced at Maxine's eyes as the station agent took her check promising to send her...

"She is still the sweetest thing on earth and I don't believe you will notice any difference in her at all. She continues to run the house as usual..."

"De Lord be praised," he cried rushing forward to assist her to the ground. Mrs. Horton had come to the open door to greet Peggy's friend but she could see only Maxine. She opened her arms wide and the girl rushed into them, literally picking the fragile old lady up in her arms.

The Quality Tea "SALADA" TEA
By Gwendoline P. Clarke
CHRONICLES OF GINGER FARM

Dishes are done, floors swept, beds made, so I thought I might get a little time at this column before thinking about our next meal. But not I say as the mailman at the gate—that means an interruption. You know... there is something about the mail—something that gets it when it's there. There may be only a paper—or some family letters meant to a mother you don't need to tell you. Some family letters are content until the men come in from the field before getting the mail. That is something I can't do. Of course I must interfere with one's morning work, and of course, if there are letters if there are none then you just work that much harder to forget your disappointment. This morning I won't have to walk down to the mail. I see Partner walking up the lane with the mail bag. Almost in a minute — I must see what there is...

LONE SURVIVOR
When the Allied Airforce bombed Casimo in Italy, only three men of the 100 men of the 3rd Company, 2nd Para Troop Regiment of General Heider's famous First German Paratroop Division, survived. Since then one was killed by Canadian shell fire, another died of wounds and the third, Senior Private Ernest Markert, 2nd Para Troop Regiment, was the lone survivor. He has been in the hands of the German High Command since he was captured. He is a member of the Hitler Youth Movement and is the first German to be awarded the Iron Cross of the Second Order for service at Casimo.

Kaiser's And Hitler's Submarine Warfare
In the early months of 1917, the Kaiser came within a hair's breadth of victory with his submarine warfare. In this war Hitler has made far greater use of the U-boat. The full part played in the Nazis' near-victory in 1940-41 won't, of course be known until after the war, but it will doubtless be found to have been tremendous.
Suffice it for now that the joint Roosevelt-Churchill figure of 400 German submarines destroyed since September, 1939, compared with only 203 sunk from 1914 to 1918! Then against this pile of the solemn warning: "The U-boat fleet is still of impressive size."
