Pte. Mitchell had been in France less than a month when he was reported missing on August 27th. His father received a letter from him dated August 2nd, but which was obviously meant for September 2nd and for that reason it was felt, or at least hoped that a mistake had been made in the report that he was missing. Whether it was a mistake or not will of course remain undetermined until some further word is received from Pte. Mitchell. The main fact is now that he is safe, and the anxiety caused his family and friends is relieved.
