*What does
YOUR
FARM NEED?*

If you want to build a modern barn

or buy new equipment

or electrify your farm

or modernize your house

...then have a talk with your bank manager about his new powers under the Farm Improvement Loans Act.

How often have you said "If I could only raise the money?" Well, if you could, what would you do to improve your farm and increase your production?

Would you build a modern barn?
or buy new machinery?
or modernize your house?
or electrify your farm?

You can raise short term money from your bank; and long term money from other institutions by way of mortgage. But there are some things you would like to do which require loans that are neither long nor short...

That is where the banks, operating under the new Farm Improvement Loans Act, can help you. The gap has been filled. "Intermediate" loans at a specially low rate can now be obtained for periods of two or three years—or even longer, in cases up to ten years.

So, if you have a project in mind to improve your farm, drop in and talk it over with your local bank manager. Ask him what he is now empowered to do to help make your farm living more attractive and your work more profitable.

He will tell you—and show you—that your bank is just as eager to meet the sound credit needs of the farmer as of the merchant or manufacturer.

We Did It Before AND We Will Do It Again!

In the Seventh Victory Loan the citizens of the Jarvis District did a grand job...with the launching of the Eighth Victory Loan the torch is again handed to us and I am confident we will again meet the challenge.

The Eighth Victory Loan Campaign opens NEXT MONDAY MORNING and continues for three weeks. During that time we hope to meet, if not surpass, an objective of \$180,000.00. The same canvasser will be calling on you as in the last loan. He is well known to you and has, I hope, earned your complete confidence.

This Loan is just as important to our Country, as any of the Loans in the past. We all realize now the absolute necessity of lending our money for war purposes...and besides we also realize the advantages to ourselves as a means of sound investment.

Let us therefore, regard this Loan as another battle to be won on the home front. Our men in Service have never failed...let us match them, as best we can, the valor and courage of these men and women, who have saved us from the tyranny of Nazism.

Last year Jarvis led all other districts and Chairman Marshall thinks we can do it again. The Chairman of the Caledonia district is Alex. H. This Issue...

WE ARE DEVOTING this issue of the Record to the interests of the Eighth Victory Loan Campaign which opens next Monday morning. On pages four and five will be found a layout of pictures of people from this district in the Services. This group is by no means complete, which is regretful to us, but pictures of many are not available. Information relative to this and previous loans is given, and officials in the County as well as locally are named.

We feel the success of the Loan is vital to our welfare and if we can encourage the purchase of Bonds to the limit of the ability of each and every person in this district we will have made some contribution to a worthy cause. We are buying Bonds to back the boys who are pictured on pages four and five, and the Loan slogan this time "INVEST IN THE BEST" is a worthy one.

A Message For Farmers

Canadian farmers are confronted with a rare opportunity to do some effective planning in their own interest and in that of the nation. W. D. Albright declared recently in Alberta. Canadian farm income, which reached a low of \$383,000,000 in 1932, has risen to \$222,000,000 in 1939 and to \$1,748,000,000 (estimated gross income) in 1944. While a good deal of the jump is represented by price increase, volume has held up well. Every important wartime call upon Canadian farm production has been substantially met, or more than met, in spite of labour shortage and the shortage of new machinery. But while this magnificent record was being achieved the farm plant has been running down at heel, and that cannot go on forever. It is a good time for each farmer to sit down and carefully consider a definite plan for the future, looking toward the improvement of his farm enterprise, improvement of his farm home, the future welfare of his family and the possibility of setting aside something for a nest egg and keeping it as a reserve against contingencies. Victory Bonds are the ideal means to these ends but it must be remembered that \$1.00 will not do the work of \$2.00. Each farmer must consider what he needs most. Perhaps it is a well or a dugout, or water on tap in the house, or a new barn, or a new house, or a new tractor, or some good stock. Make a list of the desiderables and review it carefully. And don't be in too much of a hurry to spend it all. There may be a buying spree after the war as there was after the last war, in which case prices will strain the controls. Some of the dollars may buy more if they are held two or three years after the war. By buying bonds now and thinking out a careful plan of using the proceeds later on we may not only help to win the war but help to win the peace as well.
